The indicated rates of return are the historical annual compounded total returns, including changes in unit value and do not take into account sales, redemption or optional charges or income taxes payable by a security holder that would have reduced returns. The Fund was originally launched as a TSX-listed closed-end fund on November 21, 2014, and converted into an exchange traded fund on April 25, 2016. Performance shown is since inception of the closed-end fund. In connection with the conversion, and pursuant to unitholder approval, the annual management fee payable by the Fund to First Asset, as manager, was reduced to 0.85% (from 1.00%) of the NAV per unit and certain changes were made to the investment objectives, strategies and restrictions applicable to the Fund. Material among these changes is the ability of the Fund to invest in securities of global financial issuers; thereby broadening the scope of eligible investments both geographically and by type of financial institutions. On April 18, 2016, Signature Global Asset Management, a division of CI Investments Inc., commenced investment advisory and portfolio management services for the Fund. Had these changes been in effect prior to this date the performance of the Fund could have been different.

¹The Trailing 12 Month Yield is calculated on the Fund's actual distributions paid to investors over the past 12 months based on NAV. All distributions are paid in cash.
