This prospectus constitutes a public offering of these securities only in those jurisdictions where they may be lawfully offered for sale and only by persons permitted to sell these securities.

PROSPECTUS

Continuous Offering

February 1, 2018

First Asset Active Credit ETF

The First Asset Active Credit ETF (the “**First Asset ETF**”) is an actively managed exchange traded mutual fund trust established under the laws of Ontario. The First Asset ETF is offering two classes of units for sale on a continuous basis by this prospectus: CAD\$ common units (the “**Common Units**”) and US\$ common units (the “**US\$ Units**” and, together with the Common Units, the “**Units**”).

It is intended that at all times at least 90% of the value of the foreign currency exposure attributable to the Common Units will be hedged back to the Canadian dollar. The foreign currency exposure attributable to the US\$ Units will not be hedged back to the Canadian dollar.

The portfolio is managed by Onex Credit Partners, LLC. First Asset Investment Management Inc. (the “**Manager**”), a registered portfolio manager and investment fund manager, is the trustee and manager of the First Asset ETF and provides all administrative and management services required by the First Asset ETF.

See “Organization and Management Details of the First Asset ETF” for further information.

Investment Objectives

The First Asset ETF’s investment objective is to maximize long term risk-adjusted total returns, delivered through cash distributions and long term capital appreciation, in a manner consistent with preservation of capital and prudent risk management by actively investing primarily in Credit Securities (as defined herein) of North American issuers.

See “Investment Objectives” for further information.

Listing of Units

The Units of the First Asset ETF are currently listed on the Toronto Stock Exchange (the “**TSX**”) and investors can buy or sell such Units on the TSX through registered brokers and dealers in the province or territory where the investors reside. Investors may incur customary brokerage commissions in buying or selling Units. No fees are paid by investors to the Manager or the First Asset ETF in connection with buying or selling of Units on the TSX.

Additional Considerations

No underwriter or dealer has been involved in the preparation of this prospectus or has performed any review or independent due diligence of the contents of this prospectus. The Canadian securities regulators have provided the First Asset ETF with a decision exempting it from the requirement to include a certificate of an underwriter in this prospectus. The applicable designated broker and dealers are not underwriters of the First Asset ETF in connection with the distribution of Units under this prospectus. While the First Asset ETF is a mutual fund

under the securities legislation of certain provinces and territories of Canada, it has been granted exemptive relief from certain provisions of Canadian securities legislation applicable to conventional mutual funds.

Provided that the First Asset ETF qualifies as a “mutual fund trust” within the meaning of the Tax Act, or the Units of the First Asset ETF are listed on a “designated stock exchange” within the meaning of the Tax Act, the Units of the First Asset ETF, if issued on the date hereof, would on such date be qualified investments under the Tax Act for a trust governed by a registered retirement savings plan, a registered retirement income fund, a registered disability savings plan, a deferred profit sharing plan, a registered education savings plan or a tax-free savings account.

For a discussion of the risks associated with an investment in Units, see “Risk Factors”.

During the period in which the First Asset ETF is in continuous distribution, additional information about the First Asset ETF will be available in the most recently filed annual financial statements, any interim financial statements filed after those annual financial statements, the most recently filed annual management report of fund performance, any interim management report of fund performance filed after that annual management report of fund performance and the most recently filed ETF Facts document for the First Asset ETF. These documents will be incorporated by reference into this prospectus which means that they legally form part of this prospectus. For further details, see “Documents Incorporated by Reference”.

You can get a copy of these documents at your request, and at no cost, by calling 416-642-1289 or 1-877-642-1289 (toll-free) or by e-mail at info@firstasset.com or from your dealer. These documents will also be available on the internet at www.firstasset.com. These documents and other information about the First Asset ETF will also be available on the website of SEDAR (the System for Electronic Document Analysis and Retrieval) at www.sedar.com.

GLOSSARY

Unless otherwise indicated, the references to dollar amounts in this prospectus are to Canadian dollars and all references to times in this prospectus are to Toronto time. The following terms have the following meaning:

“**allowable capital loss**” has the meaning ascribed to such term under the headings “Income Tax Considerations – Taxation of the First Asset ETF” and “Income Tax Considerations – Taxation of Holders”;

“**Basket of Securities**” means a group of securities and/or assets determined by the Portfolio Manager from time to time representing the constituents of the First Asset ETF;

“**Canadian securities legislation**” means the securities laws in force in each province and territory of Canada, all regulations, rules, orders and policies made thereunder and all multilateral and national instruments adopted by the securities regulatory authorities in such jurisdictions;

“**Capital Gains Refund**” has the meaning ascribed to such term under the heading “Income Tax Considerations - Taxation of the First Asset ETF”;

“**Cash Creation Fee**” means the fee payable in connection with cash-only payments for subscriptions of a PNU of the First Asset ETF, representing, as applicable, brokerage expenses, commissions, transaction costs and other costs or expenses that the First Asset ETF incurs or expects to incur in purchasing securities on the market with such cash proceeds;

“**Cash Exchange Fee**” means the fee payable in connection with cash-only payments for exchange of a PNU of the First Asset ETF, representing, as applicable, brokerage expenses, commissions, transaction costs and other costs or expenses that the First Asset ETF incurs or expects to incur in selling securities on the market to obtain the necessary cash for the exchange;

“**CDS**” means CDS Clearing and Depository Services Inc.;

“**CDS Participant**” means a participant in CDS that holds security entitlements in Units on behalf of beneficial owners of those Units;

“**Common Units**” means the redeemable, transferable CAD\$ common class of Units (and, for greater certainty, does not include any US\$ Units), and “**Common Unit**” means any one of them;

“**Converted Units**” has the meaning ascribed to such term under the heading “Exchange and Redemption of Units”;

“**Converting Units**” has the meaning ascribed to such term under the heading “Exchange and Redemption of Units”;

“**counterparty**” has the meaning ascribed to such term under the heading “Risk Factors – Securities Lending, Repurchase and Reverse Repurchase Transaction Risk”;

“**CRA**” means the Canada Revenue Agency;

“**Credit Securities**” has the meaning ascribed to such term under the heading “Investment Strategies”;

“**Custodian**” means CIBC Mellon Trust Company;

“**Custodian Agreement**” means the custodial services agreement dated as of May 17, 2006 among the Manager, as manager and trustee of the First Asset ETF, CIBC Mellon Global Securities Services Company, Canadian Imperial Bank of Commerce, The Bank of New York Mellon and CIBC Mellon Trust Company, as may be further supplemented, amended and/or amended and restated from time to time;

“Dealer” means a registered dealer (that may or may not be a Designated Broker) that has entered into a Dealer Agreement with the Manager, on behalf of the First Asset ETF, pursuant to which the Dealer may subscribe for Units as described under “Purchases of Units”;

“Dealer Agreement” means an agreement between the Manager, on behalf of the First Asset ETF, and a Dealer;

“Declaration of Trust” means the amended and restated declaration of trust for the First Asset ETF, as supplemented, amended or amended and restated from time to time;

“derivatives” means an instrument, agreement or security, the market price, value or payment obligations of which is derived from, referenced to or based on an underlying interest;

“Designated Broker” means a registered dealer that has entered into a Designated Broker Agreement with the Manager, on behalf of the First Asset ETF, pursuant to which the Designated Broker agrees to perform certain duties in relation to the First Asset ETF;

“Designated Broker Agreement” means an agreement between the Manager, on behalf of the First Asset ETF, and a Designated Broker;

“DFA Rules” has the meaning ascribed to such term under the heading “Income Tax Considerations – Taxation of the First Asset ETF”;

“Distribution Record Date” means a date determined by the Manager as a record date for the determination of Unitholders entitled to receive a distribution;

“DPSP” means a deferred profit sharing plan within the meaning of the Tax Act;

“ETF Facts” means the ETF Facts document prescribed by Canadian securities legislation in respect of an exchange traded mutual fund, which summarizes certain features of the exchange traded mutual fund and which is publicly available at www.sedar.com and provided or made available to registered dealers for delivery to the purchaser of securities of an exchange traded mutual fund;

“First Asset” means First Asset Investment Management Inc., the Manager and Trustee of the First Asset ETF;

“First Asset ETF” means First Asset Active Credit ETF;

“forward contracts” means agreements between two parties to buy or sell an asset at a specified point of time in the future at a predetermined price;

“Fund Administration Agreement” means the amended and restated fund administration services agreement between the Manager and CIBC Mellon Global Securities Services Company dated as of January 11, 2011, as may be further supplemented, amended and/or amended and restated from time to time;

“futures contracts” means standardized contracts entered into on domestic or foreign exchanges which call for the future delivery of specified quantities of various assets such as stocks, bonds, agricultural commodities, industrial commodities, currencies, financial instruments, energy products or metals at a specified time and place. The terms and conditions of futures contracts of a particular commodity are standardized and as such are not subject to any negotiation between the buyer and seller. The contractual obligations, depending upon whether one is a buyer or a seller, may be satisfied either by taking or making, as the case may be, physical delivery of an approved grade of commodity or by making an offsetting sale or purchase of an equivalent but opposite futures contract on the same exchange prior to the designated date of delivery. The difference between the price at which the futures contract is sold or purchased and the price paid for brokerage commissions, constitutes the profit or loss to the trader. In market terminology, a trader who purchases a futures contract is “long” in the market and a trader who sells a futures contract is “short” in the market. Before a trader closes out his or her long or short position by an offsetting sale or purchase, his or her outstanding contracts are known as “open trades” or “open positions”. The aggregate amount of

open long or short positions held by traders in a particular contract is referred to as the “open interest” in such contract;

“**GST/HST**” means taxes exigible under Part IX of the *Excise Tax Act* (Canada) and the regulations made thereunder;

“**IFRS**” means the International Financial Reporting Standards;

“**IRC**” means the independent review committee of the First Asset ETF established under NI 81-107;

“**Management Fee**” has the meaning ascribed to such term under the heading “Fees and Expenses – Fees and Expenses Payable by the First Asset ETF”;

“**Management Fee Distribution**”, as described under “Fees and Expenses”, means an amount equal to the difference between the Management Fee otherwise chargeable by the Manager and a reduced fee determined by the Manager, at its discretion, from time to time, and that is distributed quarterly in cash, at the discretion of the Manager, to the applicable Unitholders who hold large investments in the First Asset ETF;

“**Manager**” means First Asset, in its capacity as investment fund manager of the First Asset ETF pursuant to the Declaration of Trust;

“**minimum distribution requirement**” has the meaning ascribed to such term under the heading “Income Tax Considerations – Status of the First Asset ETF”;

“**Monthly Conversion Date**” has the meaning ascribed thereto under “Exchange and Redemption of Units”;

“**NAV**” or “**net asset value**” (of a class) means the net asset value of the First Asset ETF (or of a class of Units of the First Asset ETF, as applicable) as calculated on each Valuation Day in accordance with the Declaration of Trust;

“**NI 81-102**” means National Instrument 81-102 *Investment Funds*;

“**NI 81-107**” means National Instrument 81-107 *Independent Review Committee for Investment Funds*;

“**Non-Portfolio Income**” has the meaning ascribed to such term under the heading “Income Tax Considerations – Taxation of the First Asset ETF”;

“**NP 11-203**” means National Policy 11-203 *Process for Exemptive Relief Applications in Multiple Jurisdictions*;

“**Payment Date**” has the meaning ascribed to such term under the heading “Distribution Policy – Distribution Reinvestment Plan”;

“**Permitted Merger**” has the meaning ascribed to such term under the heading “Unitholder Matters – Permitted Mergers”;

“**Plan**” has the meaning ascribed to such term under the heading “Income Tax Considerations – Status of the First Asset ETF”;

“**Plan Agent**” means Computershare Trust Company of Canada, plan agent for the Reinvestment Plan;

“**Plan Participant**” has the meaning ascribed to such term under the heading “Distribution Policy – Distribution Reinvestment Plan”;

“**Plan Units**” has the meaning ascribed to such term under the heading “Distribution Policy – Distribution Reinvestment Plan”;

“**PNU**” means the prescribed number of Units determined by the Manager from time to time for the purpose of subscription orders, redemptions or for other purposes;

“**Portfolio Management Sub-Advisory Agreement**” has the meaning ascribed to such term under “Organization and Management Details of the First Asset ETF – Details of the Portfolio Management Sub-Advisory Agreement”;

“**Portfolio Manager**” means Onex Credit Partners, LLC, in its capacity as sub-advisor of the First Asset ETF;

“**Promoter**” means First Asset, in its capacity as promoter of the First Asset ETF;

“**Proxy Voting Policy**” has the meaning ascribed to such term under the heading “Proxy Voting Disclosure for Portfolio Securities Held”;

“**RDSP**” means a registered disability savings plan within the meaning of the Tax Act;

“**Registrar and Transfer Agent**” means Computershare Trust Company of Canada;

“**Reinvestment Plan**” means the distribution reinvestment plan for the First Asset ETF, as described under the heading “Distribution Policy – Distribution Reinvestment Plan”;

“**RESP**” means a registered education savings plan within the meaning of the Tax Act;

“**RRIF**” means a registered retirement income fund within the meaning of the Tax Act;

“**RRSP**” means a registered retirement savings plan within the meaning of the Tax Act;

“**Sales Tax**” means all applicable provincial and federal sales, value added or goods and services taxes, including GST/HST;

“**Securities Lending Agreement**” has the meaning ascribed to such term under the heading “Investment Strategies – Securities Lending, Repurchase and Reverse Repurchase Transactions”;

“**securities regulatory authorities**” means the securities commission or similar regulatory authority in each province and territory of Canada that is responsible for administering the Canadian securities legislation in force in such jurisdictions;

“**Tax Act**” means the *Income Tax Act* (Canada) and the regulations thereunder, as amended from time to time;

“**Tax Amendment**” means a proposed amendment to the Tax Act publicly announced by the Minister of Finance (Canada) prior to the date hereof;

“**TFSA**” means a tax-free savings account within the meaning of the Tax Act;

“**Trading Day**” means a day on which a session of the TSX is held;

“**Trustee**” means First Asset, in its capacity as trustee of the First Asset ETF pursuant to the Declaration of Trust;

“**TSX**” means the Toronto Stock Exchange;

“**Unitholder**” means a holder of Units of the First Asset ETF;

“**Units**” means the Common Units and US\$ Units of the First Asset ETF, as applicable, each of which represents an undivided interest in the net assets of the First Asset ETF, and “**Unit**” means any one of them;

“**US\$ Units**” means the unhedged US\$ common class of Units, and “**US\$ Unit**” means any one of them;

“Valuation Day” means a day upon which a session of the TSX is held; and

“Valuation Time” means 4:00 p.m. (EST) on a Valuation Day.

PROSPECTUS SUMMARY

The following is a summary of the principal features of the Units and should be read together with the more detailed information, financial data and financial statements contained elsewhere in this prospectus or incorporated by reference in this prospectus. Capitalized terms not defined in this summary are defined in the Glossary.

Issuer: First Asset Active Credit ETF

Offering: The First Asset ETF is an actively managed exchange traded mutual fund trust established under the laws of Ontario. The First Asset ETF is offering two classes of units for sale on a continuous basis pursuant to this prospectus: Common Units and US\$ Units. See “Overview of the Legal Structure of the First Asset ETF”.

The primary difference between the Common Units and the US\$ Units is that (i) the exposure in relation to the US\$ Units to currencies other than the Canadian dollar will not be hedged back to the Canadian dollar, and (ii) the US\$ Units will be denominated in U.S. dollars whereas the Common Units will be denominated in Canadian dollars.

The net asset value per Unit of each class will not be the same as a result of the different currency hedging strategy. See “Distribution Policy”.

Continuous Distribution: Units will be offered for sale on a continuous basis by this prospectus, and there is no maximum number of Units that may be issued. The Units shall be offered for sale at a price equal to the net asset value of the Units determined at the Valuation Time on the effective date of the subscription order.

The Units of the First Asset ETF are currently listed on the TSX and investors can buy or sell such Units on the TSX through registered brokers and dealers in the province or territory where the investors reside. Investors may incur customary brokerage commissions in buying or selling Units. No fees are paid by investors to the Manager or the First Asset ETF in connection with buying or selling of Units on the TSX.

The First Asset ETF issues Units directly to Designated Brokers and Dealers. From time-to-time and as may be agreed between the First Asset ETF and the Designated Broker and Dealers, such Designated Broker and Dealers may agree to deliver a Basket of Securities as payment for Units.

See “Plan of Distribution” and “Purchases of Units – Issuance of Units”.

Investment Objectives: The First Asset ETF’s investment objective is to maximize long term risk-adjusted total returns, delivered through cash distributions and long term capital appreciation, in a manner consistent with preservation of capital and prudent risk management by actively investing primarily in Credit Securities of North American issuers.

See “Investment Objectives”.

Investment Strategies: The portfolio is managed by Onex Credit Partners, LLC (the “**Portfolio Manager**”) in its capacity as sub-advisor of the First Asset ETF.

The Portfolio Manager seeks to achieve the investment objective of the First Asset ETF through the application of specialized analysis and expertise, and invests in a portfolio consisting primarily of corporate fixed income instruments (“**Credit Securities**”) of North American issuers, including high yield bonds (senior secured and senior unsecured), investment grade bonds, senior floating rate loans of varying maturities and other floating rate fixed income securities. The Portfolio Manager’s portfolio credit selection process is rooted in independent research that evaluates an issuer’s entire capital structure. The relative allocation among types of Credit Securities and individual issuers will be based primarily on the Portfolio Manager’s view of macro-economic conditions combined with ongoing bottom-up fundamental credit analysis and its assessment of which instruments offer the most attractive relative value on a risk-return basis, both within an issuer’s capital structure and across other issuers’ capital structures. The ability to allocate between types of Credit Securities enables the Portfolio Manager to adjust the credit and duration profile of the portfolio, with a view to allowing the First Asset ETF the opportunity to achieve its investment objective in all interest rate environments and manage duration when necessary. The investment strategy is designed to offer capital preservation, liquidity and diversification but with greater flexibility to mitigate downside risk while preserving the ability to benefit from rising rates if the opportunity exists. At any time, the First Asset ETF’s portfolio may consist primarily of non-investment grade securities, and may include government bonds.

If market conditions require, in order to preserve capital, the First Asset ETF may seek to invest a substantial portion of its assets in cash and cash equivalents.

Use of Derivative Instruments

The Portfolio Manager may, on behalf of the First Asset ETF, invest in or use derivative instruments, including futures contracts and forward contracts, provided that the use of such derivative instruments is in compliance with NI 81-102 or the appropriate regulatory exemptions have been obtained, and is consistent with the investment objective and strategy of the First Asset ETF.

Currency Hedging

At the discretion of the Portfolio Manager, the First Asset ETF may choose to enter into currency forward agreements or other derivatives to hedge all or a portion of the value of the First Asset ETF’s foreign currency exposure, provided that, with respect to non-Canadian dollar denominated assets attributable to the Common Units, it is intended that at all times at least 90% of the value of the First Asset ETF’s foreign currency exposure (other than individual currency exposure which the Portfolio Manager in its sole discretion determines is impractical to hedge or is non-material) will be hedged back to the Canadian dollar. All such currency forward agreements or other derivatives will be entered into in compliance with NI 81-102 with financial institutions that have a “designated rating” as defined in NI 81-102. Hedging currency exposure to reduce the impact of fluctuations in exchange rates is intended to reduce the direct exposure to foreign currency risk for Unitholders.

Securities Lending, Repurchase and Reverse Repurchase Transactions

The First Asset ETF may enter into securities lending transactions, repurchase and reverse repurchase transactions in compliance with NI 81-102 to earn additional income for the First Asset ETF.

Short Selling

The First Asset ETF may engage in short selling in compliance with NI 81-102 in an attempt to manage volatility or enhance the performance of the First Asset ETF in declining or volatile markets.

See “Investment Strategies”.

Investment in other Investment Funds

In accordance with applicable securities legislation, including NI 81-102, and as an alternative to or in conjunction with investing in and holding securities directly, the Portfolio Manager may, on behalf of the First Asset ETF, also invest in one or more other investment funds, including other investment funds managed by the Manager or the Portfolio Manager (each, an “**Other Fund**”), provided that no management fees or incentive fees are payable by the First Asset ETF that, to a reasonable person, would duplicate a fee payable by the Other Fund for the same service.

Special Considerations for Purchasers:

The provisions of the so-called “early warning” requirements set out in Canadian securities legislation do not apply in connection with the acquisition of Units. In addition, the First Asset ETF is entitled to rely on exemptive relief from the securities regulatory authorities to permit a Unitholder to acquire more than 20% of the Units through purchases on the TSX without regard to the takeover bid requirements of applicable Canadian securities legislation, provided that such Unitholder, and any person acting jointly or in concert with such Unitholder, undertakes to the Manager not to vote more than 20% of the Units at any meeting of Unitholders.

See “Attributes of the Securities - Description of the Securities Distributed”.

Distributions:

Any cash distributions of income on the Units are expected to be made monthly in the currency in which the Units of the First Asset ETF are denominated. The First Asset ETF does not have a fixed distribution amount. The amount of such distributions, if any, will be based on the Manager’s assessment of anticipated cash flow and anticipated expenses of the First Asset ETF from time to time. The date of any cash distribution of the First Asset ETF will be announced in advance by issuance of a press release. The Manager may, in its complete discretion, change the frequency of these distributions and any such change will be announced by press release.

Depending on the underlying investments of the First Asset ETF, distributions on Units may consist of ordinary income sourced from interest or distributions received by the First Asset ETF and income sourced from foreign source income, but may also include dividends and net realized capital gains, in any case, less the expenses of that First Asset ETF and may include returns of capital.

See “Distribution Policy”.

Distribution Reinvestment:

At any time, a Unitholder may elect to participate in the Reinvestment Plan by contacting the CDS Participant through which the Unitholder holds its Units. Under the Reinvestment Plan, cash distributions (net of any required withholding tax) will be used to acquire additional Units in the market and will be credited to the account of the Unitholder through CDS.

See “Distribution Policy – Distribution Reinvestment Plan”.

Redemptions:

In addition to the ability to sell Units on the TSX, Unitholders may redeem Units for cash at a redemption price per Unit equal to 95% of the closing price for the Units on the TSX on the effective day of the redemption. The First Asset ETF will also offer additional redemption or exchange options which are available where a Dealer, Designated Broker, or Unitholder redeems or exchanges a PNU.

See “Exchange and Redemption of Units”.

Income Tax Considerations:

A Unitholder who is resident in Canada will generally be required to include, in computing income for a taxation year, the amount of income (including any net realized taxable capital gains) that is paid or becomes payable to the Unitholder by the First Asset ETF in that year (including such income that is reinvested in additional Units).

A Unitholder who disposes of a Unit that is held as capital property, including on a redemption or otherwise, will generally realize a capital gain (or capital loss) to the extent that the proceeds of disposition (which do not include any amount of capital gains made payable by the First Asset ETF to the Unitholder which represents capital gains realized by the First Asset ETF in connection with dispositions to fund the redemption) net of costs of disposition, exceed (or are less than) the adjusted cost base of that Unit.

Based on the Manager’s understanding of the current published administrative policies and assessing practices of the CRA, a conversion of US\$ Units into Common Units or a conversion of Common Units into US\$ Units will likely constitute a disposition of the Units being converted. The redemption of any fraction of a Unit will generally result in a capital gain (or capital loss) for the redeeming Unitholder.

All U.S. dollar amounts relevant in computing any amount under the Tax Act with respect to the acquisition, holding or disposition of US\$ Units will be determined for purposes of the Tax Act in Canadian dollars at the appropriate exchange rate prevailing on the date of the transaction in accordance with the rules in the Tax Act. Holders of US\$ Units may realize gains and losses by virtue of the fluctuation in the value of U.S. dollars relative to Canadian dollars.

Each investor should satisfy himself or herself as to the federal and provincial tax consequences of an investment in Units by obtaining advice from his or her tax advisor.

See “Income Tax Considerations”.

Eligibility for Investment:

Provided that the First Asset ETF qualifies as a “mutual fund trust” within the meaning of the Tax Act, or the Units of the First Asset ETF are listed on a “designated stock exchange” within the meaning of the Tax Act, the Units of the First Asset ETF, if issued on the date hereof, would on such date be qualified investments under the Tax Act for a trust governed by an RRSP, a RRIF, an RDSP, a DPSP, an RESP or a TFSA.

See “Income Tax Considerations – Taxation of Registered Plans”.

Documents Incorporated by Reference:

During the period in which the First Asset ETF is in continuous distribution, additional information about the First Asset ETF will be available in the most recently filed annual financial statements, any interim financial statements filed after those annual financial statements, the most recently filed annual management report of fund performance, any interim management report of fund performance filed after that annual management report of fund performance, and the most recently filed ETF Facts. These documents will be incorporated by reference into this prospectus. Documents incorporated by reference into this prospectus legally form part of this prospectus just as if they were printed as part of this prospectus. These documents will be publicly available on the website of the First Asset ETF at www.firstasset.com and may be obtained upon request, at no cost, by calling 416-642-1289 or toll-free 1-855-983-ETFs (855-983-3837) or by contacting your dealer. These documents and other information about the First Asset ETF are also publicly available at www.sedar.com.

See “Documents Incorporated by Reference”.

Termination:

The First Asset ETF does not have a fixed termination date but may be terminated at the discretion of the Manager in accordance with the terms of the Declaration of Trust. See “Termination of the First Asset ETF”.

Risk Factors:

An investment in Units is subject to certain risk factors, including:

- (a) No assurances on achieving investment objective;
- (b) Global economic conditions; market dislocation;
- (c) Potential implications of Brexit;
- (d) Natural disasters, terrorist acts and similar dislocations;
- (e) Risks associated with investments in high yield bonds;
- (f) Risks associated with investing in fixed income securities and floating rate instruments;
- (g) Risks associated with investments in commercial loans;
- (h) Risks from insufficient collateral securing first lien loans;
- (i) Agent risk;
- (j) Market for loan investments;
- (k) Other risks associated with first lien loans;
- (l) Additional information about benchmark rates;
- (m) Derivatives risk;
- (n) Foreign currency exposure risk;

- (o) Futures contracts and options risk;
- (p) Restrictions on trading due to status;
- (q) Short selling risk;
- (r) Interest rate risk;
- (s) Specific issuer risk;
- (t) Securities market risk;
- (u) Foreign markets risk;
- (v) Global financial developments;
- (w) Liquidity of the assets in the portfolio risk;
- (x) Loan settlement risk;
- (y) Legal and regulatory risk;
- (z) Corresponding net asset value risk;
- (aa) Fluctuations in NAV and market price of the Units;
- (bb) Designated broker/dealer risk;
- (cc) Reliance on key personnel;
- (dd) Potential conflicts of interest;
- (ee) Risks associated with residency of the Portfolio Manager;
- (ff) Cease trading of securities risk;
- (gg) Exchange risk;
- (hh) Early closing risk;
- (ii) Concentration risk;
- (jj) Reliance on historical data risk;
- (kk) Illiquid securities;
- (ll) Market disruptions risk;
- (mm) Tax risk;
- (nn) Withholding tax risk;
- (oo) US government obligations;
- (pp) Securities lending, repurchase and reverse repurchase transaction risk;
- (qq) Fund of funds investment risk;
- (rr) Exchange traded funds risk;
- (ss) Liability of Unitholders;
- (tt) Multi-class structure risk; and
- (uu) Absence of an active market for the Units.

See "Risk Factors".

Organization and Management of the First Asset ETF

The Manager and Trustee: First Asset Investment Management Inc., a registered portfolio manager and investment fund manager, is the trustee and manager of the First Asset ETF. The Manager is responsible for providing or arranging for the provision of administrative services and management functions, including the day-to-day management of the First Asset ETF. The principal office of the Manager is located at 2 Queen Street East, Suite 1200, Toronto, Ontario, M5C 3G7.

Portfolio Manager: Onex Credit Partners, LLC is the sub-advisor of the First Asset ETF and provides investment sub-advisory services to the First Asset ETF. The Portfolio Manager is located in Englewood Cliffs, New Jersey, U.S.A.

See “Organization and Management Details of the First Asset ETF – The Portfolio Manager”.

Custodian: CIBC Mellon Trust Company is the custodian of the First Asset ETF. The Custodian provides custodial services to the First Asset ETF and is independent of the Manager. The Custodian is located in Toronto, Ontario.

See “Organization and Management Details of the First Asset ETF – Custodian”.

Valuation Agent: CIBC Mellon Global Securities Services Company provides accounting services in respect of the First Asset ETF. CIBC Mellon Global Securities Services Company is located in Toronto, Ontario.

See “Organization and Management Details of the First Asset ETF – Valuation Agent”.

Auditors: Ernst & Young LLP is responsible for auditing the annual financial statements of the First Asset ETF. The auditors are independent with respect to the First Asset ETF within the meaning of the Rules of Professional Conduct of the Chartered Professional Accountants of Ontario. The head office of Ernst & Young LLP is located in Toronto, Ontario.

See “Organization and Management Details of the First Asset ETF – Auditors”.

Registrar and Transfer Agent: Computershare Trust Company of Canada, at its principal offices in Toronto, Ontario is the registrar and transfer agent for the Units pursuant to a registrar and transfer agency agreement. Computershare Trust Company of Canada is independent of the Manager.

See “Organization and Management Details of the First Asset ETF – Registrar and Transfer Agent”.

Securities Lending Agent: The Bank of New York Mellon is the securities lending agent for the First Asset ETF. The Bank of New York Mellon is located in New York, New York.

See “Organization and Management Details of the First Asset ETF – Securities Lending Agent”.

Promoter: First Asset is also the promoter of the First Asset ETF. First Asset took the initiative in founding and organizing the First Asset ETF and is, accordingly, the promoter of the First Asset ETF within the meaning of securities legislation of certain provinces and territories of Canada.

See “Organization and Management Details of the First Asset ETF – Promoter”.

Summary of Fees and Expenses

The following table lists the fees and expenses payable by the First Asset ETF, and the fees and expenses that Unitholders may have to pay if they invest in the First Asset ETF. Unitholders may have to pay some of these fees and expenses directly. Alternatively, the First Asset ETF may have to pay some of these fees and expenses, which will therefore reduce the value of an investment in the First Asset ETF.

Fees and Expenses Payable by the First Asset ETF

Type of Charge:	Description
Management Fee:	Each class of Units pays an annual management fee (the “ Management Fee ”) to the Manager equal to an annual percentage of the net asset value of that class, calculated daily and payable monthly in arrears, plus applicable taxes. The Portfolio Manager will be remunerated by the Manager out of the Management Fee. The Management Fee for each class of Units of the First Asset ETF is 0.85% of the net asset value per Unit.
Management Fee Distributions:	The Manager may, at its discretion, agree to charge a reduced fee as compared to the fee it would otherwise be entitled to receive from the First Asset ETF with respect to large investments in the First Asset ETF by Unitholders. Such a reduction will be dependent upon a number of factors, including the amount invested, the total assets of the First Asset ETF under administration and the expected amount of account activity. In such cases, an amount equal to the difference between the fee otherwise chargeable and the reduced fee will be distributed to the applicable Unitholders as Management Fee Distributions. See “Fees and Expenses”.

Operating Expenses:

In addition to the Management Fee, the First Asset ETF will pay for all ordinary expenses incurred in connection with its operation and administration. Unless otherwise waived or reimbursed by the Manager, and subject to compliance with NI 81-102, it is expected that the expenses for the First Asset ETF will include, as applicable, without limitation: all expenses related to the issuance of Units, all costs of portfolio transactions; audit fees; fees payable to third party service providers; trustee and custodial expenses; valuation, accounting and record keeping costs; legal expenses; permitted prospectus preparation and filing expenses; costs associated with delivering documents to Unitholders; listing fees and expenses and other administrative expenses and costs incurred in connection with the continuous public filing requirements; costs and expenses of preparing financial and other reports, costs and expenses arising as a result of complying with all applicable laws, regulations and policies; CDS fees; bank related fees and interest charges; extraordinary expenses; Unitholder reports and servicing costs; registrar and transfer agent fees; fees and expenses of the members of the IRC; expenses related to compliance with NI 81-107; fees and expenses relating to the voting of proxies by a third party; premiums for directors' and officers' insurance coverage for the members of the IRC; income taxes; Sales Taxes (including GST/HST); brokerage expenses and commissions; and withholding taxes. Such expenses will also include expenses of any action, suit or other proceedings in which or in relation to which the Manager, any portfolio manager or sub-advisor (including, the Portfolio Manager), the custodian, the IRC and/or any of their respective officers, directors, employees, consultants or agents is entitled to indemnity by the First Asset ETF.

Costs and expenses payable by the Manager, or an affiliate of the Manager, include the initial organization costs of the First Asset ETF and the costs of the preparation and filing of the preliminary prospectus and initial prospectus.

See "Fees and Expenses".

Fees and Expenses Payable Directly by Unitholders

Redemption Fee:

The Manager may, at its discretion, charge exchanging or redeeming Unitholders a redemption fee of up to 0.25% of the exchange or redemption proceeds to offset certain transaction costs associated with the exchange or redemption of Units. The Manager will publish the current redemption fee, if any, on its website, www.firstasset.com.

See "Fees and Expenses" and "Exchange and Redemption of Units".

OVERVIEW OF THE LEGAL STRUCTURE OF THE FIRST ASSET ETF

The First Asset ETF is an exchange traded mutual fund trust established under the laws of Ontario, the Units of which are offered pursuant to this prospectus on a continuous basis. The promoter, trustee and manager of the First Asset ETF is First Asset Investment Management Inc., a registered portfolio manager and investment fund manager. The sub-advisor of the First Asset ETF is Onex Credit Partners, LLC.

On July 14, 2017, the Manager reduced the management fee on the previously issued advisor class units of the First Asset ETF by an amount equal to the applicable service fee payable in respect of such classes and concurrently converted all such advisor class units into the corresponding class of Units of the First Asset ETF.

The First Asset ETF exists pursuant to and is governed by the Declaration of Trust. The head office of the Manager and the First Asset ETF is 2 Queen Street East, Suite 1200, Toronto, Ontario, M5C 3G7. The Manager is a subsidiary of CI Financial Corp. (TSX:CIX).

The following chart sets out the full legal name as well as the TSX ticker symbol for the First Asset ETF:

	TSX Ticker Symbol (Common Units)	TSX Ticker Symbol (US\$ Units)
First Asset Active Credit ETF	FAO	FAO.U (US\$)

While the First Asset ETF is an open end mutual fund trust under the securities legislation of certain provinces and territories of Canada, the First Asset ETF is entitled to rely on exemptive relief from certain provisions of Canadian securities legislation applicable to conventional mutual funds.

INVESTMENT OBJECTIVES

The First Asset ETF's investment objective is to maximize long term risk-adjusted total returns, delivered through cash distributions and long term capital appreciation, in a manner consistent with preservation of capital and prudent risk management by actively investing primarily in Credit Securities of North American issuers.

The investment objectives of the First Asset ETF may not be changed except with the approval of its Unitholders. See "Unitholder Matters" for additional descriptions of the process for calling a meeting of Unitholders and the requirements of Unitholder approval.

INVESTMENT STRATEGIES

General Investment Strategies

The Portfolio Manager seeks to achieve the investment objective of the First Asset ETF through the application of specialized analysis and expertise, and invests in a portfolio consisting primarily of corporate fixed income instruments ("**Credit Securities**") of North American issuers, including high yield bonds (senior secured and senior unsecured), investment grade bonds, senior floating rate loans of varying maturities and other floating rate fixed income securities. The Portfolio Manager's portfolio credit selection process is rooted in independent research that evaluates an issuer's entire capital structure. The relative allocation among types of Credit Securities and individual issuers will be based primarily on the Portfolio Manager's view of macro-economic conditions combined with ongoing bottom-up fundamental credit analysis and its assessment of which instruments offer the most attractive relative value on a risk-return basis, both within an issuer's capital structure and across other issuers' capital structures. The ability to allocate between types of Credit Securities enables the Portfolio Manager to adjust the credit and duration profile of the portfolio, with a view to allowing the First Asset ETF the opportunity to achieve its investment objective in all interest rate environments and manage duration when necessary. The investment strategy is designed to offer capital preservation, liquidity and diversification but with greater flexibility to mitigate

downside risk while preserving the ability to benefit from rising rates if the opportunity exists. At any time, the First Asset ETF's portfolio may consist primarily of non-investment grade securities, and may include government bonds.

If market conditions require, in order to preserve capital, the First Asset ETF may seek to invest a substantial portion of its assets in cash and cash equivalents.

Use of Derivative Instruments

The Portfolio Manager may, on behalf of the First Asset ETF, invest in or use derivative instruments, including futures contracts and forward contracts, provided that the use of such derivative instruments is in compliance with NI 81-102 or the appropriate regulatory exemptions have been obtained, and is consistent with the investment objective and strategy of the First Asset ETF.

The First Asset ETF may use derivative instruments to reduce transaction costs, to increase the liquidity and efficiency of trading, to gain exposure to individual securities and markets instead of by buying the securities directly, to hedge against losses from changes in the prices of the First Asset ETF's investments and from exposure to foreign currencies, or to generate additional income for the First Asset ETF.

Currency Hedging

At the discretion of the Portfolio Manager, the First Asset ETF may choose to enter into currency forward agreements or other derivatives to hedge all or a portion of the value of the First Asset ETF's foreign currency exposure, provided that, with respect to non-Canadian dollar denominated assets attributable to the Common Units, it is intended that at all times at least 90% of the value of the First Asset ETF's foreign currency exposure (other than individual currency exposure which the Portfolio Manager in its sole discretion determines is impractical to hedge or is non-material) will be hedged back to the Canadian dollar. All such currency forward agreements or other derivatives will be entered into in compliance with NI 81-102 with financial institutions that have a "designated rating" as defined in NI 81-102. Hedging currency exposure to reduce the impact of fluctuations in exchange rates is intended to reduce the direct exposure to foreign currency risk for Unitholders

Securities Lending, Repurchase and Reverse Repurchase Transactions

The First Asset ETF may enter into securities lending transactions, repurchase and reverse repurchase transactions in accordance with NI 81-102 to earn additional income for the First Asset ETF.

The Manager has entered into a written securities lending authorization agreement (the "**Securities Lending Agreement**") with its sub-custodian, The Bank of New York Mellon (the "**Lending Agent**") and certain of its affiliates, pursuant to which the Lending Agent's agent, CIBC Mellon Global Securities Services Company, administers securities lending transactions for the First Asset ETF. The Lending Agent is not an affiliate or an associate of the Manager. The Securities Lending Agreement complies with the applicable provisions of NI 81-102 and all securities loans must qualify as "securities lending arrangements" for the purposes of the Tax Act.

The Manager manages the risks associated with securities lending by the First Asset ETF by requiring the Lending Agent to, among other things: (a) enter into securities lending transactions with borrowers selected by the Lending Agent on a basis of certain creditworthiness standards applied by the Lending Agent; (b) maintain appropriate internal controls and procedures which include, as applicable, transaction and credit limits for borrowers; (c) establish daily the market value of both the securities loaned by the First Asset ETF under a securities lending transaction and the collateral held by the First Asset ETF; (d) if on any day the market value of the collateral held by the First Asset ETF is less than 102% of the market value of the borrowed securities, request that the borrower provide additional collateral to the First Asset ETF to make up the shortfall; and (e) ensure that the collateral to be delivered to the First Asset ETF is one or more of cash (if agreed to by the Manager and the applicable lending agent), qualified securities or securities immediately convertible into, or exchangeable for, securities of the same issuer, class or type, and same term, if applicable, as the securities being loaned by the First Asset ETF.

The Manager reviews its written policies and procedures at least annually to ensure that the risks associated with securities lending transactions are being properly managed. The Lending Agent reviews its written policies and procedures at least annually. The Lending Agent employs a risk management framework of counterparty limits and stringent collateral guidelines, including counterparty and program minimums and maximums for various security classes. Acceptable counterparties, counterparty limits and collateral guidelines are reviewed and amended as dictated by market conditions. At present, there are no simulations used to test the portfolios under stress conditions to measure risk in connection with the use of securities lending transactions.

Short Selling

The First Asset ETF may engage in short selling in compliance with NI 81-102 in order to manage volatility or enhance the performance of the First Asset ETF in declining or volatile markets. Short selling is an investment strategy whereby the First Asset ETF sells a security that it does not own on the basis that the Portfolio Manager believes that the security is overvalued and that its market value will decline. The resulting trade creates a “short position” which will create a profit for the First Asset ETF if the market value of the security does, in fact, decline. A successful short strategy will allow the First Asset ETF to subsequently purchase the security (and thereby repay its “short position”) at a price that is lower than the price the First Asset ETF received for selling the securities, thereby creating a profit for the First Asset ETF.

In periods of little or negative corporate earnings growth and/or extreme market valuations, and in other circumstances when it appears likely that the market price of a particular security will decrease, short selling provides an opportunity for the First Asset ETF to control volatility and possibly enhance performance. The Manager is of the view that the First Asset ETF can benefit from the implementation and execution of a controlled and limited short selling strategy. This strategy would operate as a complement to the First Asset ETF’s primary strategy of purchasing securities with the expectation that they will appreciate in market value. Risks associated with short selling are managed by adhering to certain stringent controls.

Investment in Other Investment Funds

In accordance with applicable securities legislation, including NI 81-102, and as an alternative to or in conjunction with investing in and holding securities directly, the Portfolio Manager may, on behalf of the First Asset ETF, also invest in one or more other investment funds, including other investment funds managed by the Manager or the Portfolio Manager (each, an “**Other Fund**”), provided that no management fees or incentive fees are payable by the First Asset ETF that, to a reasonable person, would duplicate a fee payable by the Other Fund for the same service. The First Asset ETF’s allocation to investments in other investment funds, if any, will vary from time to time depending the relative size and liquidity of the investment fund, and the ability of the Portfolio Manager to identify appropriate investment funds that are consistent with the First Asset ETF’s investment objectives and strategies.

The First Asset ETF has obtained an exemption from certain provisions of NI 81-102 in order to permit the First Asset ETF to invest in certain exchange traded mutual funds whose securities are listed on a stock exchange in Canada or the United States. See “Exemptions and Approvals”.

OVERVIEW OF THE SECTORS THAT THE FIRST ASSET ETF INVESTS IN

The First Asset ETF invests in an actively managed portfolio comprised of a broad range of fixed income securities, primarily non-investment grade, both fixed and floating rates and focused on North America.

As soon as practicable following the end of each month, the Manager intends to publish on its website (www.firstasset.com) a summary of the investment portfolio disclosing the top ten positions held by the First Asset ETF expressed as an absolute percentage of the net assets of the First Asset ETF.

Please see “Investment Objectives” and “Investment Strategies” for additional information on the sectors applicable to the First Asset ETF.

INVESTMENT RESTRICTIONS

The First Asset ETF is subject to certain investment restrictions and practices contained in securities legislation, including NI 81-102, which are designed in part to ensure that the investments of the First Asset ETF are diversified and relatively liquid and to ensure its proper administration. The investment restrictions and practices applicable to the First Asset ETF which are contained in securities legislation, including NI 81-102, may not be deviated from without the prior consent of the Canadian securities regulatory authorities having jurisdiction over the First Asset ETF. A change to the fundamental investment objectives of the First Asset ETF would require the approval of the Unitholders. Please see “Unitholder Matters – Matters Requiring Unitholder Approval”.

Subject to the following, and the exemptive relief that has been obtained, the First Asset ETF is managed in accordance with the investment restrictions and practices set out in the applicable securities legislation, including NI 81-102. See “Exemptions and Approvals”.

Tax Related Investment Restrictions

The First Asset ETF will not make an investment or conduct any activity that would result in the First Asset ETF (i) failing to qualify as a “unit trust” or “mutual fund trust” within the meaning of the Tax Act or (ii) being subject to the tax for “SIFT trusts” for purposes of the Tax Act. In addition, the First Asset ETF will not (i) make or hold any investment in property that would be “taxable Canadian property” (if the definition of such term in the Tax Act were read without reference to paragraph (b) thereof) if more than 10% of the First Asset ETF’s property consisted of such property; (ii) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if the First Asset ETF (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require the First Asset ETF (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (iii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iv) invest in any security of an issuer that would be a “foreign affiliate” of the First Asset ETF for purposes of the Tax Act.

FEES AND EXPENSES

Fees and Expenses Payable by the First Asset ETF

Management Fee

Each class of Units pays an annual management fee (the “**Management Fee**”) to the Manager equal to an annual percentage of the net asset value of that class, calculated daily and payable monthly in arrears, plus applicable taxes. The Management Fee compensates the Manager for services it provides to the First Asset ETF including, without limitation: investment advisory and portfolio management services, implementation of the First Asset ETF’s investment strategies, negotiating contracts with certain third-party service providers, including, but not limited to, investment managers, custodians, registrars, transfer agents, auditors and printers; authorizing the payment of operating expenses incurred on behalf of the First Asset ETF; maintaining certain accounting and financial records; calculating the amount and determining the frequency of distributions by the First Asset ETF; ensuring that Unitholders are provided with financial statements and other reports as are required from time to time by applicable law; ensuring that the First Asset ETF complies with all other regulatory requirements including continuous disclosure obligations under applicable securities laws; administering purchases, redemptions and other transactions in Units; and arranging for any payments required upon termination of the First Asset ETF. The Portfolio Manager will be remunerated by the Manager out of the Management Fee. The Management Fee for each class of Units of the First Asset ETF is 0.85% of the net asset value per Unit.

To encourage very large investments in the First Asset ETF and to ensure the Management Fee is competitive for these investments, the Manager may at its discretion agree to charge a reduced fee as compared to the fee it otherwise would be entitled to receive from the First Asset ETF with respect to investments in the First Asset ETF

by Unitholders that hold, on average during any period specified by the Manager from time to time (currently a quarter), Units having a specified aggregate value. Such a reduction will be dependent upon a number of factors, including the amount invested, the total assets of the First Asset ETF under administration and the expected amount of account activity. An amount equal to the difference between the fee otherwise chargeable and the reduced fee of the First Asset ETF will be distributed quarterly in cash by the First Asset ETF, at the discretion of the Manager, to those Unitholders as Management Fee Distributions.

The availability and amount of Management Fee Distributions with respect to Units will be determined by the Manager. Management Fee Distributions for the First Asset ETF will generally be calculated and applied based on a Unitholder's average holdings of Units over each applicable period as specified by the Manager from time to time. Management Fee Distributions will be available only to beneficial owners of Units and not to the holdings of Units by dealers, brokers or other CDS Participants that hold Units on behalf of beneficial owners. Management Fee Distributions will be paid first out of net income of the First Asset ETF then out of capital gains of the First Asset ETF and thereafter out of capital. In order to receive a Management Fee Distribution for any applicable period, a beneficial owner of Units must submit a claim for a Management Fee Distribution that is verified by a CDS Participant on the beneficial owner's behalf and provide the Manager with such further information as the Manager may require in accordance with the terms and procedures established by the Manager from time to time.

The Manager reserves the right to discontinue or change Management Fee Distributions at any time. The tax consequences of Management Fee Distributions made by the First Asset ETF generally will be borne by the Unitholders receiving these distributions from the Manager.

Operating Expenses

In addition to the Management Fee, the First Asset ETF will pay for all ordinary expenses incurred in connection with its operation and administration. Unless otherwise waived or reimbursed by the Manager, and subject to compliance with NI 81-102, it is expected that the expenses for the First Asset ETF will include, as applicable, without limitation: all expenses related to the issuance of Units, all costs of portfolio transactions; audit fees; fees payable to third party service providers; trustee and custodial expenses; valuation, accounting and record keeping costs; legal expenses; permitted prospectus preparation and filing expenses; costs associated with delivering documents to Unitholders; listing fees and expenses and other administrative expenses and costs incurred in connection with the continuous public filing requirements; costs and expenses of preparing financial and other reports, costs and expenses arising as a result of complying with all applicable laws, regulations and policies; CDS fees; bank related fees and interest charges; extraordinary expenses; Unitholder reports and servicing costs; registrar and transfer agent fees; fees and expenses of the members of the IRC; expenses related to compliance with NI 81-107; fees and expenses relating to the voting of proxies by a third party; premiums for directors' and officers' insurance coverage for the members of the IRC; income taxes; Sales Taxes (including GST/HST); brokerage expenses and commissions; and withholding taxes. Such expenses will also include expenses of any action, suit or other proceedings in which or in relation to which the Manager, any portfolio manager or sub-advisor (including, the Portfolio Manager), the Custodian, the IRC and/or any of their respective officers, directors, employees, consultants or agents is entitled to indemnity by the First Asset ETF.

Costs and expenses payable by the Manager, or an affiliate of the Manager, include the initial organization costs of the First Asset ETF and the costs of the preparation and filing of the preliminary prospectus and initial prospectus.

Fees and Expenses Payable Directly by the Unitholders

Redemption Fee

The Manager may, at its discretion, charge exchanging or redeeming Unitholders a redemption fee of up to 0.25% of the exchange or redemption proceeds to offset certain transaction costs associated with the exchange or redemption of Units. The Manager will publish the current redemption fee, if any, on its website, www.firstasset.com. The redemption fee will not be charged to a Unitholder in connection with selling of Units on the TSX.

RISK FACTORS

In addition to the considerations set out elsewhere in this prospectus, the following are certain considerations relating to an investment in Units which prospective investors should consider before purchasing such Units:

No Assurances on Achieving Investment Objective

There is no assurance that the First Asset ETF will achieve its investment objective. The funds available for distributions to Unitholders will vary according to, among other things, the interest and other distributions paid on the securities in the First Asset ETF's portfolio and the value of the securities comprising the First Asset ETF's portfolio. There is no assurance the First Asset ETF's portfolio will earn any return. No assurance can be given as to the amount of distributions in future years. No assurance can be given that the NAV per Unit will appreciate or even be preserved. It is possible that, due to declines in the market value of the securities in the First Asset ETF's portfolio or the distributions made thereunder, the First Asset ETF will have insufficient assets to achieve in full its investment objectives, including that of long-term total returns.

Global Economic Conditions; Market Dislocation

General global economic conditions may affect the First Asset ETF's activities. Interest rates, general levels of economic activity, fluctuations in the market prices of securities and other financial assets, and participation by other investors in the financial markets may affect the value of investments made by the First Asset ETF. Instability in the securities markets may increase the risks inherent in portfolio investments made by the First Asset ETF. Ongoing events in the fixed income markets have caused, and could cause, significant dislocations, illiquidity and volatility in the high-yield bond, leveraged loan and structured credit markets, as well as in the wider global financial markets. In addition, adverse economic events may impact the availability of credit to businesses generally and could lead to an overall weakening of the U.S. and global economies. Any resulting economic downturn could adversely affect the financial resources of the borrowers and their ability to make principal and interest payments on, or refinance, outstanding debt when due. In the event of borrower defaults, the First Asset ETF could incur losses.

In addition, global economic conditions may materially and adversely affect (i) the ability of the First Asset ETF, the borrowers or their respective affiliates to access the credit markets on favorable terms or at all in connection with the financing or refinancing of investments; (ii) the ability or willingness of certain counterparties to do business with the First Asset ETF or its affiliates; (iii) the First Asset ETF's exposure to the credit risk of others in its dealings with various counterparties (for example, in connection with loan syndicates or the maintenance with financial institutions of reserves in cash or cash equivalents); (iv) demand for the products and services offered by the issuers or borrowers; (v) overall prospects of the First Asset ETF's investments; and (vi) the First Asset ETF's ability to exit its investments at desired times, on favorable terms or at all.

Potential Implications of Brexit

The recent decision made in the British referendum to leave the European Union has led to volatility in the financial markets of the United Kingdom and more broadly across Europe and may also lead to weakening in consumer, corporate and financial confidence in such markets. The formal notification by the United Kingdom to the European Council under Article 50 of the Treaty on European Union on March 29, 2017 triggered the two year negotiation period for exit but the longer term economic, legal, political and social framework to be put in place between the United Kingdom and the European Union are unclear at this stage and are likely to lead to ongoing political and economic uncertainty and periods of exacerbated volatility in both the United Kingdom and in wider European markets for some time. In particular, the decision made in the British referendum may lead to a call for similar referendums in other European jurisdictions which may cause increased economic volatility in the European and global markets. This mid to long term uncertainty may have an adverse effect on the economy generally and on the ability of the First Asset ETF and its investments to execute their respective strategies and to receive attractive returns.

In particular, currency volatility may mean that the returns of the First Asset ETF and its investments are adversely affected by market movements and may make it more difficult, or more expensive, for the First Asset ETF to

execute prudent currency hedging policies. Potential decline in the value of the British Pound and/or the Euro against other currencies, along with the potential downgrading of the United Kingdom's sovereign credit rating, may also have an impact on the performance of portfolio companies or investments located in the United Kingdom or Europe.

Natural Disasters, Terrorist Acts and Similar Dislocations

Upon the occurrence of a natural disaster such as a flood, hurricane, or earthquake, or upon an incident of war, riot or civil unrest, the impacted country may not efficiently and quickly recover from such event, which can have a materially adverse effect on borrowers and other developing economic enterprises in such country. Terrorist attacks and related events can result in increased short-term economic volatility. U.S. military and related actions in Afghanistan and Iraq, other events in the Middle East, and terrorist actions worldwide could have significant adverse effects on U.S., Canadian and other economies and securities markets. The effects of future terrorist acts (or threats thereof), military action or similar events on the economies and securities markets of countries cannot be predicted. Such disruptions of the global financial markets could affect interest rates, ratings, credit risk, inflation and other factors relating to the First Asset ETF's investments.

Risks Associated with Investments in High Yield Bonds

The First Asset ETF may make investments in high yield bonds that are not investment grade. High yield corporate debt securities involve greater risks than investment grade debt securities, including greater risks of default in the payment of interest and principal, lower recovery rates on a security that is in default and greater price changes due to such factors as general economic conditions and the issuer's creditworthiness. High yield debt securities may also be less liquid than investment grade debt securities. During periods of thin trading, the spreads between bid and ask prices are likely to increase significantly and the First Asset ETF may have difficulty selling such securities in the market at a perceived fair value or at all. Issuers of high yield bonds are more vulnerable to real or perceived economic changes, political changes or adverse industry developments. In addition, high yield bonds are frequently subordinated to the prior payment of senior indebtedness. If an issuer fails to pay principal or interest, the First Asset ETF would experience a decrease in income and a decline in the market value of its investments. The First Asset ETF may also incur additional expenses in seeking recovery from the issuer.

There are no formal exchanges on which such high yield corporate debt securities trade. Accordingly, there may be limited liquidity for holders of such debt securities. The investments of the First Asset ETF's portfolio in bonds and debentures expose the First Asset ETF's portfolio and the First Asset ETF to the credit risk of the underlying issuers including risk of default on interest and principal and the risk that the credit ratings of such issuers may be downgraded in certain circumstances. In addition, real or anticipated changes in the credit ratings on bonds and debentures held in the First Asset ETF's portfolio may affect the market value of such bonds and debentures.

High yield corporate debt securities can also be regarded as a predominantly speculative investment with respect to the issuers continuing ability to meet principal and interest payments, involve certain greater risk exposure during adverse market conditions and may be subject to substantially greater price volatility, especially during times of adverse economic change. Global financial markets have experienced a significant volatility that has contributed to a reduction in liquidity and the availability of credit enhancing the likelihood of default by some issuers due to diminishing profitability or an inability to refinance existing debt.

High-yield securities that are rated BB or lower by S&P or Ba or lower by Moody's are often referred to in the financial press as "junk bonds" and may include securities of issuers in default. "Junk bonds" are considered by the ratings agencies to be predominantly speculative and may involve major risk exposures such as: (i) vulnerability to economic downturns and changes in interest rates; (ii) sensitivity to adverse economic changes and corporate developments; (iii) redemption or call provisions which may be exercised at inopportune times; and (iv) difficulty in accurately valuing or disposing of such securities.

It is often more difficult to value lower rated securities than higher rated securities. If an issuer's financial condition deteriorates, accurate financial and business information may be limited or unavailable. The lower rated investments may be thinly traded and there may be no established secondary market. Because of the lack of market pricing and current information for investments in lower rated securities, valuation of such investments is much more dependent

on the judgment of the Manager than is the case with higher rated securities. In addition, relatively few institutional purchasers may hold a major portion of an issue of lower-rated securities at times. As a result, the First Asset ETF may be required to sell high yield bond investments at substantial losses or retain them indefinitely even where an issuer's financial condition is deteriorating. Credit quality of non-investment grade securities can change suddenly and unexpectedly, and even recently issued credit ratings may not fully reflect the actual risks posed by a particular high-yield security.

Risks Associated with Investing in Fixed Income Securities and Floating Rate Instruments

A floating rate instrument is one whose terms provide for the adjustment of its interest rate whenever a specified benchmark changes. Floating rate instruments are frequently not rated by credit rating agencies. There may be no active secondary market with respect to a particular floating rate instrument purchased by the First Asset ETF. The absence of such an active secondary market could make it difficult for the First Asset ETF to dispose of the floating rate instrument involved in the event the issuer of the instrument defaulted on its payment obligations, and the First Asset ETF could, for this or other reasons, suffer a loss in the event of a default by the issuer. Floating rate instruments may be secured by assets of the issuer, bank letters of credit or other assets.

To the extent that the First Asset ETF holds floating rate instruments, the First Asset ETF's yield may decline, and it may forego the opportunity for capital appreciation during periods when interest rates decline; however, during periods when interest rates increase, the First Asset ETF's yield may increase, and they may have reduced risk of capital depreciation.

Current market conditions pose heightened risks for the First Asset ETF when it invests in fixed-income securities. It is widely expected that the US Federal Reserve Board will continue to increase short term interest rates. Any future interest rate increases could cause the value of investments in fixed-income securities to decrease. As such, fixed-income securities markets may experience heightened levels of interest rate and liquidity risk, as well as increased volatility. See "Interest Rate Risk" below for additional risks relating to investing in fixed income and floating rate instruments.

Risks Associated with Investments in Commercial Loans

An investment in interests in syndicated, commercial bank loans, whether acquired through assignment or loan participation, may involve certain risks. Under the agreements governing most syndicated loans, should the First Asset ETF, as a holder of an interest in a syndicated loan, wish to call a default or exercise remedies against a borrower, it could not do so without the agreement of at least a majority of the lenders. Further, actions could be taken by a majority of the lenders, or in some cases, a single agent bank, without the consent of the First Asset ETF. The First Asset ETF would, nevertheless, be liable to indemnify the agent bank for the First Asset ETF's rateable share of expenses or other liabilities incurred in such connection and, generally, with respect to the administration and any renegotiation or enforcement of the syndicated loans. Moreover, an assignee or participant in a loan may not be entitled to certain gross-up payments in respect of withholding taxes and other indemnities that otherwise might be available to the original holder of the loan.

The First Asset ETF may invest in corporate secured and unsecured loans acquired through assignment or loan participations. While the First Asset ETF will favour acquiring loans through assignment (rather than loan participations), it may not always be able to do so. In purchasing loan participations, the First Asset ETF will usually have a contractual relationship only with the selling institution, and not the borrower. The First Asset ETF generally will have no right directly to enforce compliance by the borrower with the terms of the loan agreement, nor any rights of set-off against the borrower, nor will it have the right to object to certain changes to, or waivers under, the loan agreement agreed to by the selling institution. The First Asset ETF may not directly benefit from the collateral supporting the related secured loan and may be subject to any rights of set-off the borrower has against the selling institution.

In addition, in the event of the insolvency of the selling institution, under the laws of the United States and the states thereof the First Asset ETF may be treated as a general creditor of such selling institution, and may not have any exclusive or senior claim with respect to the selling institution's interest in, or the collateral with respect to, the secured loan.

Consequently, the First Asset ETF may be subject to the credit risk of the selling institution as well as of the borrower. Certain of the secured loans or loan participations may be governed by the law of a jurisdiction other than a United States jurisdiction which may present additional risks as regards the characterization under such laws of such loan participations in the event of the insolvency of the selling institution or the borrower.

Risks from Insufficient Collateral Securing First Lien Loans

Although the first lien loans in the First Asset ETF's portfolio will generally be secured by specific collateral, there can be no assurance the liquidation of such collateral would satisfy a borrower's obligation in the event of borrower default or that such collateral could be readily liquidated under such circumstances. In the event of bankruptcy of a borrower, delays or limitations could be experienced with respect to the ability to realize the benefits of any collateral securing a first lien loan.

Agent Risk

A financial institution's employment as an agent under a first lien loan might be terminated in the event that it fails to observe a requisite standard of care or becomes insolvent. A successor agent would generally be appointed to replace the terminated agent, and assets held by the agent under the loan agreement would likely remain available to holders of such indebtedness. However, if assets held by the terminated agent for the benefit of the First Asset ETF were determined to be subject to the claims of the agent's general creditors, the First Asset ETF's portfolio might incur certain costs and delays in realizing payment on a first lien loan or loan participations and could suffer a loss of principal and/or interest.

Market for Loan Investments

The First Asset ETF's success in the area of loan investing will depend, in part, on its ability to purchase loans on terms that it deems attractive. In purchasing loans, the First Asset ETF will compete with a broad spectrum of investors and institutions. Increased competition for, or a diminution in the available supply of, qualifying loans could result in lower yields on such loans, which could reduce returns to investors.

Due to restrictions on transfers in loan agreements and the nature of the private syndication of senior loans, some senior loans are not as easily purchased or sold as publicly-traded securities. As a result, some senior loans are illiquid, which means that the First Active ETF may be limited in its ability to sell those loans at an acceptable price when it wants to in order to generate cash, avoid losses or to meet repurchase requests.

Other Risks Associated with First Lien Loans

Many first lien loans included in the First Asset ETF's portfolio may not be rated by an approved credit rating organization, will not be registered or prospectus qualified for securities law purposes and will not be listed on any securities exchange. In addition, the amount of public information available with respect to first lien loans generally may be less extensive than that available for registered or exchange listed securities. Economic and other events (whether real or perceived) can reduce the demand for certain first lien loans generally, which may reduce market prices and cause the First Asset ETF's net asset value to fall.

First lien loans are non-investment grade assets and may be regarded as predominantly speculative with respect to the issuers' continuing ability to meet principal and interest payments. They may be more susceptible to real or perceived adverse economic and competitive industry conditions than higher rated securities. During periods of thin trading in these markets, this spread between bid and ask prices is likely to increase significantly and the First Asset ETF may have difficulty in accurately valuing or selling such securities. The yields and prices of lower rated first lien loans may tend to fluctuate more than those for investment grade rated securities. In addition, adverse publicity and investor perceptions about non-investment grade securities, whether or not based on fundamental analysis, may be a contributing factor in a decrease in the value and liquidity of such securities. The First Asset ETF will hold investments in first lien loans. These obligations are subject to unique risks, including, without limitation: (i) the possible invalidation of an investment transaction as a fraudulent conveyance under relevant creditors' rights laws; (ii) so called lender liability claims by the issuer of the obligations; (iii) environmental liabilities that may arise with

respect to collateral securing the obligations; and (iv) limitations on the ability of the First Asset ETF to directly enforce its rights with respect to participations. In analyzing each bank loan or participation, the First Asset ETF compares the relative significance of the risks against the expected benefits of the investment. Successful claims by third parties arising from these and other risks will be borne by the First Asset ETF. Investments in loan participations may also subject the First Asset ETF to the risk of counterparty default.

Additional Information about Benchmark Rates

Regulators and law-enforcement agencies in a number of different jurisdictions have conducted and continue to conduct civil and criminal investigations into potential manipulation or attempted manipulation of submissions of London inter-bank offered rates (“**LIBOR**”) to the British Bankers Association (“**BBA**”). There have also been allegations that member banks may have manipulated other inter-bank lending rates (such rates, together with LIBOR, the “**Benchmark Rates**”). Benchmark Rates are currently being reformed, including (i) the replacement of the BBA with ICE Benchmark Administration Ltd as LIBOR administrator, which was completed on February 1, 2014, (ii) a reduction in the number of tenors and currencies for which certain Benchmark Rates are calculated, and (iii) modifications to the administration, submission and calculation procedures, including their regulatory status, in respect of certain Benchmark Rates. Investors should be aware that: (a) any of these changes or any other changes to Benchmark Rates could affect the level of the relevant published rate, including to cause it to be lower and/or more volatile than it would otherwise be; (b) if the applicable rate of interest on any loan is calculated with reference to a tenor or currency which is discontinued, such rate of interest may then be determined by the provisions of the affected loan, which may include determination by the relevant calculation agent in its discretion, or the loan may otherwise be subject to a degree of contractual uncertainty; (c) the administrators of Benchmark Rates will not have any involvement in the First Asset ETF’s investments and may take any actions in respect of Benchmark Rates without regard to the effect of such actions on such investments; (d) any uncertainty in the value of a Benchmark Rate or, the development of a widespread market view that a Benchmark Rate has been manipulated, or any uncertainty in the prominence of a Benchmark Rate as a benchmark interest rate due to the recent regulatory reform may adversely affect liquidity of the affected investments in the secondary market and their market value; and (e) an increase in alternative types of financing in place of Benchmark Rate-based loans (resulting from a decrease in the confidence of borrowers in such rates) may make it more difficult to source loans or reinvest proceeds in loans that satisfy the reinvestment criteria specified herein.

In addition, in July 2017, the U.K. Financial Conduct Authority, which regulates LIBOR in the United Kingdom, announced that LIBOR will be phased out by the end of 2021 due to an insufficiently active interbank market supporting the setting of LIBOR rates. There is currently uncertainty about the impact of LIBOR ceasing to be used as the benchmark rate for certain floating rate instruments as well as about the identity of any benchmark rate or rates that may succeed LIBOR with respect to certain floating rate instruments.

Any of the above or any other significant change to the setting of a Benchmark Rate could have a material adverse effect on the value of, and the amount payable under, (x) any loan which pay interest linked to a Benchmark Rate and (y) the First Asset ETF’s investments.

Derivatives Risk

The First Asset ETF may use various hedging transactions and may purchase and sell derivative instruments. The First Asset ETF’s use of derivative instruments involves risks different from, and possibly greater than, the risks associated with investing directly in loans and other traditional investments. Derivatives are subject to a number of risks, such as liquidity risk, interest rate risk, market risk, credit risk, leveraging risk, counterparty risk, trading execution risk and management risk. They also involve the risk of mispricing or improper valuation and the risk that changes in the value of a derivative may not correlate perfectly with the underlying asset, rate or index. Hedging with derivatives may not always be successful and could limit the First Asset ETF’s ability to participate in increases in the value of the fixed-income securities, first lien loans or other instruments in the First Asset ETF’s portfolio that are being hedged. The First Asset ETF may not be able to obtain or close out a derivative contract when the Portfolio Manager believes it is desirable to do so, which may prevent the First Asset ETF from making a profit or limiting a loss. When the First Asset ETF invests in a derivative instrument, it could lose more than the principal amount invested.

Amounts paid by the First Asset ETF as premiums and cash or other assets held in margin accounts are not otherwise available to the First Asset ETF for investment purposes.

Foreign Currency Exposure Risk

As the First Asset ETF's portfolio will be invested primarily in obligations traded in US dollars, the NAV of the First Asset ETF, when measured in Canadian dollars, will, to the extent this has not been hedged against, be affected by changes in the value of the US dollar relative to the Canadian dollar. Changes in the currency exchange rates of the US dollar relative to the Canadian dollar also may affect the value of dividends and interest earned, gains and losses realized on the sale of securities and net investment income and gains, if any, to be distributed to shareholders by the First Asset ETF. The exchange rate between the U.S. dollar and the Canadian dollar is determined by the forces of supply and demand in foreign exchange markets and the relative merits of investments in the different countries, actual or anticipated changes in interest rates and other complex factors, as seen from an international perspective. Currency exchange rates may fluctuate significantly over short periods of time. Currency exchange rates also can be affected by intervention (or lack of intervention) by the United States or Canadian governments or central banks or by currency controls or political developments in the United States or Canada. Accordingly, the ability of the First Asset ETF to achieve its investment objective may depend, to a certain extent, on exchange rate movements. The First Asset ETF may not be fully hedged and distributions received on the First Asset ETF's portfolio may not be hedged and accordingly no assurance can be given that the First Asset ETF will not be adversely impacted by changes in foreign exchange rates or other factors. The use of hedges, involves special risks, including the possible default by the other party to the transaction, illiquidity and, to the extent the Portfolio Manager's assessment of certain market movements is incorrect, the risk that the use of hedges could result in losses greater than if the hedging had not been used. Hedging arrangements may have the effect of limiting or reducing the total returns to the First Asset ETF if the Portfolio Manager's expectations concerning future events or market conditions prove to be incorrect. In addition, the costs associated with a hedging program may outweigh the benefits of the arrangements in such circumstances.

Futures Contracts and Options Risk

The First Asset ETF may invest in futures contracts and options to hedge currency. The use of futures and options is a highly specialized activity which involves investment strategies and risks different from those associated with ordinary portfolio securities transactions, and there can be no guarantee that their use will increase the First Asset ETF's return or successfully hedge its currency exposure. While the use of these instruments by the First Asset ETF may reduce certain risks associated with owning its portfolio securities, these techniques themselves entail certain other risks including lowering the First Asset ETF's return. Certain strategies limit the First Asset ETF's possibilities to realize gains, as well as its exposure to losses. The First Asset ETF could also experience losses if the prices of its options and futures positions were poorly correlated with the currencies being hedged, or if it could not close out its positions because of an illiquid secondary market. In addition, the First Asset ETF will incur transaction costs, including trading commissions and option premiums, in connection with its futures and options transactions. Futures markets are highly volatile and are influenced by numerous factors, such as changing supply and demand relationships, governmental programs and policies, national and international political and economic events, and changes in rates and prices. In addition, because of the low margin deposits required in futures trading, a high degree of leverage is typical of a futures trading account. As a result, a relatively small price movement in a futures contract may result in substantial losses to the trader. Futures trading may also be illiquid. Certain futures exchanges do not permit trading in particular contracts at prices that represent a fluctuation in price during a single day's trading beyond certain specified limits. If prices fluctuate during a single day's trading beyond those limits (which conditions have in the past sometimes lasted for several days in certain contracts) the trader could be prevented from promptly liquidating unfavourable positions and thus be subject to substantial losses.

Restrictions on Trading Due to Status

The Portfolio Manager seeks to avoid the risks associated with creating information barriers that would allow it to simultaneously have public and private information about a single issuer. If the Portfolio Manager or any of its personnel were to receive material non-public information about a particular obligor or asset, or have an interest in causing the First Asset ETF to transact a particular asset, the Portfolio Manager may be prevented from causing the First Asset ETF to transact such asset due to internal restrictions imposed on the Portfolio Manager.

Notwithstanding the maintenance of certain internal controls relating to the management of material non-public information, it is possible that such controls could fail and result in the Portfolio Manager, or one of its investment professionals, buying or selling an asset while, at least constructively, in possession of material non-public information. Inadvertent trading on material non-public information could have adverse effects on the Portfolio Manager's reputation, result in the imposition of regulatory or financial sanctions, and as a consequence, negatively impact the Portfolio Manager's ability to perform its investment management services to the First Asset ETF.

Short Selling Risk

A “**short sale**” will occur when the First Asset ETF borrows securities from a lender which are then sold in the open market (or “**sold short**”). At a later date, the same number of securities are repurchased by the First Asset ETF and returned to the lender. In the interim, the proceeds from the first sale are deposited with the lender and the First Asset ETF pays fees to the lender. If the value of the securities declines between the time that the First Asset ETF borrows the securities (and sells short) and the time it repurchases and returns the securities, the First Asset ETF makes a profit for the difference (less any fees the First Asset ETF is required to pay to the lender). Short selling involves certain risks. There is no assurance that securities will decline in value during the period of the short sale sufficient to offset the fees paid by the First Asset ETF and make a profit for the First Asset ETF, and securities sold short may instead appreciate in value. The First Asset ETF may also experience difficulties repurchasing and returning the borrowed securities if a liquid market for the securities does not exist. Also, the lender from whom the First Asset ETF has borrowed securities may go bankrupt and the First Asset ETF may lose the collateral it has deposited with the lender.

If the First Asset ETF engages in short selling, the First Asset ETF will adhere to controls and limits that are intended to offset these risks by short selling only securities of larger issuers for which a liquid market is expected to be maintained and by limiting the amount of exposure for short sales. The First Asset ETF will also deposit collateral only with lenders that meet certain criteria for creditworthiness and only up to certain limits.

Possible losses from short sales differ from losses that may be incurred from purchases of securities because losses from short sales may be unlimited, whereas losses from purchases are limited to the total amount invested. To deliver securities to a purchaser, the First Asset ETF must arrange through a broker to borrow the securities, and, as a result, the First Asset ETF becomes obligated to replace the securities borrowed at the market price at the time of replacement, whatever that price may be. A short sale therefore involves the theoretically unlimited risk of loss occasioned by an increase in the market price of the security between the date of the short sale and the date on which the First Asset ETF covers its short position. In addition, the borrowing of securities entails the payment of a borrowing fee (which may increase during the borrowing period) and the payment of any dividends or interest payable on the securities until they are replaced.

If the First Asset ETF engages in short selling it is required to maintain cash cover for its short positions and other investments may need to be sold quickly (and at potentially unattractive prices) in order to maintain sufficient cash cover.

Interest Rate Risk

To the extent that the First Asset ETF's investments include fixed rate obligations, they may be subject to interest rate risk. Generally, the value of fixed income securities will change inversely with changes in interest rates. As interest rates rise, the market value of fixed income securities tends to decline. Conversely, as interest rates decline, the market value of fixed income securities tends to rise. This risk will be greater for long-term securities than for short term securities. Moreover, the risk is mitigated to the extent that the First Asset ETF's portfolio consists of assets bearing floating rates of interest, including most syndicated loan facilities.

Specific Issuer Risk

The value of securities will vary positively or negatively with developments within the specific companies or governments that issue such securities.

Securities Market Risk

The value of most securities, including the First Asset ETF's portfolio securities, changes with securities market conditions. These conditions are affected by general economic and market conditions.

Foreign Markets Risk

Investments in the First Asset ETF's portfolio may, at any time, include investments in issuers established in jurisdictions outside Canada and the United States. Although most of such issuers will be subject to uniform accounting, auditing and financial reporting standards comparable to those applicable to Canadian and US companies, some issuers may not be subject to such standards and, as a result, there may be less publicly available information about such issuers than a Canadian or US company. Volume and liquidity in some foreign markets may be less than in Canada and the United States and, at times, volatility of price may be greater than in Canada or the United States. As a result, the price of such securities may be affected by conditions in the market of the jurisdiction in which the issuer is located or its securities are traded. Investments in foreign markets carry the potential exposure to the risk of political upheaval, acts of terrorism and war, all of which could have an adverse impact on the value of such securities.

Global Financial Developments

Global financial markets have experienced a sharp increase in volatility in the last several years. This has been, in part, the result of the revaluation of assets on the balance sheets of international financial institutions and related securities. This has contributed to a reduction in liquidity among financial institutions and has reduced the availability of credit to those institutions and to the issuers who borrow from them. While central banks as well as global governments are attempting to restore much needed liquidity to the global economies, no assurance can be given that the combined impact of the significant revaluations and constraints on the availability of credit will not continue to materially and adversely affect economies around the world. No assurance can be given that this stimulus will continue or that if it continues, it will be successful or, that these economies will not be adversely affected by the inflationary pressures resulting from such stimulus or central banks' efforts to slow inflation. Further, market concerns about the economies of certain European Union countries and their ability to continue to borrow may adversely impact global equity markets. Some of these economies have experienced significantly diminished growth and some are experiencing or have experienced a recession. These market conditions and further volatility or illiquidity in capital markets may also adversely affect the prospects of the First Asset ETF and the value of the First Asset ETF's portfolio. A substantial drop in the markets in which the First Asset ETF invests could be expected to have a negative effect on the First Asset ETF.

Liquidity of the Assets in the Portfolio Risk

Due to restrictions on transfers in loan agreements and the nature of the private syndication of first lien loans including, for example, the lack of publicly-available information, some first lien loans are not as easily purchased or sold as publicly-traded securities. Some first lien loans and other portfolio investments are very thinly traded or no market for them exists, which may make it difficult for the First Asset ETF to value them or dispose of them at an acceptable price when it wants to.

Loan Settlement Risk

Portfolio transactions in loans may take up to three weeks to settle, and in some cases much longer. Unlike the securities markets, there is no central clearinghouse for loan trades.

Legal and Regulatory Risk

Legal and regulatory changes may occur that may adversely affect the First Asset ETF and which could make it more difficult, if not impossible, for the First Asset ETF to operate or to achieve its investment objectives. To the extent possible, the Manager will attempt to monitor such changes to determine the impact such changes may have on the First Asset ETF and what can be done, if anything, to try and limit such impact.

There can be no assurance that applicable laws in Canada or in foreign jurisdictions, or other domestic or foreign legislation, legal and statutory rights will not be changed in a manner which adversely affects the First Asset ETF or its Unitholders. There can be no assurance that Canadian and foreign income tax, securities, and other applicable laws or the interpretation and application of such laws by courts or government authorities will not be changed in a manner which adversely affects the First Asset ETF, its Unitholders or distributions received by the First Asset ETF or by its Unitholders.

Corresponding Net Asset Value Risk

Similar to other exchange traded funds, the closing trading price of the units of the First Asset ETF may be different from its NAV. As a result, dealers may be able to acquire or redeem a PNU at a discount or a premium to the closing trading price per unit. Such price differences may be due, in large part, to supply and demand factors in the secondary trading market for units of the First Asset ETF being similar, but not identical, to the same forces influencing the price of the underlying securities of the First Asset ETF at any point in time. As the Designated Broker and Dealers may subscribe for or redeem a PNU at the applicable NAV per Unit, the Manager expects that large discounts or premiums to the NAV per Unit of the First Asset ETF will not be sustained.

Fluctuations in NAV and Market Price of the Units

The NAV and the funds available for distribution will vary according to, among other things, distributions paid on the Units which depend, in part, upon the performance of the debt security market generally and interest rates.

Additionally, external economic forces can affect the competitive strength and profitability of the borrowers of first lien loans and the issuers of high yield bonds which would significantly affect the value of such first lien loans or high yield bonds. The value of the investments in the First Asset ETF's portfolio may be affected by factors beyond the control of the Manager and the Portfolio Manager.

Units may trade in the market at a premium or discount to the NAV and there can be no assurance that Units will trade at a price equal to the NAV. Whether Unitholders will realize gains or losses upon a sale of Units will depend not upon the NAV but entirely upon whether the market price of Units at the time of sale is above or below the Unitholder's purchase price for the Units. The market price of the Units will be determined by factors in addition to NAV such as relative supply of and demand for the Units in the market, general market and economic conditions, and other factors.

Designated Broker/Dealer Risk

As the First Asset ETF will only issue Units directly to the Designated Broker and Dealers, in the event that the purchasing designated broker or dealer is unable to meet its settlement obligations, any resulting costs and losses incurred will be borne by the First Asset ETF.

Reliance on Key Personnel

Unitholders will be dependent on the abilities of the Manager and Portfolio Manager to effectively manage the First Asset ETF and its portfolio in a manner consistent with its investment objectives, investment strategies and investment restrictions. The investment portfolio of the First Asset ETF will be actively managed by the Portfolio Manager. The Portfolio Manager will apply investment techniques and risk analyses in making investment decisions for the First Asset ETF, but there can be no guarantee that these decisions will produce the desired results.

There is no certainty that the individuals who are principally responsible for providing administration and portfolio management services to the First Asset ETF will continue to be employed by the Manager or Portfolio Manager, as applicable.

Potential Conflicts of Interest

The Manager and Portfolio Manager and their respective directors, officers, affiliates and associates may engage in the promotion, management or investment management of other accounts, funds or trusts which invest primarily in the securities held by the First Asset ETF. Although officers, directors and professional staff of the Manager and the Portfolio Manager will devote as much time to the First Asset ETF as is deemed appropriate to perform their duties, the staff of the Manager and the Portfolio Manager may have conflicts in allocating their time and services among the First Asset ETF and the other funds and assets managed by the Manager and the Portfolio Manager.

Risks associated with Residency of the Portfolio Manager

The Portfolio Manager is resident outside Canada and all or a substantial portion of its assets are located outside Canada. As a result, anyone seeking to enforce legal rights against it may find it difficult to do so.

Cease Trading of Securities Risk

If the securities of an issuer included in the portfolio of the First Asset ETF are cease-traded by order of the relevant securities regulatory authority or are halted from trading by the relevant stock exchange, the First Asset ETF may halt trading in its securities. Accordingly, securities of the First Asset ETF bear the risk of cease trading orders against all issuers whose securities are included in its portfolio, not just one. If portfolio securities of the First Asset ETF are cease-traded by order of a securities regulatory authority, if normal trading of such securities is suspended on the relevant exchange, or if for any reason it is likely there will be no closing bid price for such securities, the First Asset ETF may suspend the right to redeem securities for cash, subject to any required prior regulatory approval. If the right to redeem securities for cash is suspended, the First Asset ETF may return redemption requests to securityholders who have submitted them. If securities are cease-traded, they may not be delivered on an exchange of a PNU for a Basket of Securities until such time as the cease-trade order is lifted.

Exchange Risk

In the event that the TSX closes early or unexpectedly on a day that it is normally open for trading, Unitholders will be unable to purchase or sell Units on the TSX until it reopens and there is a possibility that, at the same time and for the same reason, the exchange and redemption of Units may be suspended until the TSX reopens.

Early Closing Risk

Unanticipated early closings of a stock exchange on which securities held by the First Asset ETF are listed may result in the First Asset ETF being unable to sell or buy securities on that day. If the TSX closes early on a day when the First Asset ETF needs to execute a high volume of securities trades late in the trading day, the First Asset ETF may incur substantial trading losses.

Concentration Risk

The First Asset ETF from time to time may be concentrated to a significant degree in securities of issuers or underlying funds focused in a single industry or sector. If the First Asset ETF concentrates its investments in an industry or sector, the First Asset ETF faces more risks than if it were diversified broadly over numerous industries or sectors. Such industry-based risks, any of which may adversely affect the issuers in which the First Asset ETF invests, may include, but are not limited to, the following: general economic conditions or cyclical market patterns that could negatively affect supply and demand in a particular industry; competition for resources, adverse labour relations, political or world events; obsolescence of technologies; and increased competition or new product introductions that may affect the profitability or viability of companies in an industry. In addition, at times, such industry or sector may be out of favor and underperform other industries or the market as a whole.

Reliance on Historical Data Risk

Past trends may not be repeated in the future. The accuracy of the historical data used by the Portfolio Manager and those individuals who are principally responsible for providing administration and portfolio management services to the First Asset ETF for research and development, which is often provided by third parties, cannot be guaranteed by the Manager or the Portfolio Manager. The Manager and the Portfolio Manager only seek to obtain such data from companies that they believe to be highly reliable and of high reputation.

Illiquid Securities

There is no assurance that an adequate market will exist for the securities in the portfolio. The Portfolio Manager may be unable to acquire or dispose of securities in quantities or at prices which are acceptable to the Portfolio Manager, if the market for such securities is illiquid.

Market Disruptions Risk

War and occupation, terrorism and related geopolitical risks may in the future lead to increased short-term market volatility and may have adverse long-term effects on world economies and markets generally. Those events could also have an acute effect on individual issuers or related groups of issuers. These risks could also adversely affect securities markets, inflation and other factors relating to the portfolio securities of a First Asset ETF.

Tax Risk

The First Asset ETF qualifies as a “mutual fund trust” within the meaning of the Tax Act. For the First Asset ETF to qualify as a “mutual fund trust,” it must comply on a continuous basis with certain requirements relating to the qualification of its Units for distribution to the public, the number of Unitholders of a particular class of Units of the First Asset ETF and the dispersal of ownership of that class of its Units.

Currently, a trust will be deemed not to be a mutual fund trust if it is established or maintained primarily for the benefit of non-residents unless, at that time, all or substantially all of its property is property other than property that would be “taxable Canadian property” (if the definition of such term in the Tax Act were read without reference to paragraph (b) thereof). The current law does not provide any means of rectifying a loss of mutual fund trust status if this requirement is not met.

Provided the First Asset ETF complies with its investment restrictions set forth under the heading “Investment Restrictions”, no more than 10% of the fair market value of the First Asset ETF’s assets will at any time consist of property that would be “taxable Canadian property” (if the definition of such term in the Tax Act were read without reference to paragraph (b) thereof). The Declaration of Trust for the First Asset ETF also contains a restriction on the number of permitted non-resident Unitholders.

If the First Asset ETF were to cease to qualify as a mutual fund trust, the income tax considerations as described under “Income Tax Considerations” would in some respects be materially and adversely different.

There can be no assurance that Canadian federal and provincial income tax laws respecting the treatment of mutual fund trusts will not be changed in a manner that adversely affects the Unitholders.

In determining its income for tax purposes, the First Asset ETF treats gains and losses on dispositions of securities in the portfolio as capital gains and losses. Generally, the First Asset ETF includes gains and deducts losses on income account in connection with investments made through certain derivatives, including certain short sales of securities, except where such derivatives are used to hedge portfolio securities held on capital account provided there is sufficient linkage and recognizes such gains or losses for tax purposes at the time they are realized by the First Asset ETF. In addition, gains or losses in respect of foreign currency hedges entered into in respect of amounts invested in the First Asset ETF’s portfolio will constitute capital gains and capital losses to the First Asset ETF if the portfolio securities are capital property to the First Asset ETF and there is sufficient linkage. Designations with respect to the First Asset ETF’s income and capital gains will be made and reported to Unitholders of the First Asset

ETF on the foregoing basis. The CRA's practice is not to grant advance income tax rulings on the characterization of items as capital gains or income and no advance income tax ruling has been requested or obtained. If some or all of the transactions undertaken by the First Asset ETF in respect of such dispositions or transactions were treated on income rather than capital account (whether because of the DFA Rules discussed under "Income Tax Considerations – Taxation of the First Asset ETF" or otherwise), the net income of the First Asset ETF for tax purposes and the taxable component of distributions to Unitholders could increase. Any such redetermination by the CRA may result in the First Asset ETF being liable for unremitted withholding taxes on prior distributions made to Unitholders of the First Asset ETF who were not resident in Canada for the purposes of the Tax Act at the time of the distribution. Such potential liability may reduce the net asset value of, or trading prices of, the Units of the First Asset ETF.

Pursuant to rules in the Tax Act, if the First Asset ETF experiences a "loss restriction event" (i) it will be deemed to have a year-end for tax purposes (which would result in an unscheduled distribution of the First Asset ETF's net income and net realized capital gains, if any, at such time to Unitholders so that the First Asset ETF is not liable for non-refundable income tax on such amounts under Part I of the Tax Act), and (ii) it will become subject to the loss restriction rules generally applicable to a corporation that experiences an acquisition of control, including a deemed realization of any unrealized capital losses and restrictions on its ability to carry forward losses. Generally, the First Asset ETF will be subject to a loss restriction event if a person becomes a "majority-interest beneficiary", or a group of persons becomes a "majority-interest group of beneficiaries", of the First Asset ETF, as those terms are defined in the affiliated persons rules contained in the Tax Act, with certain modifications. Generally, a majority-interest beneficiary of the First Asset ETF is a beneficiary in the income or capital, as the case may be, of the First Asset ETF whose beneficial interests, together with the beneficial interests of persons and partnerships with whom the beneficiary is affiliated, have a fair market value that is greater than 50% of the fair market value of all the interests in the income or capital, as the case may be, of the First Asset ETF. Please see "Income Tax Considerations – Taxation of Unitholders" for the tax consequences of an unscheduled or other distribution to Unitholders. Trusts that qualify as "investment funds" as defined in the rules in the Tax Act relating to "loss restriction events" are generally excepted from the application of such rules. An "investment fund" for this purpose includes a trust that meets certain conditions, including satisfying certain of the conditions necessary to qualify as a "mutual fund trust" for purposes of the Tax Act, not using any property in the course of carrying on a business and complying with certain asset diversification requirements. If the First Asset ETF were not to qualify as an "investment fund", it could potentially have a "loss restriction event" and thereby become subject to the related tax consequences described above.

The Tax Act contains rules concerning the taxation of publicly traded Canadian trusts and partnerships that own certain types of property defined as "non-portfolio property". A trust that is subject to these rules is subject to trust level taxation, at rates comparable to those that apply to corporations, on the trust's income earned from "non-portfolio property" to the extent that such income is distributed to its unitholders. The First Asset ETF will not be subject to tax under these rules as long as the First Asset ETF complies with its investment restrictions in this regard. If the First Asset ETF is subject to tax under these rules, the after-tax return to Unitholders could be reduced, particularly in the case of a Unitholder who is exempt from tax under the Tax Act or is a non-resident of Canada.

Changes in the interpretation and administration of the 5% federal goods and services tax ("GST") and federal harmonized sales tax (of up to 15%) applicable in Ontario, Nova Scotia, New Brunswick, Newfoundland and Labrador and Prince Edward Island ("HST") may result in the First Asset ETF being required to pay increased amounts of GST or HST.

The First Asset ETF may invest in global debt or equity securities. Many foreign countries preserve their right under domestic tax laws and applicable tax conventions with respect to taxes on income and on capital ("Tax Treaties") to impose tax on interest or dividends paid or credited to, and any gains realized on the disposition of securities by, persons who are not resident in such countries. While the First Asset ETF intends to make investments in such a manner as to minimize the amount of foreign taxes incurred under foreign tax laws and subject to any applicable Tax Treaties, investments in global debt or equity securities may subject the First Asset ETF to foreign taxes on interest or dividends paid or credited to it or any gains realized on the disposition of such securities. Any foreign taxes incurred by the First Asset ETF will generally reduce the value of its portfolio. To the extent that such foreign tax paid by the First Asset ETF exceeds 15% of the amount included in the First Asset ETF's income from such investments, such excess may generally be deducted by the First Asset ETF in computing its net income for the purposes of the Tax Act. To the extent that foreign tax paid does not exceed 15% of such amount and has not been deducted in computing the First Asset ETF's income and the First Asset ETF designates its income from a foreign

source in respect of a Unitholder, the Unitholder will, for the purposes of computing its foreign tax credits, be entitled to treat the Unitholder's proportionate share of foreign taxes paid by the First Asset ETF in respect of such income as foreign taxes paid by the Unitholder. The availability of foreign tax credits to a Unitholder is subject to the detailed rules in the Tax Act.

Withholding Tax Risk

As the First Asset ETF's portfolio will consist of securities issued by foreign issuers, distributions received by the First Asset ETF on the securities in the First Asset ETF's portfolio may be subject to foreign withholding tax. The return on the First Asset ETF's portfolio will be net of such foreign withholding tax, unless the terms of the securities in the First Asset ETF's portfolio require the issuers of such securities to "gross-up" distributions and gains, as applicable, so that a holder of such securities receives the amount that it would have received in the absence of such withholding tax. There can be no assurances that (i) distributions and gains on securities held in the First Asset ETF's portfolio will not be subject to foreign withholding tax or (ii) the terms of securities held in the First Asset ETF's portfolio will provide for the gross-up referred to above.

US Government Obligations

U.S. government obligations may include direct obligations of the U.S. Treasury, including Treasury bills, notes and bonds, all of which are backed as to principal and interest payments by the full faith and credit of the U.S. Other obligations include those issued or guaranteed by U.S. government agencies or instrumentalities. These obligations may or may not be backed by the "full faith and credit" of the U.S. Securities which are backed by the full faith and credit of the U.S. include obligations of the Government National Mortgage Association, the Farmers Home Administration, and the Export-Import Bank. In the case of securities not backed by the full faith and credit of the U.S., the First Asset ETF must look principally to the federal agency issuing or guaranteeing the obligation for ultimate repayment and may not be able to assert a claim against the U.S. itself in the event the agency or instrumentality does not meet its commitments.

The total public debt of the United States and other countries around the globe as a percent of gross domestic product has grown rapidly since the beginning of the 2008 financial downturn. Although high debt levels do not necessarily indicate or cause economic problems, they may create certain systemic risks if sound debt management practices are not implemented. A high national debt level may increase market pressures to meet government funding needs, which may drive debt cost higher and cause a country to sell additional debt, thereby increasing refinancing risk. A high national debt also raises concerns that a government will not be able to make principal or interest payments when they are due. Unsustainable debt levels can cause devaluations of currency, prevent a government from implementing effective counter-cyclical fiscal policy in economic downturns, and contribute to market volatility.

In the past, U.S. sovereign credit has experienced downgrades and there can be no guarantee that it will not experience further downgrades in the future by rating agencies. The market prices and yields of securities supported by the full faith and credit of the U.S. Government may be adversely affected by a rating agency's decision to downgrade the sovereign credit rating of the United States.

Securities Lending, Repurchase and Reverse Repurchase Transaction Risk

The First Asset ETF is authorized to enter into securities lending, repurchase and reverse repurchase transactions in accordance with NI 81-102. In a securities lending transaction, the First Asset ETF lends its portfolio securities through an authorized agent to another party (often called a "**counterparty**") in exchange for a fee and a form of acceptable collateral. In a repurchase transaction, the First Asset ETF sells its portfolio securities for cash through an authorized agent while at the same time assuming an obligation to repurchase the same securities for cash (usually at a lower price) at a later date. In a reverse repurchase transaction, the First Asset ETF buys portfolio securities for cash while at the same time agreeing to resell the same securities for cash (usually at a higher price) at a later date. The following are some examples of the risks associated with securities lending, repurchase and reverse repurchase transactions:

- when entering into securities lending, repurchase and reverse repurchase transactions, the First Asset ETF is subject to the credit risk that the counterparty may default under the agreement and the First Asset ETF would be forced to make a claim in order to recover its investment;
- when recovering its investment on default, the First Asset ETF could incur a loss if the value of the portfolio securities loaned (in a securities lending transaction) or sold (in a repurchase transaction) has increased in value relative to the value of the collateral held by the First Asset ETF; and
- similarly, the First Asset ETF could incur a loss if the value of the portfolio securities it has purchased (in a reverse repurchase transaction) decreases below the amount of cash paid by the First Asset ETF to the counterparty.

The First Asset ETF may engage in securities lending from time to time. When engaging in securities lending, the First Asset ETF will receive collateral in excess of the value of the securities loaned, and although such collateral is marked to market, the First Asset ETF may be exposed to the risk of loss should a borrower default on its obligations to return the borrowed securities and the collateral is insufficient to reconstitute the portfolio of loaned securities.

Fund of Funds Investment Risk

The First Asset ETF may invest in other exchange traded funds, mutual funds, closed-end funds or public investment funds as part of its investment strategy. If the First Asset ETF invests in such underlying funds, its investment performance largely depends on the investment performance of the underlying funds in which it invests. Additionally, if an underlying fund suspends redemptions, the First Asset ETF may be unable to accurately value part of its investment portfolio and may be unable to redeem its Units. Underlying funds in which the First Asset ETF may invest can be expected to incur fees and expenses for operations, such as investment advisory and administration fees, which would be in addition to those incurred by the First Asset ETF.

Exchange Traded Funds Risk

The First Asset ETF may invest in exchange traded funds that seek to provide returns similar to the performance of a particular market index or industry sector index. Any such exchange traded fund may not achieve the same return as its benchmark market or industry sector index due to differences in the actual weightings of securities held in the fund versus the weightings in the relevant index and due to the operating and administrative expenses of the fund. For example, the exchange traded fund incurs a number of operating expenses not applicable to the underlying index, and incurs costs in buying and selling securities, especially when rebalancing the exchange traded fund's securities holdings to reflect changes in the composition of the underlying index.

Liability of Unitholders

The Declaration of Trust provides that no Unitholder will be subject to any personal liability whatsoever for any wilful or negligent acts or omissions or otherwise to any party in connection with the assets of the First Asset ETF or the affairs of the First Asset ETF. The Declaration of Trust also provides that the First Asset ETF must indemnify and hold each Unitholder harmless from and against any and all claims and liabilities to which such Unitholder may become subject, by reason of being or having been a Unitholder and must reimburse such Unitholder for all legal and other expenses reasonably incurred in connection with any such claim or liability. Despite the foregoing, there can be no absolute certainty, outside of Ontario, that a claim will not be made against a Unitholder for liabilities which cannot be satisfied out of the assets of the First Asset ETF.

Multi-Class Structure Risk

The Units are available in more than one class. If the First Asset ETF cannot pay the expenses or satisfy the obligations entered into by it for the sole benefit of one of those classes of Units using that class of Unit's proportionate share of the assets, the First Asset ETF may have to pay those expenses or satisfy those obligations out of another class of Unit's proportionate share of the assets, which would lower the investment return of such other

class of Units. In addition, a creditor of the First Asset ETF may seek to satisfy its claim from the assets of the First Asset ETF as a whole, even though its claim or claims relate only to a particular class of Units.

Absence of an Active Market for the Units

Although the Units of the First Asset ETF may be listed on the TSX, there can be no assurance that an active public market for such Units will be sustained.

INVESTMENT RISK CLASSIFICATION METHODOLOGY

Risk Rating of the First Asset ETF

The investment risk level of the First Asset ETF is required to be determined in accordance with a standardized risk classification methodology that is based on its historical volatility, as measured by the 10-year standard deviation of its returns. As the First Asset ETF has less than 10 years of performance history, the Manager calculates its investment risk level by using a reference index that is expected to reasonably approximate the standard deviation of the First Asset ETF. Once the First Asset ETF has 10 years of performance history, the methodology will calculate the standard deviation of the First Asset ETF by using its performance history, rather than that of its reference index. The First Asset ETF is assigned an investment risk rating in one of the following categories: low, low to medium, medium, medium to high or high risk.

The reference index used for the First Asset ETF is a blend of the Credit Suisse High Yield Index (60%) and Credit Suisse Leveraged Loan Index (40%). The Credit Suisse High Yield Index is designed to mirror the investable universe of the \$US-denominated high yield debt market. Credit Suisse Leveraged Loan Index is an index designed to mirror the investable universe of the \$US-denominated leveraged loan market.

Unitholders should know that other types of risks, both measurable and non-measurable, exist. Also, just as historical performance may not be indicative of future returns, historical volatility may not be indicative of future volatility. The risk rating of the First Asset ETF is reviewed annually and anytime it is no longer reasonable in the circumstances. A more detailed explanation of the risk classification methodology used to identify the risk rating is available on request, at no cost, by calling 416-642-1289 or toll-free 1-877-642-1289 or by emailing info@firstasset.com.

DISTRIBUTION POLICY

Any cash distributions of income on the Units are expected to be made monthly in the currency in which the Units of the First Asset ETF are denominated. The First Asset ETF does not have a fixed distribution amount. The amount of such distributions, if any, will be based on the Manager's assessment of anticipated cash flow and anticipated expenses of the First Asset ETF from time to time. The date of any cash distribution of the First Asset ETF will be announced in advance by issuance of a press release. The Manager may, in its complete discretion, change the frequency of these distributions and any such change will be announced by press release.

Depending on the underlying investments of the First Asset ETF, distributions on Units may consist of ordinary income sourced from interest or distributions received by the First Asset ETF and income sourced from foreign source income, but may also include dividends and net realized capital gains, in any case, less the expenses of that First Asset ETF and may include returns of capital.

Year-End Distributions

If, in any taxation year, after the ordinary distributions, there would remain in the First Asset ETF additional net income or net realized capital gains, the First Asset ETF will, after December 15 but on or before December 31 of that year, be required to pay or make payable such net income and net realized capital gains as one or more special year-end distributions in such year to Unitholders as is necessary to ensure that the First Asset ETF will not be liable for income tax on such amounts under Part I of the Tax Act (after taking into account all available deductions, credits and refunds). Such special distributions may be paid in the form of Units of the relevant class of the First

Asset ETF and/or cash. Any special distributions payable in Units of the relevant class of the First Asset ETF will increase the aggregate adjusted cost base of a Unitholder's Units of that class. Immediately following payment of such a special distribution in Units, the number of Units of that class outstanding will be automatically consolidated such that the number of Units of that class outstanding after such distribution will be equal to the number of Units of that class outstanding immediately prior to such distribution, except where there are non-resident Unitholders to the extent tax is required to be withheld in respect of the distribution. See "Income Tax Considerations".

Distribution Reinvestment Plan

At any time, Unitholders may elect to participate in the Manager's distribution reinvestment plan (the "**Reinvestment Plan**") by contacting the CDS Participant through which the Unitholder holds its Units. Under the Reinvestment Plan, cash distributions (net of any required withholding tax) will be used to acquire additional Units of the same class of the First Asset ETF (the "**Plan Units**") from the market and will be credited to the account of the Unitholder (the "**Plan Participant**") through CDS.

Any eligible Unitholder may enrol in the Reinvestment Plan by notifying the CDS Participant through which the Unitholder holds its Units of such Unitholder's intention to participate in the Reinvestment Plan. Under the Reinvestment Plan, cash distributions will be used to acquire Plan Units in the market and will be credited to the account of the Plan Participant through CDS. The CDS Participant must, on behalf of such Plan Participant, elect online via CDSX no later than 5:00 p.m. (Toronto time) on each applicable Distribution Record Date in respect of the next expected distribution in which the Unitholder wishes to participate. These elections are received directly by the Plan Agent via CDSX. If this election via CDSX is not received by the Plan Agent by the applicable deadline, the Unitholder will not participate in the Reinvestment Plan for that distribution.

The tax treatment to Unitholders of reinvested distributions is discussed under the heading "Income Tax Considerations".

Fractional Units

No fractional Plan Units will be purchased or sold under the Reinvestment Plan. Payments in cash for any remaining uninvested funds may be made in lieu of fractional Plan Units by the Plan Agent to CDS or CDS Participant, on a monthly or quarterly basis, as the case may be. Where applicable, CDS will, in turn, credit the Plan Participant, via the applicable CDS Participant.

Amendments, Suspension or Termination of the Reinvestment Plan

Any Plan Participant may withdraw from the Reinvestment Plan by contacting the CDS Participant through which the Unitholder holds its Units.

Plan Participants may voluntarily terminate or modify their participation in the Reinvestment Plan. Plan Participants no longer wishing to participate in the Reinvestment Plan must notify their CDS Participant no later than 4:00 p.m. (Toronto time) at least two business days immediately prior to the applicable Distribution Record Date. If notice is received after this deadline, participation will continue for that distribution only. Future distributions will be made in cash to such Unitholders.

The Manager may terminate the Reinvestment Plan with respect to the First Asset ETF in its sole discretion, upon not less than 30 days' notice to: (i) the Plan Participants, via the CDS Participants through which the Plan Participants hold their Units, (ii) the Plan Agent, and (iii) the TSX (if applicable). The Manager may also amend, modify or suspend the Reinvestment Plan with respect to the First Asset ETF at any time in its sole discretion, provided that it complies with certain requirements and gives notice of that amendment, modification or suspension (which notice may be given by issuing a press release containing a summary description of the amendment or in any other manner the Manager determines appropriate) to: (i) CDS Participants through which the Reinvestment Plan Participants hold their Units, (ii) the Plan Agent, and (iii) the TSX (if applicable). The Reinvestment Plan will terminate automatically with respect to the First Asset ETF upon the termination of the First Asset ETF.

The Manager may adopt additional rules and regulations to facilitate the administration of the Reinvestment Plan, subject to the approval of the TSX (if required by the TSX rules). The Manager may, in its sole discretion, and upon at least 30 days' written notice to the Plan Agent, remove the Plan Agent and appoint a new Plan Agent.

Other Provisions

Participation in the Reinvestment Plan is restricted to Unitholders who are residents of Canada for the purposes of the Tax Act. Partnerships (other than "Canadian partnerships" as defined in the Tax Act) are not eligible to participate in the Reinvestment Plan. Upon becoming a non-resident of Canada or a partnership (other than a Canadian partnership), a Plan Participant shall notify their CDS Participant and terminate participation in the Reinvestment Plan immediately. For the purpose of the Reinvestment Plan, the Plan Agent will not have any duty to inquire into the residency status or partnership status of Plan Participants, nor will the Plan Agent be required to know the residency status or partnership status of Plan Participants other than as notified by CDS or the Manager.

The automatic reinvestment of the distributions under the Reinvestment Plan will not relieve Plan Participants of any income tax applicable to such distributions. Each Plan Participant will be mailed annually the information necessary to enable such Plan Participant to complete an income tax return with respect to amounts paid or payable by the First Asset ETF to the Plan Participant in the preceding taxation year.

PURCHASES OF UNITS

Issuance of Units

Units of the First Asset ETF are being issued and sold on a continuous basis and there is no maximum number of Units that may be issued.

To Designated Brokers and Dealers

All orders to purchase Units directly from the First Asset ETF must be placed by Designated Brokers or Dealers. The First Asset ETF reserves the absolute right to reject any subscription order placed by a Designated Broker and/or a Dealer. No fees will be payable by the First Asset ETF to a Designated Broker or a Dealer in connection with the issuance of Units. On the issuance of Units, the Manager may, at its discretion, charge an administrative fee to a Dealer or Designated Broker to offset any expenses (including any applicable TSX additional listing fees) incurred in issuing the Units.

On any Trading Day, the Designated Broker or a Dealer may place a subscription order for the PNU or integral multiple PNU of the First Asset ETF. If a subscription order is received by the First Asset ETF at or before 9:00 a.m. (Toronto time) on a Trading Day, or such other time prior to the Valuation Time on such Trading Day as the Manager may permit, and is accepted by the Manager, the First Asset ETF will generally issue to the Dealer or Designated Broker the PNU (or an integral multiple thereof) within two Trading Days from the effective date of the subscription order. The First Asset ETF must receive payment for the Units subscribed for within two Trading Days from the effective date of the subscription order. The effective date of a subscription order is the Trading Day on which the Valuation Time that applies to such subscription order takes place.

Unless the Manager shall otherwise agree or the Declaration of Trust shall otherwise provide, as payment for a PNU of the First Asset ETF, a Dealer or Designated Broker must deliver subscription proceeds consisting of a Basket of Securities and cash in an amount sufficient so that the value of the Basket of Securities and cash delivered is equal to the net asset value of the applicable PNU of the First Asset ETF determined at the Valuation Time on the effective date of the subscription order.

The Manager may, in its complete discretion, instead accept subscription proceeds consisting of (i) cash only in an amount equal to the net asset value of the applicable PNU next determined at the Valuation Time on the effective date of the subscription order, plus (ii) if applicable, the Cash Creation Fee.

The Cash Creation Fee, if any, will be specified from time to time at the discretion of the Manager and will be published on each Trading Day on its website, www.firstasset.com.

The Manager will, except when circumstances prevent it from doing so, publish the applicable PNU for the First Asset ETF following the close of business on each Trading Day on its website, www.firstasset.com. The Manager may, at its discretion, increase or decrease the applicable PNU from time to time.

To Unitholders as Reinvested Distributions

In addition to the issuance of Units as described above, distributions may be made by way of issuance of Units and Units may be issued to Unitholders on the automatic reinvestment of certain distributions in accordance with the distribution policy of the First Asset ETF. See “Distribution Policy”.

Buying and Selling Units

The Units of the First Asset ETF are currently listed on the TSX. Investors can buy or sell Units on the TSX through registered brokers and dealers in the province or territory where the investors reside. Investors may incur customary brokerage commissions in buying or selling Units. No fees are paid by investors to the Manager or the First Asset ETF in connection with buying or selling of Units on the TSX.

Special Considerations for Unitholders

The provisions of the so-called “early warning” requirements set out in Canadian securities legislation do not apply in connection with the acquisition of Units. In addition, the First Asset ETF is entitled to rely on exemptive relief from the securities regulatory authorities to permit a Unitholder to acquire more than 20% of the Units through purchases on the TSX without regard to the takeover bid requirements of applicable Canadian securities legislation, provided that such Unitholder, and any person acting jointly or in concert with such Unitholder, undertakes to the Manager not to vote more than 20% of the Units at any meeting of Unitholders.

EXCHANGE AND REDEMPTION OF UNITS

Exchange of Units at Net Asset Value per Unit for Baskets of Securities and/or Cash

Unitholders may exchange the applicable PNU (or an integral multiple thereof) of the First Asset ETF on any Trading Day for Baskets of Securities and cash, or in the discretion of the Manager, cash only, subject to the requirement that a minimum PNU be exchanged. To effect an exchange of Units, a Unitholder must submit an exchange request in the form and at the location prescribed by the First Asset ETF from time to time at or before 9:00 a.m. (Toronto time) on a Trading Day, or such other time prior to the Valuation Time on such Trading Day as the Manager may permit. The exchange price will be equal to the net asset value of each PNU tendered for exchange determined at the Valuation Time on the effective date of the exchange request, payable by delivery of a Basket of Securities (constituted as most recently published prior to the effective date of the exchange request) and cash, or in the discretion of the Manager, cash only, subject to payment of the applicable Cash Exchange Fee, if any. The securities to be included in the Basket of Securities delivered in an exchange shall be selected by the Portfolio Manager in its sole discretion. The Units will be redeemed in the exchange. The Manager will also make available to Dealers and Designated Brokers the applicable PNU to redeem Units on each Trading Day. The effective date of an exchange request is the Trading Day on which the Valuation Time that applies to such redemption request takes place.

The Cash Exchange Fee, if any, will be specified from time to time at the discretion of the Manager and will be published on each Trading Day on its website, www.firstasset.com.

If an exchange request is not received by the applicable cut-off time, the exchange request will be effective only on the next Trading Day. Settlement of exchanges for Baskets of Securities and/or cash will generally be made by the second Trading Day after the effective day of the exchange request.

If any securities in which the First Asset ETF has invested are cease traded at any time by order of a securities regulatory authority or other relevant regulator or stock exchange, the delivery of Baskets of Securities to a Unitholder, Dealer or Designated Broker on an exchange in the PNU may be postponed until such time as the transfer of the Baskets of Securities is permitted by law.

As described under “Book-Entry Only System”, registration of interests in, and transfers of, Units will be made only through the book-entry only system of CDS. The redemption rights described below must be exercised through the CDS Participant through which the owner holds Units. Beneficial owners of Units should ensure that they provide redemption instructions to the CDS Participant through which they hold such Units sufficiently in advance of the cut-off times described below to allow such CDS Participant to notify CDS and for CDS to notify the Registrar and Transfer Agent prior to the relevant cut-off time.

Redemption of Units for Cash

On any Trading Day, Unitholders may redeem (i) Units for cash at a redemption price per Unit equal to 95% of the closing price for the Units on the TSX on the effective day of the redemption less any applicable redemption fee determined by the Manager, in its sole discretion, from time to time, or (ii) a PNU of the First Asset ETF or a multiple PNU of the First Asset ETF for cash equal to the net asset value of that number of Units less any applicable redemption fee determined by the Manager, in its sole discretion from time to time. Because Unitholders will generally be able to sell Units at the market price on the TSX through a registered broker or dealer subject only to customary brokerage commissions, Unitholders are advised to consult their brokers, dealers or investment advisors before redeeming such Units for cash. No fees or expenses are paid by Unitholders to the Manager or the First Asset ETF in connection with selling Units on the TSX.

In order for a cash redemption to be effective on a Trading Day, a cash redemption request with respect to the First Asset ETF must be delivered to the Manager in the form and at the location prescribed by the Manager from time to time at or before 9:00 a.m. (Toronto time) on such Trading Day. Any cash redemption request received after such time will be effective only on the next Trading Day. Where possible, payment of the redemption price will be made by no later than the second Trading Day after the effective day of the redemption. The cash redemption request forms may be obtained from any registered broker or dealer.

Unitholders that have delivered a redemption request prior to the Distribution Record Date for any distribution will not be entitled to receive that distribution.

In connection with the redemption of Units, the First Asset ETF will generally dispose of securities or other financial instruments.

Conversion of Units

Unitholders may convert Units of any class of the First Asset ETF (the “**Converting Units**”) into whole Units of any other class of the First Asset ETF (the “**Converted Units**”) in any month. To do so, the Converting Units must be surrendered and the Unitholder’s CDS Participant must deliver to CDS (at its office in the City of Toronto) on behalf of the Unitholder a written notice of the Unitholder’s intention to convert during the period from the first day of a month until 5:00 p.m. (Toronto time) on the last business day prior to the 16th day of such month. Converting Units surrendered for conversion will be converted on the last Trading Day of that month (the “**Monthly Conversion Date**”). For a Unitholder’s Converting Units so converted, the Unitholder will receive a number of whole Converted Units equal to the net asset value per Converting Unit as of the Monthly Conversion Date, multiplied by the number of Converting Units so converted divided by the net asset value per Converted Unit as of the Monthly Conversion Date. In the case of a conversion to or from US\$ Units, the applicable net asset value per Converting Unit or Converted Unit, as the case may be, will be determined for purposes of such conversion with reference to the WM/Reuters New York Closing Spot Rate (WM16) on the Monthly Conversion Date, or if such rate is not available, the WM/Reuters London Closing Spot Rate (WM11). The Manager will post the applicable conversion rate on its website, www.firstasset.com. As no fractional Units will be issued upon conversion, any remaining fraction of a Converting Unit will be redeemed at its net asset value.

Unitholders who desire to convert their Units should ensure that the CDS Participant is provided with notice of his or her intention to do so sufficiently in advance of the relevant notice period so as to permit the CDS Participant to deliver notice to CDS and so as to permit CDS to deliver notice to the Registrar and Transfer Agent in advance of the required time.

The tax treatment to Unitholders of the conversion of Units is discussed under the heading “Income Tax Considerations”.

Suspension of Exchanges and Redemptions

The Manager may suspend the exchange or redemption of Units or payment of redemption proceeds of the First Asset ETF: (i) during any period when normal trading is suspended on a stock exchange or other market on which securities owned by the First Asset ETF are listed and traded, if these securities represent more than 50% by value or underlying market exposure of the total assets of the First Asset ETF, without allowance for liabilities, and if these securities are not traded on any other exchange that represents a reasonably practical alternative for the First Asset ETF; or (ii) with the prior permission of the securities regulatory authorities where required, for any period not exceeding 30 days during which the Manager determines that conditions exist which render impractical the sale of assets of the First Asset ETF or which impair the ability of the Custodian to determine the value of the assets of the First Asset ETF. The suspension may apply to all requests for exchange or redemption received prior to the suspension but as to which payment has not been made, as well as to all requests received while the suspension is in effect. All Unitholders making such requests shall be advised by the Manager of the suspension and that the exchange or redemption will be effected at a price determined on the first Valuation Day following the termination of the suspension. All such Unitholders shall have and shall be advised that they have the right to withdraw their requests for exchange or redemption. The suspension shall terminate in any event on the first day on which the condition giving rise to the suspension has ceased to exist, provided that no other condition under which a suspension is authorized then exists. To the extent not inconsistent with official rules and regulations promulgated by any government body having jurisdiction over the First Asset ETF, any declaration of suspension made by the Manager shall be conclusive.

Redemption Fee

The Manager may, at its discretion, charge exchanging or redeeming Unitholders a redemption fee of up to 0.25% of the exchange or redemption proceeds to offset certain transaction costs associated with the exchange or redemption of Units. The Manager will publish the current redemption fee, if any, on its website, www.firstasset.com. Any such redemption fee charged by the Manager will accrue to the First Asset ETF.

Allocations of Capital Gains to Redeeming or Exchanging Unitholders

Pursuant to the Declaration of Trust, the First Asset ETF may allocate and designate as payable any capital gains realized by the First Asset ETF as a result of any disposition of property of the First Asset ETF undertaken to permit or facilitate the redemption or exchange of Units to a Unitholder whose Units are being redeemed or exchanged. Any such allocations and designations will reduce the redemption price otherwise payable to the redeeming Unitholder.

Book-Entry Only System

Registration of interests in, and transfers of, Units will be made only through the book-entry only system of CDS. Units must be purchased, transferred and surrendered for redemption only through a CDS Participant. All rights of an owner of Units must be exercised through, and all payments or other property to which such owner is entitled will be made or delivered by, CDS or the CDS Participant through which the owner holds such Units. Upon buying Units, the owner will receive only the customary confirmation. References in this prospectus to a holder of Units means, unless the context otherwise requires, the owner of the beneficial interest of such Units.

Neither the First Asset ETF nor the Manager will have any liability for: (i) records maintained by CDS relating to the beneficial interests in Units or the book entry accounts maintained by CDS; (ii) maintaining, supervising or

reviewing any records relating to such beneficial ownership interests; or (iii) any advice or representation made or given by CDS and made or given with respect to the rules and regulations of CDS or any action taken by CDS or at the direction of the CDS Participants.

The ability of a beneficial owner of Units to pledge such Units or otherwise take action with respect to such owner's interest in such Units (other than through a CDS Participant) may be limited due to the lack of a physical certificate.

The First Asset ETF has the option to terminate registration of Units through the book-entry only system in which case certificates for Units in fully registered form will be issued to beneficial owners of such Units or to their nominees.

Short-Term Trading

Unlike conventional open-end mutual fund trusts in which short term trading by investors may cause the mutual fund to incur additional unnecessary trading costs in connection with the purchase of additional portfolio securities and the sale of portfolio securities to fund unitholder redemptions, the Manager does not believe that it is necessary to impose any short-term trading restrictions on the First Asset ETF at this time as: (i) the First Asset ETF is an exchange traded fund that is primarily traded in the secondary market; and (ii) the few transactions involving Units that do not occur on the secondary market involve Designated Brokers and Dealers, who can only purchase or redeem Units in a PNU and on whom the Manager may impose a redemption fee. The redemption fee is intended to compensate the First Asset ETF for any costs and expenses incurred by the First Asset ETF in order to fund the redemption.

PRIOR SALES

Trading Price and Volume

The following charts provide the price ranges and volume of Units of the First Asset ETF traded on the TSX for each month or partial month, as applicable, during the 12 months preceding the date of this prospectus:

First Asset Active Credit ETF

Month	Unit Price Range (\$)		Volume of Units Traded	
	Common Units	US\$ Units	Common Units	US\$ Units
2017				
February	9.90 - 10.12	9.93 - 9.93	56,322	778
March	9.65 - 10.08	9.82 - 9.93	79,801	9,731
April	9.93 - 10.22	9.91 - 9.91	45,311	1,005
May	9.91 - 10.12	9.95 - 9.99	43,254	8,050
June	9.95 - 10.08	9.93 - 9.98	40,138	2,537
July	9.97 - 10.13	9.98 - 10.04	77,572	3,220
August	9.96 - 10.07	9.93 - 9.93	11,916	2,000
September	9.99 - 10.08	9.93 - 9.99	41,279	5,200
October	9.98 - 10.06	9.82 - 9.87	86,851	4,324
November	9.83 - 10.00	9.79 - 9.88	71,796	4,977
December	9.82 - 9.94	9.78 - 9.82	68,841	4,800
2018				
January	9.86 - 9.98	9.76 - 9.81	28,542	3,200

INCOME TAX CONSIDERATIONS

The following is, as of the date hereof, a summary of the principal Canadian federal income tax considerations under the Tax Act generally applicable to the acquisition, holding and disposition of Units by a Unitholder who acquires Units pursuant to this prospectus. This summary only applies to a prospective Unitholder who is an individual (other than a trust) resident in Canada for purposes of the Tax Act, who deals at arm's length with the First Asset ETF and the Designated Broker or Dealer and is not affiliated with the First Asset ETF or the Designated Broker or Dealer and who holds Units as capital property (a "**Holder**").

Generally, Units will be considered to be capital property to a Holder provided that the Holder does not hold such Units in the course of carrying on a business of buying and selling securities and has not acquired them in one or more transactions considered to be an adventure or concern in the nature of trade. Assuming that the First Asset ETF is a "mutual fund trust" for purposes of the Tax Act, certain Holders who might not otherwise be considered to hold Units as capital property may, in certain circumstances, be entitled to have such Units and all other "Canadian securities" owned or subsequently acquired by them treated as capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act. This summary does not apply to a Holder who has entered or will enter into a "derivative forward agreement" as that term is defined in the Tax Act with respect to the Units or any Basket of Securities disposed of in exchange for Units.

This summary is based on the assumption that at all times the First Asset ETF has complied with and will continue to comply with its investment restrictions and that none of the issuers of the securities in the portfolio of the First Asset ETF will be foreign affiliates of the First Asset ETF or of any Holder for purposes of the Tax Act.

This summary is based on the current provisions of the Tax Act and an understanding of the current publicly available administrative policies and assessing practices of the CRA published in writing prior to the date hereof. This summary takes into account the Tax Amendments. This description is not exhaustive of all Canadian federal income tax consequences and does not take into account or anticipate changes in the law or in administrative policy or assessing practice, whether by legislative, governmental or judicial action other than the Tax Amendments in their present form, nor does it take into account provincial, territorial or foreign tax considerations, which may differ significantly from those discussed herein. There can be no assurance that the Tax Amendments will be enacted in the form publicly announced, or at all.

All U.S. dollar amounts relevant in computing any amount under the Tax Act with respect to the US\$ Units, including the acquisition, holding or disposition thereof, will be determined for purposes of the Tax Act in Canadian dollars at the appropriate exchange rate prevailing on the date of the transaction in accordance with the rules in the Tax Act. Holders of US\$ Units may realize gains and losses by virtue of the fluctuation in the value of U.S. dollars relative to Canadian dollars.

This summary is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in Units. This summary does not address the deductibility of interest on any funds borrowed by a Unitholder to purchase Units. The income and other tax consequences of investing in Units will vary depending on an investor's particular circumstances including the province or territory in which the investors reside or carries on business. Accordingly, this summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to any holder of Units. Prospective investors should consult their own tax advisors with respect to the income tax consequences to them of an acquisition of Units based on their particular circumstances

Status of the First Asset ETF

This summary is based on the assumptions that the First Asset ETF qualifies at all times as a "mutual fund trust" within the meaning of the Tax Act, that the First Asset ETF validly elected under the Tax Act to be a mutual fund trust from the date it was established, and that the First Asset ETF has not been established and has not been and will not be maintained primarily for the benefit of non-residents unless, at that time, substantially all of its property consists of property other than property that would be "taxable Canadian property" within the meaning of the Tax Act (if the definition of such term were read without reference to paragraph (b) of that definition).

To qualify as a mutual fund trust (i) the First Asset ETF must be a Canadian resident “unit trust” for purposes of the Tax Act, (ii) the only undertaking of the First Asset ETF must be (a) the investing of its funds in property (other than real property or interests in real property or an immovable or a real right in an immovable), (b) the acquiring, holding, maintaining, improving, leasing or managing of any real property (or interest in real property) or of any immovable (or real right in immovables) that is capital property of the First Asset ETF, or (c) any combination of the activities described in (a) and (b), (iii) the First Asset ETF must comply with certain requirements respecting the qualification of its Units for distribution to the public, and (iv) the First Asset ETF must comply with certain minimum requirements respecting the ownership and dispersal of Units of a particular class (the “**minimum distribution requirements**”). In this connection, (i) the Manager intends to cause the First Asset ETF to qualify as a unit trust throughout the life of the First Asset ETF, (ii) the First Asset ETF’s undertaking conforms with the restrictions for mutual fund trusts, and (iii) the Manager has no reason to believe that the First Asset ETF will not comply with the minimum distribution requirements at all relevant times.

If the First Asset ETF were not to qualify or be deemed to qualify as a mutual fund trust at all times, the income tax considerations described below would, in some respects, be materially and adversely different.

Provided the Units are listed on a “designated stock exchange” (within the meaning of the Tax Act) or the First Asset ETF qualifies (or is deemed to qualify) as a “mutual fund trust” within the meaning of the Tax Act, Units will be qualified investments under the Tax Act for a trust governed by an RRSP, a RRIF, a DPSP, an RDSP, an RESP or a TFSA (the “**Plans**”). See “Income Tax Considerations – Taxation of Registered Plans” for the consequences of holding Units in Plans.

Taxation of the First Asset ETF

The First Asset ETF has elected to have a taxation year that ends on December 15 of each calendar year. The First Asset ETF must pay tax on its net income (including net realized taxable capital gains) for a taxation year, less the portion thereof that it deducts in respect of the amount paid or payable to its Unitholders in the calendar year in which the taxation year-end falls. An amount will be considered to be payable to a Unitholder in a calendar year if it is paid to the Unitholder in that year by the First Asset ETF or if the Unitholder is entitled in that year to enforce payment of the amount. The Declaration of Trust requires that sufficient amounts be paid or made payable each year so that the First Asset ETF is not liable for any non-refundable income tax under Part I of the Tax Act.

The First Asset ETF will be required to include in its income for each taxation year any dividends received (or deemed to be received) by it in such year on a security held in its portfolio.

With respect to indebtedness, the First Asset ETF will be required to include in its income for a taxation year all interest thereon that accrues (or is deemed to accrue) to it to the end of that year (or until the disposition of the indebtedness in the year) or that has become receivable or is received by the First Asset ETF before the end of that year, including on a redemption or repayment on maturity, except to the extent that such interest was included in computing the First Asset ETF’s income for a preceding taxation year and excluding any interest that accrued prior to the time of the acquisition of the indebtedness by the First Asset ETF.

In general, the First Asset ETF will realize a capital gain (or capital loss) upon the actual or deemed disposition of a security included in its portfolio to the extent the proceeds of disposition net of any amounts included as interest on the disposition of the security and any reasonable costs of disposition exceed (or are less than) the adjusted cost base of such security unless the First Asset ETF were considered to be trading or dealing in securities or otherwise carrying on a business of buying and selling securities or the First Asset ETF has acquired the security in a transaction or transactions considered to be an adventure or concern in the nature of trade. The First Asset ETF takes the position that gains and losses realized on the disposition of its securities are capital gains and capital losses. The First Asset ETF has made an election under subsection 39(4) of the Tax Act so that all securities held by the First Asset ETF that are “Canadian securities” (as defined in the Tax Act), including Canadian securities acquired in connection with a short sale, are deemed to be capital property to the First Asset ETF.

One-half of the amount of any capital gain (a “**taxable capital gain**”) realized by the First Asset ETF in a taxation year on the disposition of securities that are capital property of the First Asset ETF must be included in computing the First Asset ETF’s income for the year, and one-half of the amount of any capital loss (an “**allowable capital**

loss”) realized by the First Asset ETF in a taxation year must be deducted against any taxable capital gains realized by the First Asset ETF in the year. Any excess of allowable capital losses over taxable capital gains for a taxation year may be carried back and deducted in any of the three preceding taxation years or carried forward and deducted in any subsequent taxation year against net taxable capital gains realized by the First Asset ETF to the extent and under the circumstances described in the Tax Act.

The First Asset ETF is entitled for each taxation year throughout which it is a mutual fund trust for purposes of the Tax Act to reduce (or receive a refund in respect of) its liability, if any, for tax on its net realized capital gains by an amount determined under the Tax Act based on the redemptions of Units during the year (the “**Capital Gains Refund**”). The Capital Gains Refund in a particular taxation year may not completely offset the tax liability of the First Asset ETF for such taxation year which may arise upon the sale or other disposition of securities included in the portfolio in connection with the redemption of Units.

In general, gains and losses realized by the First Asset ETF from derivative transactions, including short sales of securities other than Canadian securities, will be on income account except where such derivatives are used to hedge portfolio securities held on capital account provided there is sufficient linkage, subject to the DFA Rules discussed below, and such gains and losses will be recognized for tax purposes at the time they are realized by the First Asset ETF.

A loss realized by the First Asset ETF on a disposition of capital property will be a suspended loss for purposes of the Tax Act if the First Asset ETF, or a person affiliated with the First Asset ETF, acquires a property (a “**substituted property**”) that is the same or identical to the property disposed of, within 30 days before and 30 days after the disposition and the First Asset ETF, or a person affiliated with the First Asset ETF, owns the substituted property 30 days after the original disposition. If a loss is suspended, the First Asset ETF cannot deduct the loss from the First Asset ETF’s capital gains until the substituted property is disposed of and is not reacquired by the First Asset ETF, or a person affiliated with the First Asset ETF, within 30 days before and after the disposition.

The First Asset ETF will enter into transactions denominated in currencies other than the Canadian dollar. The cost and proceeds of disposition of securities, interest, dividends and all other amounts will be determined for the purposes of the Tax Act in Canadian dollars using the appropriate exchange rates determined in accordance with the detailed rules in the Tax Act in that regard. The amount of income, gains and losses realized by the First Asset ETF may be affected by fluctuations in the value of foreign currencies relative to the Canadian dollar. Gains or losses in respect of currency hedges entered into in respect of amounts invested in the portfolio of the First Asset ETF will constitute capital gains and capital losses to the First Asset ETF if the securities in the First Asset ETF’s portfolio are capital property to the First Asset ETF and provided there is sufficient linkage.

The Tax Act contains rules (the “**DFA Rules**”) that target certain financial arrangements (described in the DFA Rules as “derivative forward agreements”) that seek to reduce tax by converting, through the use of derivative contracts, the return on an investment that would have the character of ordinary income to capital gains. The DFA Rules are broad in scope and could apply to other agreements or transactions. If the DFA Rules were to apply in respect of derivatives to be utilized by the First Asset ETF, gains realized in respect of the property underlying such derivatives could be treated as ordinary income rather than capital gains.

The First Asset ETF may derive income or gains from investments in countries other than Canada, and as a result, may be liable to pay income or profits tax to such countries. To the extent that such foreign tax paid by the First Asset ETF exceeds 15% of the amount included in the First Asset ETF’s income from such investments, such excess may generally be deducted by the First Asset ETF in computing its net income for the purposes of the Tax Act. To the extent that such foreign tax paid does not exceed 15% of such amount and has not been deducted in computing the First Asset ETF’s income, the First Asset ETF may designate in respect of a Holder a portion of its foreign source income that can reasonably be considered to be part of the First Asset ETF’s income distributed to such Holder so that such income and a portion of the foreign tax paid by the First Asset ETF may be regarded as foreign source income of, and foreign tax paid by, the Holder for the purposes of the foreign tax credit provisions of the Tax Act.

To the extent the First Asset ETF holds trust units issued by a trust resident in Canada that is not at any time in the relevant taxation year a “SIFT trust” and held as capital property for purposes of the Tax Act, the First Asset ETF

will be required to include in the calculation of its income for a taxation year the net income, including net taxable capital gains, paid or payable to the First Asset ETF by such trust in the calendar year in which that taxation year ends, notwithstanding that certain of such amounts may be reinvested in additional units of the trust. Provided that appropriate designations are made by such trust, net taxable capital gains realized by the trust, foreign source income of the trust and taxable dividends from taxable Canadian corporations received by the trust that are paid or payable by the trust to the First Asset ETF will effectively retain their character in the hands of the First Asset ETF. The First Asset ETF will be required to reduce the adjusted cost base of units of such trust by any amount paid or payable by the trust to the First Asset ETF except to the extent that the amount was included in calculating the income of the First Asset ETF or was the First Asset ETF's share of the non-taxable portion of capital gains of the trust, the taxable portion of which was designated in respect of the First Asset ETF. If the adjusted cost base to the First Asset ETF of such units becomes a negative amount at any time in a taxation year of the First Asset ETF, that negative amount will be deemed to be a capital gain realized by the First Asset ETF in that taxation year and the First Asset ETF's adjusted cost base of such units will be increased by the amount of such deemed capital gain to zero.

Each issuer in the First Asset ETF's portfolio that is a "SIFT trust" (which will generally include income trusts, other than certain real estate investment trusts, the units of which are listed or traded on a stock exchange or other public market) will be subject to a special tax in respect of (i) income from business carried on in Canada, and (ii) certain income and capital gains in respect of "non-portfolio properties" (collectively, "**Non-Portfolio Income**"). Non-Portfolio Income that is distributed by a SIFT trust to its unitholders will be taxed at a rate that is equivalent to the federal general corporate tax rate plus a prescribed amount on account of provincial tax. Non-Portfolio Income that becomes payable by an issuer that is a SIFT trust will generally be taxed as though it were a taxable dividend from a taxable Canadian corporation and will be deemed to be an "eligible dividend" eligible for the enhanced gross-up and tax credit rules.

The First Asset ETF is entitled to deduct an amount equal to the reasonable expenses that it incurs in the course of issuing Units. Such issue expenses paid by the First Asset ETF and not reimbursed are deductible by the First Asset ETF ratably over a five-year period subject to reduction in any taxation year which is less than 365 days. In computing its income under the Tax Act, the First Asset ETF may deduct reasonable administrative and other expenses incurred to earn income.

Losses incurred by the First Asset ETF in a taxation year cannot be allocated to Holders, but may be deducted by the First Asset ETF in future years in accordance with the Tax Act.

Taxation of Holders

A Holder will generally be required to include in computing income for a particular taxation year of the Holder such portion of the net income of the First Asset ETF, including the taxable portion of any net realized capital gains, as is paid or becomes payable to the Holder in that particular taxation year (whether in cash or in Units, whether such amount is automatically reinvested in additional Units pursuant to the Reinvestment Plan or whether as a Management Fee Distribution). Amounts paid or payable by the First Asset ETF to a Holder after December 15 and before the end of the calendar year are deemed to have been paid or become payable to the Holder on December 15.

Under the Tax Act, the First Asset ETF is permitted to deduct in computing its income for a taxation year an amount that is less than the amount of its distributions of income for the year, to the extent necessary to enable the First Asset ETF to use, in that taxation year, losses from prior years without affecting the ability of the First Asset ETF to distribute its income annually. In such circumstances, the amount distributed to a Holder but not deducted by the First Asset ETF will not be included in the Holder's income. However, the adjusted cost base of a Holder's Units will be reduced by such amount. The non-taxable portion of the First Asset ETF's net realized capital gains for a taxation year, the taxable portion of which was designated in respect of a Holder in the calendar year in which that taxation year ends, that is paid or becomes payable to the Holder in the calendar year in which that taxation year ends will not be included in computing the Holder's income for the year. Any other amount in excess of a Holder's share of the net income of the First Asset ETF for a taxation year that is paid or becomes payable to the Holder in the calendar year in which that taxation year ends (i.e. returns of capital) will not generally be included in the Holder's income for the year, but will reduce the adjusted cost base of the Holder's Units. To the extent that the adjusted cost base of a Unit to a Holder would otherwise be a negative amount, the negative amount will be deemed

to be a capital gain and the adjusted cost base of the Unit to the Holder will be increased by the amount of such deemed capital gain to zero.

Provided that appropriate designations are made by the First Asset ETF, such portion of the net realized taxable capital gains of the First Asset ETF, the taxable dividends received or deemed to be received by the First Asset ETF on shares of taxable Canadian corporations and foreign source income as is paid or becomes payable to a Holder will effectively retain its character and be treated as such in the hands of the Holder for purposes of the Tax Act. To the extent that amounts are designated as taxable dividends from taxable Canadian corporations, the gross-up and dividend tax credit rules will apply.

Any loss of the First Asset ETF for purposes of the Tax Act cannot be allocated to, and cannot be treated as a loss of, a Holder.

On the disposition or deemed disposition of a Unit, including on a redemption, a Holder will realize a capital gain (or capital loss) to the extent that the Holder's proceeds of disposition (which do not include any amount of capital gains payable by the First Asset ETF to the Holder which represents capital gains realized by the First Asset ETF in connection with dispositions to fund the redemption), net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of the Unit. For the purpose of determining the adjusted cost base of a Holder's Units of a particular class of the First Asset ETF, when additional Units of that class of the First Asset ETF are acquired by the Holder (pursuant to the Reinvestment Plan or otherwise), the cost of the newly acquired Units of that class of the First Asset ETF will be averaged with the adjusted cost base of all Units of the same class of the First Asset ETF owned by the Holder as capital property immediately before that time. For this purpose, the cost of Units that have been issued on a distribution will generally be equal to the amount of the distribution. A consolidation of Units following a distribution paid in the form of additional Units will not be regarded as a disposition of Units and will not affect the aggregate adjusted cost base to a Holder.

Based on the Manager's understanding of the current published administrative policies and assessing practices of the CRA, a conversion of US\$ Units into Common Units or a conversion of Common Units into US\$ Units will likely constitute a disposition of the Units being converted. The redemption of any fraction of a Unit will result in a capital gain (or capital loss) for the redeeming Holder.

In the case of an exchange of Units for a Basket of Securities, a Holder's proceeds of disposition of Units would generally be equal to the aggregate of the fair market value of the distributed property and the amount of any cash received, less any capital gain realized by the First Asset ETF on the disposition of such distributed property. The cost to a Holder of any property received from the First Asset ETF upon the exchange will generally be equal to the fair market value of such property at the time of the distribution, less any amount that is deductible as interest accrued on such property to the date of distribution and not yet due. In the case of an exchange of Units for a Basket of Securities, the investor may receive securities that may or may not be qualified investments under the Tax Act for Plans. If such securities are not qualified investments for Plans, such Plans (and, in the case of certain Plans, the annuitants, beneficiaries or subscribers thereunder or holders thereof) may be subject to adverse tax consequences. Investors should consult their own tax counsel for advice on whether or not such securities would be qualified investments for Plans.

Pursuant to the Declaration of Trust, the First Asset ETF may allocate and designate as payable any capital gains realized by the First Asset ETF as a result of any disposition of property of the First Asset ETF undertaken to permit or facilitate the redemption or exchange of Units to a Holder whose Units are being redeemed or exchanged. Any such allocations and designations will reduce the redemption price otherwise payable to the Holder and therefore the Holder's proceeds of disposition.

In general, one-half of any capital gain (a "**taxable capital gain**") realized by a Holder on the disposition of Units or a taxable capital gain designated by the First Asset ETF in respect of the Holder in a taxation year of the Holder will be included in computing the Holder's income for that year and one-half of any capital loss (an "**allowable capital loss**") realized by the Holder in a taxation year of the Holder must be deducted from taxable capital gains realized by the Holder in the taxation year or designated by the First Asset ETF in respect of the Holder in the taxation year in accordance with the detailed provisions of the Tax Act. Allowable capital losses for a taxation year in excess of taxable capital gains for that taxation year may be carried back and deducted in any of the three preceding taxation

years or carried forward and deducted in any subsequent taxation year against taxable capital gains in accordance with the provisions of the Tax Act.

Each Holder who pays for Units by delivering a Basket of Securities will be disposing of securities in exchange for Units. Assuming that such securities are held by the Holder as capital property for purposes of the Tax Act, the Holder will generally realize a capital gain (or a capital loss) in the taxation year of the Holder in which the disposition of such securities takes place to the extent that the proceeds of disposition for such securities, net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of such securities to the Holder. For this purpose, the proceeds of disposition to the Holder of securities disposed of will equal the aggregate of the fair market value of the Units received for the securities. The cost to a Holder of Units acquired in exchange for a Basket of Securities and cash (if any) will be equal to the aggregate of the cash paid (if any) plus the fair market value of the securities disposed of in exchange for Units at the time of disposition, which sum would generally be equal to or would approximate the fair market value of the Units received as consideration in exchange for a Basket of Securities and cash (if any).

A Holder will be required to compute all amounts, including the adjusted cost base of Units and proceeds of disposition, in Canadian dollars in accordance with the detailed rules in the Tax Act.

Amounts designated by the First Asset ETF to a Holder as taxable capital gains, or dividends from taxable Canadian corporations, and taxable capital gains realized on the disposition of Units, may increase the Holder's liability for alternative minimum tax.

Taxation of Registered Plans

Amounts of income and capital gains included in a Plan's income are generally not taxable under Part I of the Tax Act provided the Units are "qualified investments" for the Plan for the purposes of the Tax Act.

Holders should consult with their own advisors regarding the tax implications of establishing, amending, terminating or withdrawing amounts from a Plan.

Notwithstanding the foregoing, the holder of a TFSA or RDSP, the annuitant of an RRSP or RRIF, or the subscriber of an RESP will be subject to a penalty tax in respect of Units held by such Plan, if such Units are a "prohibited investment" for such Plan for the purposes of the Tax Act. The Units of the First Asset ETF will not be a "prohibited investment" for a trust governed by such a Plan unless the holder of the TFSA or RDSP, the annuitant of the RRSP or RRIF or the subscriber of the RESP, as applicable, (i) does not deal at arm's length with the First Asset ETF for purposes of the Tax Act, or (ii) has a "significant interest" as defined in the Tax Act in the First Asset ETF. Generally, a holder, annuitant or subscriber, as the case may be, will not have a significant interest in the First Asset ETF unless the holder, annuitant or subscriber, as the case may be, owns interests as a beneficiary under the First Asset ETF that have a fair market value of 10% or more of the fair market value of the interests of all beneficiaries under the First Asset ETF, either alone or together with persons and partnerships with which the holder, annuitant or subscriber, as the case may be, does not deal at arm's length. In addition, the Units will not be a "prohibited investment" if such Units are "excluded property" as defined in the Tax Act for a trust governed by a TFSA, RDSP, RRSP, RRIF or RESP.

Holders, annuitants or subscribers should consult their own tax advisors with respect to whether Units would be prohibited investments, including with respect to whether such Units would be excluded property.

Tax Implications of the First Asset ETF's Distribution Policy

The net asset value per Unit will, in part, reflect any income and gains of the First Asset ETF that have been accrued or earned or been realized, but have not been made payable at the time Units were acquired. Accordingly, a Holder who acquires Units, including on a reinvestment of distributions or a distribution of Units, may become taxable on the Holder's share of such income and gains of the First Asset ETF. In particular, an investor who acquires Units at any time in the year but prior to a distribution being paid or made payable will have to pay tax on the entire distribution (to the extent it is a taxable distribution) notwithstanding that such amounts may have been reflected in

the price paid by the Holder for the Units. Further, where a Holder acquires Units in a calendar year after December 15 of such year, such Holder may become taxable on income earned or capital gains realized in the taxation year ending on December 15 of such calendar year but that had not been made payable before the Units were acquired.

ORGANIZATION AND MANAGEMENT DETAILS OF THE FIRST ASSET ETF

Manager

First Asset, a registered portfolio manager and investment fund manager, is the promoter, trustee and manager of the First Asset ETF and its principal office is at 2 Queen Street East, Suite 1200, Toronto, Ontario, M5C 3G7. The Manager is a subsidiary of CI Financial Corp. (TSX:CIX). The Manager will perform or arrange for the performance of management services for the First Asset ETF, will be responsible for the administration of the First Asset ETF. The Manager will be entitled to receive fees as compensation for management services rendered to the First Asset ETF.

Duties and Services to be Provided by the Manager

Pursuant to the Declaration of Trust, the Manager provides and arranges for the provision of required administrative services to the First Asset ETF. The Manager will provide office facilities and personnel to carry out these services, if not otherwise furnished by any other service provider to the First Asset ETF. The Manager will also monitor the investment strategy of the First Asset ETF to ensure that it complies with its investment objective, investment strategies and investment restrictions and practices.

The Manager has appointed Onex Credit Partners, LLC to be the portfolio manager of the First Asset ETF. The Portfolio Manager will be remunerated by the Manager out of the Management Fee.

No manager of the First Asset ETF shall be a person who (i) is not a resident of Canada for purposes of the Tax Act, or (ii) does not agree to carry out its functions of managing the First Asset ETF in Canada.

Pursuant to the Declaration of Trust, the Manager has full authority and responsibility to manage and direct the business and affairs of the First Asset ETF, to make all decisions regarding the business of the First Asset ETF and to bind the First Asset ETF. The Manager may delegate certain of its powers to third parties where, in the discretion of the Manager, it would be in the best interests of the First Asset ETF to do so.

The Manager is required to exercise its powers and discharge its duties honestly, in good faith and in the best interests of the Unitholders, and to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. The Declaration of Trust provides that the Manager will not be liable to the First Asset ETF or to any Unitholder or any other person for any loss or damage relating to any matter regarding the First Asset ETF, including any loss or diminution of value of the assets of the First Asset ETF if it has satisfied its standard of care set forth above.

The Manager and each of its directors, officers, employees and agents may be indemnified out of the assets of the First Asset ETF from and against all claims whatsoever, including costs, charges and expenses in connection therewith, brought, commenced or prosecuted against it for or in respect of any act, deed, matter or thing whatsoever made, done or omitted in or in relation to the execution of its duties to the First Asset ETF as long as the person acted honestly and in good faith with a view to the best interests of the First Asset ETF.

The Manager may resign upon 90 days' prior written notice to the Trustee or upon such lesser notice period as the Trustee may accept. The Manager may also be removed by the Trustee on at least 90 days' written notice to the Manager. The Trustee shall make every effort to select and appoint a successor manager prior to the effective date of the Manager's resignation.

The Manager is entitled to fees for its services as manager under the Declaration of Trust as described under "Fees and Expenses" and will be reimbursed for all reasonable costs and expenses incurred by the Manager on behalf of the First Asset ETF. The Manager may, in its discretion, terminate the First Asset ETF without the approval of

Unitholders if, in its opinion, it is no longer economically feasible to continue the First Asset ETF and/or it would otherwise be in the best interests of Unitholders to terminate the First Asset ETF.

The administration and management services of the Manager under the Declaration of Trust are not exclusive and nothing in the Declaration of Trust prevents the Manager from providing similar administrative and management services to other investment funds and other clients (whether or not their investment objectives and policies are similar to those of the First Asset ETF) or from engaging in other activities.

Directors and Executive Officers of the Manager

The name, municipality of residence, position and principal occupation of each of the directors and executive officers of the Manager are as follows:

<u><i>Name and Municipality of Residence</i></u>	<u><i>Date Individual became a Director</i></u>	<u><i>Position with the Manager</i></u>	<u><i>Principal Occupation</i></u>
ROHIT D. MEHTA Toronto, Ontario	May 1, 2017	Director and President (acting as Chief Executive Officer)	President, First Asset (since May 2017); Executive Vice-President, CI Financial Corp. (since December 2017); and Executive Vice-President, Distribution and Strategy, First Asset (since October 2009)
DOUGLAS J. JAMIESON Toronto, Ontario	November 30, 2015	Director and Chief Financial Officer	Chief Financial Officer, First Asset (since May 2017); Executive Vice-President and Chief Financial Officer, CI Financial Corp. (since 2008) and CI Investments Inc. (since 1995)
EDWARD KELTERBORN Toronto, Ontario	May 1, 2017	Director	Senior Vice-President and General Counsel, CI Investments Inc. (since September 2016); Senior Vice-President, Legal and Operations, First Asset (July 2012 – September 2016)
Z. EDWARD AKKAWI Toronto, Ontario	N/A	Chief Operating Officer, General Counsel and Corporate Secretary	Chief Operating Officer, General Counsel and Corporate Secretary, First Asset (since 2000)

<u><i>Name and Municipality of Residence</i></u>	<u><i>Date Individual became a Director</i></u>	<u><i>Position with the Manager</i></u>	<u><i>Principal Occupation</i></u>
SHERYL J. CHIDDENTON Campbellville, Ontario	N/A	Chief Compliance Officer	Chief Compliance Officer, First Asset (since 2013); Chief Compliance Officer and Vice-President, Compliance & Investment Services, Creststreet Asset Management Limited (2001-2012)

Where a person has held multiple positions within a company, the above table generally sets out the current or most recently-held position or positions held at that company, while the start date generally refers to the date of the first position held at that company or the first of the listed positions held by the person at that company. Each director will hold his position until the next annual general meeting of the Manager at which time he may be re-elected. All companies listed above are or were principally engaged in the business of investment fund management.

Portfolio Manager

The portfolio manager of the First Asset ETF is Onex Credit Partners, LLC. (“**Onex Credit**” or the “**Portfolio Manager**”). The head office of the Onex Credit is at 910 Sylvan Avenue, Englewood Cliffs, New Jersey 07632, U.S.A.

Onex Corporation (“**Onex**”) indirectly owns approximately 82% of the economic interest in Onex Credit. Onex is one of the oldest and most well-respected private equity firms, with offices in Toronto, New York and London. Through its Onex Partners and ONCAP private equity funds, Onex acquires and builds high-quality businesses in partnership with talented management teams. At Onex Credit, Onex manages and invests in leveraged loans, collateralized loan obligations and other credit securities. At September 30, 2017, Onex had approximately U.S. \$30 billion of assets under management, including U.S. \$6.7 billion of Onex capital, in private equity and credit securities. Onex invests its capital through its two investing platforms and is the largest limited partner in each of its private equity funds. At September 30, 2017, Onex businesses had assets of U.S. \$45 billion, generated annual revenues of U.S. \$30 billion and employed approximately 161,000 people worldwide. Onex shares trade on the Toronto Stock Exchange under the stock symbol OCX. For more information on Onex, visit its website at www.onex.com. The company's security filings can also be accessed at www.sedar.com. As of September 30, 2017, Onex Credit had approximately \$8.5 billion in assets under management.

The following are the officers of the Portfolio Manager who are principally responsible for the portfolio management of the First Asset ETF, including the name and municipality of residence of each of the directors, applicable officers and senior management of the Portfolio Manager:

<u><i>Name and Municipality of Residence</i></u>	<u><i>Position with Onex Credit</i></u>	<u><i>Principal Occupation</i></u>
MICHAEL GELBLAT	Chief Executive Officer, Chief Investment Officer and Director	Same
PAUL MARHAN	Portfolio Manager	Same
PAUL TRAVERS	Portfolio Manager	Same

The following is a brief description of the background of the individuals listed above:

Michael Gelblat. Mr. Gelblat is Chief Executive Officer, Chief Investment Officer, Director and member of the Management and Investment Committees of Onex Credit. He oversees all activities of Onex Credit. Mr. Gelblat has 32 years of experience. Before co-founding Onex Credit, Mr. Gelblat accumulated over a decade of experience as a portfolio manager and securities analyst for the event-driven and distressed debt alternative strategies of John A. Levin Co., Inc., as a principal of Redwood Capital Management and as a director of SG Cowen, where he managed a proprietary trading group focused on distressed securities. Mr. Gelblat has also held positions with Société Générale, European American Bank, ABN AMRO Bank N.V., Standard Chartered Bank and BancBoston Financial Company. Mr. Gelblat earned his B.S. from the State University of New York at Albany.

Paul Marhan. Mr. Marhan is a Portfolio Manager and member of the Investment Committee of Onex Credit. Mr. Marhan has 28 years of experience. Before joining Onex Credit, Mr. Marhan was a Senior Managing Director in Bear Stearns & Co.'s Distressed/Special Situations Group where he was responsible for the identification, analysis and management of distressed opportunities in various sectors. He was also Managing Director and Senior Consultant at Kahn Consulting where he worked on restructuring and crisis management engagements. Mr. Marhan began his career at Ernst & Whinney. Mr. Marhan earned his B.A. from James Madison University, his M.B.A. from New York University's Stern School of Business and has an inactive Certified Public Accountant license.

Paul Travers. Mr. Travers is a Portfolio Manager and a member of the Investment Committee of Onex Credit, with a focus on the firm's par and long-only loan strategies. Mr. Travers has 35 years of experience. Before joining Onex Credit, he was a Principal at DiMaio Ahmad Capital, where he built and managed the firm's \$2.5 billion CLO business. Previously, he worked at Credit Agricole Indosuez, where as a Managing Director he managed the bank's \$2.3 billion CLO/CBO business, and at Merrill Lynch Asset Management, where, as Portfolio Manager and Managing Director, he managed the firm's floating rate mutual funds with assets over \$10 billion. He also held positions at Bear Stearns & Co., BHF Bank, BAI Banking Corp and Chase Manhattan Bank. Mr. Travers earned his B.A. in Economics from State University of New York at Albany and his M.B.A. from Fordham University.

Investment decisions by the above-named portfolio managers are not subject to oversight, approval or ratification of a committee.

Details of the Portfolio Management Sub-Advisory Agreement

The Portfolio Manager provides investment advisory and portfolio management services to the First Asset ETF with respect to the portfolio pursuant to a portfolio management sub-advisory agreement (the "**Portfolio Management Sub-Advisory Agreement**") between the First Asset ETF, the Manager and the Portfolio Manager. Decisions regarding the purchase and sale of portfolio securities and the execution of transactions for the portfolio are made by the Portfolio Manager, in accordance with and subject to the terms of the Portfolio Management Sub-Advisory Agreement. Subject to the terms of the Portfolio Management Sub-Advisory Agreement, the Portfolio Manager implements the investment strategies of the First Asset ETF's portfolio on an ongoing basis.

Under the Portfolio Management Sub-Advisory Agreement, the Portfolio Manager covenants to act at all times on a basis which is fair and reasonable to the First Asset ETF, to act honestly and in good faith with a view to the best interests of the First Asset ETF and, in connection therewith, to exercise the degree of care, diligence and skill that a reasonably prudent portfolio manager would exercise in comparable circumstances. The Portfolio Management Sub-Advisory Agreement provides that neither the Portfolio Manager nor any of its directors, officers or employees will be liable in any way for any default, failure or defect of the assets of the First Asset ETF if the Portfolio Manager has satisfied its duties and the standard of care, diligence and skill set out above. The Portfolio Manager gives no warranty as to the performance or profitability of the First Asset ETF, nor any guaranty that the investment objectives, expectations or targets of the First Asset ETF will be achieved. Pursuant to the Portfolio Management Sub-Advisory Agreement, the Manager and Trustee, on behalf of the First Asset ETF, agrees to indemnify the Portfolio Manager, its directors, officers and employees and save them harmless, including out of the property and assets of the First Asset ETF, in respect of all losses (other than loss of profits), expenses, costs, claims, actions, damages or liabilities (including legal costs on a solicitor-and-client basis) whatsoever which they may suffer or incur as a result of the wilful misconduct, fraud, gross negligence, breach or reckless disregard of the duties of the

Manager or the Trustee under the Portfolio Management Sub-Advisory Agreement or their respective directors, officers or employees or a material breach of the Trustee and/or the Manager's obligations under the Portfolio Management Sub-Advisory Agreement. The Trustee, on behalf of the First Asset ETF, further agrees to indemnify the Portfolio Manager, each of its directors, officers, employees, shareholders and agents for all liabilities, costs and expenses incurred in connection with any action, suit or proceeding that is proposed or commenced, or other claim that is made against, the Portfolio Manager, or any of its directors, officers, employees, shareholders or agents, in the exercise of its duties as Portfolio Manager, except those resulting from the Portfolio Manager's wilful misconduct, fraud, gross negligence or breach or reckless disregard of the duties or standards of care, diligence and skill of the Portfolio Manager under the Portfolio Management Sub-Advisory Agreement or its directors, officers or employees or a material breach of the Portfolio Manager's obligations under the Portfolio Management Sub-Advisory Agreement. Pursuant to the Portfolio Management Sub-Advisory Agreement, the Portfolio Manager agrees to indemnify the Manager and the Trustee, and their respective directors, officers and employees and save them harmless in respect of all direct losses (other than loss of profits), expenses, costs, claims, actions, damages or liabilities (including legal costs on a solicitor-and-client basis) whatsoever which they may suffer or incur as a result of the wilful misconduct, fraud, gross negligence or breach or reckless disregard of the duties or standards of care, diligence and skill of the Portfolio Manager under the Portfolio Management Sub-Advisory Agreement or its directors, officers or employees or a material breach of the Portfolio Manager's obligations under the Portfolio Management Sub-Advisory Agreement.

The Portfolio Management Sub-Advisory Agreement, unless terminated as described below, will continue until the earlier of (i) the effective date of the termination of the Manager as the manager of the First Asset ETF, (ii) the effective date of the termination of the Trustee as the trustee of the First Asset ETF, (iii) the effective date of dissolution or winding-up of the First Asset ETF, and (iv) the effective date of the amalgamation or merger of the First Asset ETF with another entity. The Portfolio Manager may terminate the Portfolio Management Sub-Advisory Agreement, without payment of any penalty, (i) upon 180 days' written notice to the Manager and the Trustee, (ii) if either the Manager or the Trustee is in material breach of the provisions of the Portfolio Management Sub-Advisory Agreement and such breach has not been cured within 30 Business Days after notice thereof has been given to the party in breach, unless such material breach cannot be cured within 30 Business Days' notice and the Manager or the Trustee commences the cure within the 30 Business Day period and completes the cure within 45 days of such notice, (iii) if there is a material change in the investment guidelines which the Portfolio Manager has not agreed, other than a change to the investment restrictions required to be made pursuant to applicable law; (iv) if there is a dissolution and commencement of winding-up of the First Asset ETF, (v) if the First Asset ETF becomes bankrupt or insolvent or makes a general assignment for the benefit of its creditors or a receiver is appointed in respect of the First Asset ETF or a substantial portion of its assets, (vi) if the assets of the First Asset ETF become subject to seizure or confiscation by any public or governmental organization; or (vii) if the Manager has acted with wilful misconduct, fraud or gross negligence, or has breached or recklessly disregarded its duties and standard of care, diligence and skill prescribed by the Declaration of Trust, and as a result of such action there has been a material adverse effect on the Portfolio Manager.

First Asset may terminate the Portfolio Management Sub-Advisory Agreement, without payment of any penalty, (i) upon 180 days' written notice to the Portfolio Manager, (ii) if the Portfolio Manager commits a material breach which breach has not been cured within 30 Business Days after notice thereof has been given to the Portfolio Manager by the Manager or Trustee, unless such material breach cannot be cured within 30 Business Days' notice and the Portfolio Manager commences the cure within the 30 Business Day period and completes the cure within 45 days of such notice, (iii) if there is a dissolution and commencement of winding-up of the Portfolio Manager, (iv) if the Portfolio Manager becomes bankrupt or insolvent or makes a general assignment for the benefit of its creditors or a receiver is appointed in respect of the Portfolio Manager or a substantial portion of its assets, (v) if the assets of the Portfolio Manager have become subject to seizure or confiscation by any public or governmental organization, (vi) if the Portfolio Manager has lost any registration, licence or other authorization required by it or is otherwise deemed unable to perform its obligations hereunder; or (vii) if the Portfolio Manager has acted with wilful misconduct, fraud or gross negligence, or has breached or recklessly disregarded its duties and standard of care, diligence and skill prescribed by the Portfolio Management Sub-Advisory Agreement, and as a result of such action there has been a material adverse effect on the First Asset ETF.

In the event that the Portfolio Management Sub-Advisory Agreement is terminated as provided above, First Asset shall promptly appoint a successor portfolio manager to carry out the activities of the portfolio manager of the First Asset ETF.

The Portfolio Manager's fees are paid out of the Management Fee paid to the Manager.

Designated Brokers

The Manager, on behalf of the First Asset ETF, has entered or will enter into a Designated Broker Agreement with a Designated Broker pursuant to which the Designated Broker has agreed to perform certain duties relating to the First Asset ETF including, without limitation: (i) to subscribe for a sufficient number of Units to satisfy the TSX's original listing requirements; (ii) to subscribe for Units on an ongoing basis, and (iii) to post a liquid two way market for the trading of Units on the TSX. Payment for Units must be made by the Designated Broker, and those Units will be issued, by no later than the second Trading Day after the subscription notice has been delivered.

The Designated Broker of the First Asset ETF may terminate the Designated Broker Agreement at any time by giving the Manager at least six months' prior written notice of such termination. The Manager may terminate the Designated Broker Agreement at any time, without prior notice, by sending a written notice of termination to the Designated Broker.

Units do not represent an interest or an obligation of such Designated Broker or Dealers or any affiliate thereof and a Unitholder of the First Asset ETF will not have any recourse against any such parties in respect of amounts payable by the First Asset ETF to such Designated Broker or Dealers.

Brokerage Arrangements

The Manager has established policies and procedures for selecting markets, brokers and investment dealers for the execution of transactions in respect of the First Asset ETF's investments and for seeking to obtain the best price and execution for those transactions. The First Asset ETF is responsible to pay any commissions negotiated in relation to these brokerage arrangements. The Manager will evaluate and review on an ongoing and periodic basis, and not less than annually, each broker's ability to deliver best execution on an aggregate basis over time.

The Manager's allocation of brokerage business for effecting portfolio transactions on behalf of the First Asset ETF is based on decisions made by the portfolio managers, analysts and traders of the Manager and will only be made in compliance with applicable law and in accordance with the Manager's policies and procedures. The Manager does not allocate brokerage business to affiliates. The allocation of business among brokers is based on a number of factors including, but not limited to, the quality of service and the terms offered for specific transactions including price, volume, speed and certainty of execution, the competitiveness of commission terms and prices, the range of brokerage services provided, the quality of research provided, total transaction cost, the broker's capital strength and stability and the Manager's knowledge of any actual or apparent operational problems of the brokers. These same factors are used by the Manager in making a good-faith determination as to the reasonableness of the commission rate and such other benefits that may be derived by the First Asset ETF.

In addition, the Manager may, consistent with its duty to seek best price and execution, utilize the services of soft dollar brokerage firms. A portion of the commissions generated through the use of soft dollar brokerage accounts are used to pay for order execution and research goods and services which may include, but are not limited to, order management systems, trading software and raw market data, custody, clearance and settlement services, databases, analytical software and research reports. The order execution and research goods and services may be provided directly from the soft dollar brokerage firm, or indirectly from a third party.

Since the date of the First Asset ETF's last prospectus, certain brokerage transactions have been directed to soft dollar brokers in return for the provision of market data feeds and research reports. None of these services were provided by an affiliated entity.

The name of any broker or third party that provides research and/or order execution goods and services through a soft dollar arrangement with the Manager will be provided upon request by contacting the Manager at 1-877-642-1289 or at info@firstasset.com.

Conflicts of Interest

The Manager, the Portfolio Manager and their affiliates are engaged in a wide range of investment management, investment advisory and other business activities. The services provided by the Manager under the Declaration of Trust and the Portfolio Manager under the Portfolio Management Sub-Advisory Agreement are not exclusive and nothing in the agreement prevents the Manager, the Portfolio Manager or any of their affiliates from providing similar services to other investment funds or clients (whether or not their investment objectives, strategies and policies are similar to those of the First Asset ETF) or from engaging in other activities. The Manager and Portfolio Manager therefore will have conflicts of interest in allocating management time, services and functions to the First Asset ETF and the other persons for which they provide similar services. The Portfolio Manager's investment decisions for the First Asset ETF will be made independently of those made on behalf of its other clients or for its own investments. On occasion, however, the Portfolio Manager may make the same investment for the First Asset ETF and for one or more of its other clients. If the First Asset ETF and one or more of the other clients of the Portfolio Manager are engaged in the purchase or sale of the same security, the transactions will be effected pro rata based on assets under management or on some other basis that the Portfolio Manager determines is fair and equitable under the circumstances to all clients.

The Portfolio Manager may trade and make investments for its own accounts, and the Portfolio Manager currently trades and manages and will continue to trade and manage accounts other than the First Asset ETF's accounts utilizing trading and investment strategies which are the same as or different from the ones to be utilized in making investment decisions for the First Asset ETF. In addition, in proprietary trading and investment, the Portfolio Manager may take positions the same as, different than or opposite to those of the First Asset ETF. Furthermore, all of the positions held by accounts owned, managed or controlled by the Manager will be aggregated for purposes of applying certain exchange position limits. As a result, the First Asset ETF may not be able to enter into or maintain certain positions if such positions, when added to the positions already held by the First Asset ETF and such other accounts, would exceed applicable limits.

The Portfolio Manager, its clients, its partners, its members, funds or other investment accounts managed by the Portfolio Manager or any of its affiliates, or their employees and their affiliates ("**Related Entities**") may engage in transactions with, provide services to, invest in, advise, sponsor and/or act as investment manager to investment vehicles and other persons or entities that may have similar structures and/or investment objectives and policies to those of the First Asset ETF and that may compete with the Fund for investment opportunities. The Manager and such Related Entities may receive fees or other benefits for these services or investments that are greater than the fees for its services to the First Asset ETF. This disparity in fee income may create potential conflicts of interest between the Portfolio Manager's obligations to the First Asset ETF and the Portfolio Manager's or such Related Entities' obligations to other persons for such services.

The Manager and Portfolio Manager may at times have interests that conflict with the interests of the Unitholders. Where the Manager, Portfolio Manager or their affiliates otherwise actually have, or perceive in the course of business that they are or may be in, a material conflict of interest position for purposes of NI 81-107, the matter will be referred to the IRC. The IRC will consider all matters referred to it and provide its recommendations to the Manager as soon as possible and otherwise act as required by NI 81-107.

In evaluating these conflicts of interest, potential investors should be aware that the Manager and Portfolio Manager each has a responsibility to the Unitholders to exercise good faith and fairness in all dealings affecting the First Asset ETF. Unitholders should be aware that the performance by the Manager and Portfolio Manager of their responsibilities to the First Asset ETF will be measured in accordance with (i) the provisions of the agreement by which the Manager and Portfolio Manager has been appointed to its position with the First Asset ETF; and (ii) applicable laws.

A registered dealer acts as a Designated Broker and one or more registered dealers may act as a Dealer and/or a market maker. These relationships may create actual or perceived conflicts of interest which investors should consider in relation to an investment in the First Asset ETF. In particular, by virtue of these relationships, these registered dealers may profit from the sale and trading of Units. The Designated Broker, as market maker of the First Asset ETF in the secondary market, may therefore have economic interests which differ from and may be adverse to those of Unitholders.

Any such registered dealer and its affiliates may, at present or in the future, engage in business with the First Asset ETF, the issuers of securities making up the investment portfolio of the First Asset ETF, or with the Manager or any funds sponsored by the Manager or its affiliates, including by making loans, entering into derivative transactions or providing advisory or agency services. In addition, the relationship between any such registered dealer and its affiliates, and the Manager and its affiliates may extend to other activities, such as being part of a distribution syndicate for other funds sponsored by the Manager or its affiliates.

No Designated Broker or Dealer has been involved in the preparation of this prospectus or has performed any review of the contents of this prospectus. The applicable Designated Broker and Dealers do not act as underwriters of the First Asset ETF in connection with the distribution of Units under this prospectus. Units do not represent an interest or an obligation of any Designated Broker, any Dealer or any affiliate thereof, and a Unitholder does not have any recourse against any such parties in respect of amounts payable by the First Asset ETF to the applicable Designated Broker or Dealers. The Canadian securities regulators have provided the First Asset ETF with a decision exempting the First Asset ETF from the requirement to include a certificate of any underwriter in the prospectus.

Independent Review Committee

NI 81-107 requires the First Asset ETF to establish an independent review committee to whom the Manager must refer conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintain records in respect of these matters and provide assistance to the IRC in carrying out its functions. The IRC will be required to conduct regular assessments and provide reports to the Manager and to Unitholders in respect of its functions.

The investment funds in the First Asset family all share the same IRC. The relationship with the IRC is administered by FA Administration Services Inc., an affiliate of First Asset, on behalf of all of the investment funds and their managers. The fees and expenses of the IRC are borne and shared by all of the investment funds in the First Asset family. Each investment fund is also responsible for all expenses associated with insuring and indemnifying the IRC members.

The members of the IRC are:

Douglas A.S. Mills, CPA, C.A. - Mr. Mills is the current Chair of the IRC. Mr. Mills brings over 40 years of experience in the finance and wealth management industry. He is Chairman of The Glencreggan Limited, a consulting firm engaged in corporate advisory and change implementation. Mr. Mills has played leading roles in the financial services industry including Chief Executive of a major Chartered Bank's Investment Management subsidiary and Vice-President of Barclays Bank Canada and Barclays PLC. Mr. Mills is a Chartered Professional Accountant, Chartered Accountant, sits on several boards and committees, and is an Executive-in-Residence at the Ivey School of Business.

Carl M. Solomon, JD - Mr. Solomon brings over 35 years of experience in the legal profession having been a partner and subsequently counsel to the law firm now known as Gowling Lafleur Henderson LLP until his retirement in 1999. More recently, Mr. Solomon has been involved in assisting numerous small and mid-sized companies to raise capital for their on-going business or buy-out needs.

John Reucassel, CFA - Since March 2014, Mr. Reucassel has been President of The International Group, a privately owned specialty chemicals manufacturer located in Toronto. Prior to this appointment, Mr. Reucassel worked at BMO Capital Markets for 16 years and was a top-ranked sell-side equity analyst covering the financial services industry, including banks, insurers, and asset managers. He was appointed to the Board of Governors of CI Investments Inc. in March 2015. Mr. Reucassel has a master's degree in economics from McGill University, earned a BA in economics from Queen's University and holds the Chartered Financial Analyst (CFA) designation.

The IRC will prepare a report, at least annually, of its activities for Unitholders which will be available on the First Asset ETF's website at www.firstasset.com, or at the Unitholder's request at no cost, by contacting the Manager at info@firstasset.com.

The members of the IRC are paid an annual fee for serving on the IRC of the investment funds in the First Asset family of investment funds. Each investment fund, including the First Asset ETF, is responsible for a portion of that fee which is allocated by the Manager among the various funds. The annual fee payable to each member of the IRC is as follows: Douglas Mills (\$57,200), Carl Solomon (\$40,000) and John Reucassel (\$40,000). Expenses incurred by the members of the IRC in connection with performing their duties are also the responsibility of the investment funds, including the First Asset ETF.

The Trustee

First Asset is also the trustee of the First Asset ETF pursuant to the Declaration of Trust. The Trustee may resign and be discharged from all further duties under the Declaration of Trust upon 90 days' prior written notice to the Manager or upon such lesser notice as the Manager may accept. No trustee of the First Asset ETF shall be a person who (i) is not a resident of Canada for the purposes of the Tax Act, or (ii) does not agree to carry out, or does not in fact carry out, its functions of managing the First Asset ETF in Canada, and exercise the main powers and discretions of the trustee of the First Asset ETF in Canada. The Manager shall make every effort to select and appoint a successor trustee prior to the effective date of the Trustee's resignation. If the Manager fails to appoint a successor trustee within 90 days after notice is given or a vacancy occurs, the Manager shall call a meeting of Unitholders within 60 days thereafter for the purpose of appointing a successor trustee. If there is no manager, five Unitholders may call a meeting of Unitholders within 31 days after notice is given or a vacancy occurs for the purpose of appointing a successor trustee. In each case, if, upon the expiry of a further 30 days, neither the Manager nor the Unitholders have appointed a successor trustee, the First Asset ETF shall be terminated and the property of the First Asset ETF shall be distributed in accordance with the terms of the Declaration of Trust.

The Trustee is required to exercise its powers and discharge its duties honestly, in good faith and in the best interests of the First Asset ETF, and to exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. The Declaration of Trust provides that the Trustee will not be liable in carrying out its duties under the Declaration of Trust as long as the Trustee has adhered to its standard of care set out above. In addition, the Declaration of Trust contains other customary provisions limiting the liability of the Trustee and indemnifying the Trustee in respect of certain liabilities incurred by it in carrying out its duties.

The Trustee will not receive any fees from the First Asset ETF but will be reimbursed for all expenses and liabilities that it properly incurs in carrying out activities on behalf of the First Asset ETF.

Custodian

The Custodian is the custodian of the First Asset ETF's assets pursuant to the Custodian Agreement. The Custodian is located in Toronto, Ontario. Pursuant to the Custodian Agreement, the Custodian is required to exercise its duties with the same degree of care, diligence and skill that a reasonably prudent person would exercise in the same circumstances, or, if higher, the degree of care, diligence and skill that the Custodian exercises in respect of its own property of a similar nature in its custody. Provided the Custodian has not breached its standard of care as set out in the Custodian Agreement, the Custodian shall not be responsible for the holding or control of any property of the First Asset ETF which is not directly held by the Custodian, including any property of the First Asset ETF that is loaned or pledged to a counterparty.

Under the Custodian Agreement, the Manager, for and on behalf of the First Asset ETF, shall pay fees to the Custodian at such rate as determined by the parties from time to time and shall reimburse the Custodian for all reasonable expenses and disbursements incurred in the performance of its duties under the Custodian Agreement. The First Asset ETF shall also indemnify the Custodian or any of its officers, directors, employees or agents for any loss, damage or expense, including reasonable counsel fees and expenses, arising in connection with the Custodian Agreement, except to the extent caused by a breach by the Custodian of its standard of care or a material breach of the Custodian Agreement. The Manager and the First Asset ETF will be indemnified in certain circumstances as set out in the Custodian Agreement. Either party may terminate the Custodian Agreement upon at least 90 days' written notice or immediately if the other party becomes insolvent, or makes an assignment for the benefit of creditors, or a petition in bankruptcy is filed by or against that party and is not discharged within 30 days, or proceedings for the appointment of a receiver for that party are commenced and not discontinued within 30 days.

Valuation Agent

The Manager has retained CIBC Mellon Global Securities Services Company to provide accounting and valuation services in respect of the First Asset ETF pursuant to the Fund Administration Agreement.

Auditors

Ernst & Young LLP is the auditor of the First Asset ETF. The office of the auditors is located at Ernst & Young Tower, 100 Adelaide Street West, P.O. Box 1, Toronto, Ontario, M5H 0B3 Canada.

Registrar and Transfer Agent

Computershare Trust Company of Canada, at its principal offices in Toronto, Ontario, is the Registrar and Transfer Agent for the First Asset ETF pursuant to a master registrar and transfer agency agreement entered into as of the date of the initial issuance of Units.

Securities Lending Agent

The Lending Agent is the lending agent for the First Asset ETF pursuant to the Securities Lending Agreement. The Lending Agent is located in New York, New York. The Manager and the Lending Agent may each terminate the Securities Lending Agreement upon fifteen (15) business days' written notice to the other at any time. The Lending Agent is not an affiliate of the Manager.

Under the Securities Lending Agreement, the collateral posted by a securities borrower to the First Asset ETF is required to have an aggregate value of not less than 102% of the market value of the loaned securities. In addition to the collateral held by the First Asset ETF, the First Asset ETF also benefits from a borrower default indemnity provided by the Lending Agent. The Lending Agent's indemnity provides for the replacement of a number of securities equal to the number of unreturned loaned securities.

Promoter

First Asset took the initiative in founding and organizing the First Asset ETF. Accordingly, First Asset is the promoter of the First Asset ETF within the meaning of securities legislation of certain provinces and territories of Canada.

Accounting and Reporting

The First Asset ETF's fiscal year is the calendar year or such other fiscal period permitted under the Tax Act as that First Asset ETF elects. The annual financial statements of the First Asset ETF shall be audited by its auditors in accordance with Canadian generally accepted auditing standards. The auditors will be asked to report on the fair presentation of the annual financial statements in accordance with IFRS. The Manager will arrange for the First Asset ETF's compliance with all applicable reporting and administrative requirements.

The Manager will keep, or arrange for the keeping of, adequate books and records reflecting the activities of First Asset ETF. A Unitholder or his or her duly authorized representative will have the right to examine the books and records of the First Asset ETF during normal business hours at the offices of the Manager or such other location as the Manager shall determine. Notwithstanding the foregoing, a Unitholder shall not have access to any information that, in the opinion of the Manager, should be kept confidential in the interests of the First Asset ETF.

CALCULATION OF NET ASSET VALUE

The NAV per Unit of a class of the First Asset ETF will be computed by adding up the cash, securities and other assets of the First Asset ETF allocated to the class pro rata, less the liabilities allocated to the class pro rata, and dividing the value of the net assets of that class by the total number of Units of that class that are outstanding. The NAV per Unit of each class of the First Asset ETF so determined will be adjusted to the nearest cent per Unit of that class and will remain in effect until the time as at which the next determination of the NAV per Unit of that class of

the First Asset ETF is made. The NAV per Unit of each class of the First Asset ETF will be calculated on each Valuation Day. The NAV per Unit of the US\$ Units will be calculated in U.S. dollars based on the prevailing exchange rate determined by the Manager from time to time.

Typically, the NAV per Unit will be calculated at its applicable Valuation Time. The NAV per Unit of each class of the First Asset ETF may be determined at an earlier Valuation Time if the TSX and/or the principal exchange for the securities held by the First Asset ETF closes earlier on that Valuation Day.

Valuation Policies and Procedures of the First Asset ETF

The Manager will use the following valuation procedures in determining the net asset value of the First Asset ETF on each Valuation Day:

1. The value of any cash on hand, on deposit or on call, bills and notes and accounts receivable, prepaid expenses, cash dividends to be received and interest accrued and not yet received, will be deemed to be the face amount thereof, unless the Manager determines that any such deposit, call loan, bill, note or account receivable is not worth the face amount thereof, in which event the value thereof will be deemed to be such value as the Manager determines, on such basis and in such manner as may be approved by the board of directors of the Manager to be the reasonable value thereof.
2. The value of any security, commodity or interest therein which is listed or dealt in upon a stock exchange will be determined by:
 - (a) in the case of securities which were traded on that Valuation Day, the last sale price of such securities as determined at the applicable Valuation Time; and
 - (b) in the case of securities not traded on that Valuation Day, at the “bid” price at the close of business on the Valuation Day and if sold short, at the “asked” price at the close of business on such day, or such other price estimated to be the true value thereof by the Manager on such basis and in such manner as may be approved of by the board of directors of the Manager, such price being between the closing asked and bid prices for the securities or interest therein as reported by any report in common use or authorized as official by a stock exchange.
3. Securities traded over the counter which are freely transferable are valued at the “bid” price at the close of business on such day if held long, and at the “asked” price at the close of business on such day if held short, unless included in the NASDAQ National Market System, in which case they are valued based upon their sales price (if such prices are available).
4. Long positions in clearing corporation options, options on futures, over-the-counter options, debt-like securities and listed warrants will be valued at the current market value thereof. Where a covered clearing corporation option, option on futures or over-the-counter option is written, the premium received shall be reflected as a deferred credit which shall be valued at an amount equal to the current market value of the clearing corporation option, option on futures or over-the-counter option that would have the effect of closing the position. Any difference resulting from any revaluation shall be treated as an unrealized gain or loss on investment. The deferred credit shall be added in arriving at the NAV of such instrument. The securities, if any, which are the subject of a written clearing corporation option or over-the-counter option shall be valued at the current market value. The value of a future contract or a swap or forward contract shall be the gain or loss with respect thereto that will be realized if, on that Valuation Day, the position in the futures contract, or the forward contract, as the case may be, were to be closed out unless “daily limits” are in effect, in which case fair value shall be based on the current market value of the underlying interest. Margin paid or deposited in respect of futures contracts and forward contracts shall be reflected as an account receivable and margin consisting of assets other than cash shall be noted as held as margin.
5. In the case of any security or property for which no price quotations are available as provided above, the value thereof will be determined from time to time by the Manager, where applicable, in accordance with

the principles described in paragraph 2(b) above, except that the Manager may use, for the purpose of determining the sale price or the ask and bid price of such security or interest, any public quotations in common use which may be available, or where such principles are not applicable, in such manner as may be approved of by the board of directors of the Manager.

6. The liabilities of the First Asset ETF will include:

- all bills, notes and accounts payable of which the First Asset ETF is an obligor;
- all brokerage expenses of the First Asset ETF;
- all Management Fees of the First Asset ETF;
- all contractual obligations of the First Asset ETF for the payment of money or property, including the amount of any unpaid distribution credited to Unitholders on or before that Valuation Day;
- all derivative liability from the written options of the First Asset ETF;
- all allowances of the First Asset ETF authorized or approved by the Manager for taxes (if any) or contingencies; and
- all other liabilities of the First Asset ETF of whatsoever kind and nature.

7. Each transaction of purchase or sale of a portfolio asset effected by the First Asset ETF shall be reflected by no later than the next time that the net asset value of the First Asset ETF and the net asset value per Unit of the First Asset ETF is calculated.

Prior to the calculation of the NAV of the First Asset ETF any non-Canadian currency assets and liabilities of the First Asset ETF will be translated into Canadian currency at the prevailing rate of exchange, as determined by the Manager, on the applicable Valuation Day.

In calculating the NAV of the First Asset ETF, the First Asset ETF will generally value its investments based on the market value of its investments at the time the NAV of the First Asset ETF is calculated. If no market value is available for an investment of the First Asset ETF or if the Manager determines that such value is inappropriate in the circumstances (i.e., when the value of an investment of the First Asset ETF has been materially changed by effects occurring after the market closes), the Manager will value such investments using methods that have generally been adopted by the marketplace. Fair valuing the investments of the First Asset ETF may be appropriate if: (i) market quotations do not accurately reflect the fair value of an investment; (ii) an investment's value has been materially affected by events occurring after the close of the exchange or market on which the investment is principally traded; (iii) a trading halt closes an exchange or market early; or (iv) other events result in an exchange or market delaying its normal close. The risk in fair valuing an investment of the First Asset ETF is that the value of the investment may be higher or lower than the price that the First Asset ETF may be able to realize if the investment had to be sold.

In determining the NAV of the First Asset ETF, Units of the First Asset ETF subscribed for will be deemed to be outstanding and an asset of the First Asset ETF as of the time a subscription for such Units is received by and accepted by the Manager. Units of the First Asset ETF that are being redeemed will only be deemed to be outstanding until (and not after) the close of business on the day on which such Units of the First Asset ETF are redeemed and the redemption proceeds thereafter, until paid, will be a liability of the First Asset ETF.

Reporting of Net Asset Value

Following the Valuation Time on the Valuation Day, the most recent net asset value or net asset value per Unit of the First Asset ETF will be made available to persons or companies, at no cost, by calling the Manager at 416-642-1289 or toll free 1-877-642-1289, or checking the First Asset ETF's website at www.firstasset.com.

ATTRIBUTES OF THE SECURITIES

Description of the Securities Distributed

The First Asset ETF is authorized to issue an unlimited number of redeemable, transferable Units of each of the Common Units and US\$ Units, each of which represents an undivided interest in the net assets of the First Asset ETF, pursuant to this prospectus.

The primary difference between the Common Units and the US\$ Units is that (i) the exposure in relation to the US\$ Units to currencies other than the Canadian dollar will not be hedged back to the Canadian dollar, and (ii) the US\$ Units will be denominated in US dollars whereas the Common Units will be denominated in Canadian dollars. The net asset value per Unit of each class will not be the same as a result of the different currency hedging strategy.

On December 16, 2004, the *Trust Beneficiaries' Liability Act, 2004* (Ontario) came into force. This statute provides that holders of units of a trust are not, as beneficiaries, liable for any default, obligation or liability of the trust if, when the default occurs or the liability arises: (i) the trust is a reporting issuer under the *Securities Act* (Ontario); and (ii) the trust is governed by the laws of Ontario. The First Asset ETF is a reporting issuer under the *Securities Act* (Ontario) and is governed by the laws of Ontario by virtue of the provisions of the Declaration of Trust.

Each Unit of a class of the First Asset ETF entitles the owner to one vote at meetings of Unitholders. Each Unit of a class of the First Asset ETF is entitled to participate equally with all other Units of the same class of the First Asset ETF with respect to all payments made to Unitholders of that class, other than Management Fee Distributions, including distributions of net income and net realized capital gains and, on liquidation, to participate equally in the net assets of the First Asset ETF remaining after satisfaction of any outstanding liabilities that are attributable to Units. Notwithstanding the foregoing, pursuant to the Declaration of Trust, the First Asset ETF may allocate and designate as payable any capital gains realized by the First Asset ETF as a result of any disposition of property of the First Asset ETF undertaken to permit or facilitate the redemption or exchange of Units of the First Asset ETF to a Unitholder whose Units of the First Asset ETF are being redeemed or exchanged. All Units will be fully paid, with no liability for future assessments, when issued and will not be transferable except by operation of law. Unitholders are entitled to require the First Asset ETF to redeem their Units as outlined under the heading "Exchange and Redemption of Units".

Exchange of Units for Baskets of Securities

Unitholders may exchange the applicable PNU (or an integral multiple thereof) of the First Asset ETF on any Trading Day for Baskets of Securities and/or cash, subject to the requirement that a minimum PNU be exchanged. See "Exchange and Redemption of Units".

Redemptions of Units for Cash

On any Trading Day, Unitholders may redeem Units for cash at a redemption price per Unit equal to 95% of the closing price for the Units on the TSX on the effective day of the redemption. See "Exchange and Redemption of Units".

Conversion of Units

Unitholders may convert Units of any class of the First Asset ETF into whole Units of any other class of the First Asset ETF in any month. See "Exchange and Redemption of Units – Conversion of Units" and "Income Tax Considerations – Taxation of Unitholders".

Modification of Terms

Any amendment to the Declaration of Trust that creates a new class of Units will not require notice to existing Unitholders unless such amendment in some way affects the existing Unitholders' rights or the value of their investment. An amendment such as the re-designation of a class of Units or the termination of a class of Units,

which has an effect on a Unitholder's holdings, will only become effective after 30 days' notice to Unitholders of the applicable classes of Units.

All other rights attached to the Units may only be modified, amended or varied in accordance with the terms of the Declaration of Trust. See "Unitholder Matters — Amendments to the Declaration of Trust".

Voting Rights in the Portfolio Securities

Holders of Units will not have any voting rights in respect of the securities in the First Asset ETF's portfolio.

UNITHOLDER MATTERS

Meetings of Unitholders

Meetings of Unitholders will be held if called by the Manager or upon the written request to the Manager of Unitholders holding not less than 25% of the then outstanding Units.

Matters Requiring Unitholder Approval

NI 81-102 requires a meeting of Unitholders to be called to approve certain changes as follows:

- (i) the basis of the calculation of a fee or expense that is charged to the First Asset ETF or its Unitholders is changed in a way that could result in an increase in charges to the First Asset ETF or to its Unitholders, except where:
 - (A) the First Asset ETF is at arm's length with the person or company charging the fee; and
 - (B) the Unitholders have received at least 60 days' notice before the effective date of the change;
- (ii) a fee or expense, to be charged to the First Asset ETF or directly to its Unitholders by the First Asset ETF or the Manager in connection with the holding of Units that could result in an increase in charges to the First Asset ETF or its Unitholders, is introduced;
- (iii) the Manager is changed, unless the new manager of the First Asset ETF is an affiliate of the Manager;
- (iv) the fundamental investment objective of the First Asset ETF is changed;
- (v) the First Asset ETF decreases the frequency of the calculation of its net asset value per Unit;
- (vi) other than a Permitted Merger for which Unitholder approval is not required, the First Asset ETF undertakes a reorganization with, or transfers its assets to, another mutual fund, if the First Asset ETF ceases to continue after the reorganization or transfer of assets and the transaction results in the Unitholders becoming securityholders in the other mutual fund;
- (vii) the First Asset ETF undertakes a reorganization with, or acquires assets from, another mutual fund, if the First Asset ETF continues after the reorganization or acquisition of assets, the transaction results in the securityholders of the other mutual fund becoming Unitholders, and the transaction would be a material change to the First Asset ETF; or
- (viii) any matter which is required by the constitutive documents of the First Asset ETF; by the laws applicable to the First Asset ETF or by any agreement to be submitted to a vote of the Unitholders.

In addition, the auditors of the First Asset ETF may not be changed unless:

- (i) the IRC of the First Asset ETF has approved the change; and
- (ii) Unitholders have received at least 60 days' notice before the effective date of the change.

Approval of Unitholders will be deemed to have been given if expressed by resolution passed at a meeting of Unitholders, duly called on at least 21 days' notice and held for the purpose of considering the same, by at least a majority of the votes cast.

Amendments to the Declaration of Trust

If a Unitholder meeting is required to amend a provision of the Declaration of Trust, no change proposed at a meeting of Unitholders shall take effect until the Manager has obtained the prior approval of not less than a majority of the votes cast at such meeting of Unitholders or, if separate class meetings are required, at meetings of each class of Unitholders.

Subject to any longer notice requirements imposed under securities legislation, the Trustee is entitled to amend the Declaration of Trust by giving not less than 30 days' notice to Unitholders affected by the proposed amendment in circumstances where:

- (a) the securities legislation requires that written notice be given to Unitholders before the change takes effect;
- (b) the change would not be prohibited by the securities legislation; or
- (c) the Trustee reasonably believes that the proposed amendment has the potential to adversely impact the financial interests or rights of the Unitholders, so that it is equitable to give Unitholders advance notice of the proposed change.

All Unitholders shall be bound by an amendment affecting the First Asset ETF from the effective date of the amendment.

The Trustee may amend the Declaration of Trust, without the approval of or prior notice to any Unitholders, if the Trustee reasonably believes that the proposed amendment does not have the potential to adversely impact the financial interests or rights of Unitholders or that the proposed amendment is necessary to:

- (a) ensure compliance with applicable laws, regulations or policies of any governmental authority having jurisdiction over the First Asset ETF or the distribution of its Units;
- (b) remove any conflicts or other inconsistencies which may exist between any terms of the Declaration of Trust and any provisions of any applicable laws, regulations or policies affecting the First Asset ETF, the Trustee or its agents;
- (c) make any change or correction in the Declaration of Trust which is a typographical correction or is required to cure or correct any ambiguity or defective or inconsistent provision, clerical omission or error contained therein;
- (d) facilitate the administration of the First Asset ETF as a mutual fund trust or make amendments or adjustments in response to any existing or proposed amendments to the Tax Act or its administration which might otherwise adversely affect the tax status of the First Asset ETF or its Unitholders;
- (e) protect the Unitholders; or

- (f) make any change or correction which is necessary or desirable for the purpose of bringing the Declaration of Trust into conformity with current market practice within the securities or investment fund industries or curing or correcting any administrative difficulty.

Permitted Mergers

The First Asset ETF may, without Unitholders' approval, enter into a merger or other similar transaction which has the effect of combining the fund or its assets (a "**Permitted Merger**") with any other investment fund or funds that have investment objectives that are similar to the First Asset ETF's portfolio, subject to:

- (a) approval of the merger by the First Asset ETF's IRC in accordance with NI 81-107;
- (b) the First Asset ETF being reorganized with, or its assets being transferred to, another mutual fund to which NI 81-102 and NI 81-107 apply, and that is managed by the Manager, or an affiliate of the Manager;
- (c) compliance with certain other requirements of applicable securities legislation; and
- (d) Unitholders have received at least 60 days' notice which notice may be by way of press release, before the effective date of the Permitted Merger.

In connection with a Permitted Merger, the merging funds will be valued at their respective net asset values for the purpose of such transaction.

Reporting to Unitholders

The Manager, on behalf of the First Asset ETF, will in accordance with applicable laws furnish to each Unitholder, unaudited semi-annual financial statements and an interim management report of fund performance for the First Asset ETF within 60 days of the end of each semi-annual period and audited annual financial statements and an annual management report of fund performance for the First Asset ETF within 90 days of the end of each financial year. Both the semi-annual and the annual financial statements of the First Asset ETF will contain a statement of financial position, a statement of comprehensive income, a statement of changes in equity, a statement of cash flows and a statement of investment portfolio.

Any tax information necessary for Unitholders to prepare their annual federal income tax returns will also be distributed to them within 90 days after the end of each taxation year of the First Asset ETF. Neither the Manager nor the Registrar and Transfer Agent are responsible for tracking the adjusted cost base of a Unitholder's Units. Unitholders should consult with their tax or investment adviser in respect of how to compute the adjusted cost base of their Units and in particular how designations made by the First Asset ETF to a Unitholder affect the Unitholder's tax position.

The net asset value per Unit of the First Asset ETF will be determined by the Manager on each Valuation Day and will usually be published daily in the financial press.

TERMINATION OF THE FIRST ASSET ETF

Subject to complying with applicable securities law, the Manager may terminate the First Asset ETF at its discretion. In accordance with the terms of the Declaration of Trust and applicable securities law, Unitholders will be provided 60 days advance written notice of the termination.

If the First Asset ETF is terminated, the Trustee is empowered to take all steps necessary to effect the termination of the First Asset ETF. Prior to terminating the First Asset ETF, the Trustee may discharge all of the liabilities of the First Asset ETF and distribute the net assets of the First Asset ETF to the Unitholders.

Upon termination of the First Asset ETF, each Unitholder shall be entitled to receive at the Valuation Time on the termination date out of the assets of the First Asset ETF: (i) payment for that Unitholder's Units at the net asset value per Unit for that class of Units determined at the Valuation Time on the termination date; plus (ii) where applicable, any net income and net realized capital gains that are owing to or otherwise attributable to such Unitholder's Units that have not otherwise been paid to such Unitholder; less (iii) any applicable redemption charges and any taxes that are required to be deducted. Payment shall be made by cheque or other means of payment payable to such Unitholder and drawn on the First Asset ETF's bankers and may be mailed by ordinary post to such Unitholder's last address appearing in the register of Unitholders or may be delivered by such other means of delivery acceptable to both the Manager and such Unitholder.

Procedure on Termination

The Trustee shall be entitled to retain out of any assets of the First Asset ETF, at the date of termination of the First Asset ETF, full provision for all costs, charges, expenses, claims and demands incurred or believed by the Trustee to be due or to become due in connection with or arising out of the termination of the First Asset ETF and the distribution of its assets to the Unitholders. Out of the moneys so retained, the Trustee is entitled to be indemnified and saved harmless against all costs, charges, expenses, claims and demands.

PLAN OF DISTRIBUTION

Units are being offered for sale on a continuous basis by this prospectus and there is no maximum number of Units that may be issued. The Units shall be offered for sale at a price equal to the net asset value of such class of Units determined at the Valuation Time on the effective date of the subscription order.

The Units of the First Asset ETF are listed on the TSX and investors can buy or sell such Units on the TSX through registered brokers and dealers in the province or territory where the investors reside. Investors may incur customary brokerage commissions in buying or selling Units. No fees are paid by investors to the Manager or any First Asset ETF in connection with buying or selling of Units on the TSX.

Non-Resident Unitholders

At no time may (i) non-residents of Canada, (ii) partnerships that are not Canadian partnerships or (iii) a combination of non-residents of Canada and such partnerships (all as defined in the Tax Act) be the beneficial owners of a majority of the Units (on either a number of Units or fair market value basis) and the Manager has informed the Registrar and Transfer Agent of the First Asset ETF of this restriction. The Manager may require declarations as to the jurisdictions in which a beneficial owner of Units is resident and, if a partnership, its status as a Canadian partnership. If the Manager becomes aware, as a result of requiring such declarations as to beneficial ownership or otherwise, that the beneficial owners of 40% of the Units then outstanding (on either a number of Units or fair market value basis) are, or may be, non-residents and/or partnerships that are not Canadian partnerships, or that such a situation is imminent, the Manager may make a public announcement thereof. If the Manager determines that more than 40% of the Units (on either a number of Units or fair market value basis) are beneficially held by non-residents and/or partnerships that are not Canadian partnerships, the Manager may send a notice to such non-residents and/or partnerships, chosen in inverse order to the order of acquisition or in such manner as the Manager may consider equitable and practicable, requiring them to sell their Units or a portion thereof within a specified period of not less than 30 days. If the Unitholders receiving such notice have not sold the specified number of Units or provided the Manager with satisfactory evidence that they are not non-residents or partnerships other than Canadian partnerships within such period, the Manager may on behalf of such Unitholders sell such Units and, in the interim, shall suspend the voting and distribution rights attached to such Units. Upon such sale, the affected holders shall cease to be beneficial holders of Units and their rights shall be limited to receiving the net proceeds of sale of such Units.

Notwithstanding the foregoing, the Manager may determine not to take any of the actions described above if the Manager has been advised by legal counsel that the failure to take any of such actions would not adversely impact the status of the First Asset ETF as a mutual fund trust for purposes of the Tax Act or, alternatively, may take such other action or actions as may be necessary to maintain the status of the First Asset ETF as a mutual fund trust for purposes of the Tax Act.

RELATIONSHIP BETWEEN THE FIRST ASSET ETF AND THE DEALERS

The Manager, on behalf of the First Asset ETF, may enter into various Dealer Agreements with registered dealers (that may or may not be Designated Brokers) pursuant to which the Dealers may subscribe for Units as described under “Purchases of Units”. Such registered dealers may be related to the Manager. See “Organization and Management Details of the First Asset ETF - Conflicts of Interest”.

A Dealer Agreement may be terminated by the registered dealer at any time by notice to First Asset, provided that, except in certain conditions, no such termination will be permitted after the registered dealer has subscribed for Units and such subscription has been accepted by First Asset.

No Designated Broker or Dealer has been involved in the preparation of this prospectus, nor has it performed any review of the contents of this prospectus. The applicable Designated Broker and Dealers do not act as underwriters of the First Asset ETF in connection with the distribution of Units under this prospectus. See “Organization and Management Details of the First Asset ETF - Conflicts of Interest”.

PRINCIPAL HOLDERS OF UNITS

CDS & Co., the nominee of CDS, is the registered owner of the Units of the First Asset ETF, which it holds for various brokers and other persons on behalf of their clients and others. From time to time, the First Asset ETF or another investment fund managed by the Manager or an affiliate thereof, may beneficially own, directly or indirectly, more than 10% of the Units of the First Asset ETF.

PROXY VOTING DISCLOSURE FOR PORTFOLIO SECURITIES HELD

The proxies associated with the portfolio securities held by the First Asset ETF will be voted by the Portfolio Manager in accordance with the Portfolio Manager’s proxy voting policy (the “**Proxy Voting Policy**”). The Portfolio Manager is responsible for completing and executing all corporate actions including the voting of proxies on behalf of the First Asset ETF. The Portfolio Manager is responsible for maintaining records of all proxies voted.

Generally, the Portfolio Manager will vote in favor of routine corporate housekeeping proposals, including election of directors (where no corporate governance issues are implicated), selection of auditors, and increases in or reclassification of common stock. For other proposals, including more complex, non-routine matters (i.e. certain issues related to the compensation and liability of directors, amendments to the organizational documents of an issuer, share and debt issuances, related party transactions, reorganizations, restructurings, shareholder proposals and proposals relating to corporate social responsibility) the Portfolio Manager shall determine whether a proposal is in the best interests of its clients and may take into account the following factors, among others:

- whether the proposal was recommended by management and the Portfolio Manager’s opinion of management;
- whether the proposal acts to entrench existing management; and
- whether the proposal fairly compensates management for past and future performance.

Any conflicts of interests which may arise in connection with the voting of proxies must be reported immediately to the Portfolio Manager’s chief compliance officer and the Manager’s chief compliance officer, and if necessary, referred to the Independent Review Committee. The Proxy Voting Policy includes procedures intended to ensure that proxies associated with portfolio securities of the First Asset ETF are received and voted by the Portfolio Manager on behalf of the First Asset ETF in accordance with the Proxy Voting Policy. Proxies must be voted in a timely manner and in the best interests of clients.

The First Asset ETF’s proxy voting record for the annual period from July 1 to June 30 will be available at any time after August 31 following the end of that annual period, to any Unitholder on request, at no cost, and will also be

available on the internet at www.firstasset.com. Information contained on the First Asset ETF's website is not part of this prospectus and is not incorporated herein by reference.

MATERIAL CONTRACTS

The only contracts material to the First Asset ETF are the:

- (a) **Declaration of Trust.** For additional disclosure related to the Declaration of Trust, including relevant termination provisions and other key terms of the agreement, see "Organization and Management Details of the First Asset ETF – The Trustee", "Attributes of Securities – Modification of Terms", and "Unitholder Matters – Amendments to the Declaration of Trust";
- (b) **Portfolio Management Sub-Advisory Agreement.** For additional disclosure related to the Portfolio Management Agreement, including relevant termination provisions and other key terms of the agreement, see "Organization and Management Details of the First Asset ETF – Details of the Portfolio Management Sub-Advisory Agreement"; and
- (c) **Custodian Agreement.** For additional disclosure related to the Custodian Agreement, including relevant termination provisions and other key terms of the agreement, see "Organization and Management Details of the First Asset ETF – Custodian".

Copies of these agreements may be examined at the head office of the Manager at 2 Queen Street East, Suite 1200, Toronto, Ontario, M5C 3G7.

LEGAL AND ADMINISTRATIVE PROCEEDINGS

The First Asset ETF is not involved in any legal proceedings, nor is the Manager aware of existing or pending legal or arbitration proceedings involving the First Asset ETF.

EXPERTS

Ernst & Young LLP, the auditors of the First Asset ETF, have consented to the use of their report dated March 27, 2017 to the Unitholders of the First Asset ETF on the statement of financial position as at December 31, 2016 and December 31, 2015, and the statements of comprehensive income, changes in net assets attributable to holders of redeemable securities and cash flows for the periods then ended, and a summary of significant accounting policies and other explanatory information.

Ernst & Young LLP has confirmed that they are independent with respect to the First Asset ETF within the meaning of the Rules of Professional Conduct of the Chartered Professional Accountants of Ontario.

EXEMPTIONS AND APPROVALS

The First Asset ETF will rely on exemptive relief from the Canadian securities regulatory authorities:

- (a) to permit a Unitholder to acquire more than 20% of the Units through purchases on the TSX without regard to the takeover bid requirements of applicable Canadian securities legislation provided the Unitholder, and any person acting jointly or in concert with such Unitholder, undertakes to the Manager not to vote more than 20% of the Units at any meeting of Unitholders. See "Purchases of Units – Buying and Selling Units";
- (b) to relieve the First Asset ETF from the requirement that a prospectus contain a certificate of the underwriters;
- (c) to relieve the First Asset ETF from the requirement to include in its prospectus the statement respecting purchasers' statutory rights of withdrawal and remedies of rescission or damages in

substantially the form prescribed in item 36.2 of Form 41-101F2 *Information Required in an Investment Fund Prospectus*;

- (d) to permit the First Asset ETF to: (i) invest up to 100% of its net asset value in securities of any exchange traded mutual fund that is not an index participation unit and is a reporting issuer in Canada (each, a “**Canadian Underlying ETF**”); (ii) invest up to 10% of its net asset value in securities of exchange traded mutual funds that are not index participation units and are not reporting issuers in Canada, but whose securities are listed for trading on a stock exchange in the United States (each, a “**U.S. Underlying ETF**”); and (iii) pay brokerage commissions in relation to its purchase and sale of securities of Canadian Underlying ETFs and U.S. Underlying ETFs;
- (e) to permit the First Asset ETF to use references to Lipper Leader ratings and Lipper Awards in sales communications;
- (f) to permit the disclosure and marketing of annual FundGrade A+ Awards and monthly FundGrade Ratings;
- (g) to relieve the First Asset ETF from the requirement contained in paragraph 12.2(2)(a) of National Instrument 81-106 *Investment Fund Continuous Disclosure* for a person or company that solicits proxies, by or on behalf of management of the First Asset ETF, to send an information circular to each registered holder of securities of the First Asset ETF whose proxy is solicited, and instead allow the First Asset ETF to send a Notice-and-Access Document (as defined in the exemptive relief decision) using the Notice-and-Access Procedure (as defined in the exemptive relief decision); and
- (h) to permit the Manager to call meetings of the First Asset ETF using the Notice-and-Access Procedure as permitted by the terms of relief.

Additionally, certain dealers of the First Asset ETF, including the Designated Brokers and Dealers of the First Asset ETF, have received exemptive relief from the Canadian securities regulatory authorities from the requirement that a dealer, not acting as agent of the purchaser, who receives an order or subscription for a security offered in a distribution to which the prospectus requirement of the securities legislation of the provinces and territories apply, send or deliver to the purchaser or its agent, unless the dealer has previously done so, the latest prospectus and any amendment either before entering into an agreement of purchase and sale resulting from the order or subscription, or not later than midnight on the second business day after entering into that agreement. As a condition of this exemptive relief, the dealer is required to deliver a copy of the ETF Facts of the First Asset ETF to a purchaser if the dealer does not deliver a copy of this prospectus. This relief will expire upon the coming-into-force of amendments to National Instrument 41-101 *General Prospectus Requirements* which will codify the exemptive relief. Currently, the amendments are expected to come-into-force on December 10, 2018.

OTHER MATERIAL FACTS

International Information Reporting

Pursuant to the Canada-United States Enhanced Tax Information Exchange Agreement entered into between Canada and the United States on February 5, 2014 (the “**IGA**”) and related Canadian legislation in the Tax Act, the dealers through which Unitholders hold their Units are required to report certain information with respect to Unitholders who are U.S. residents or U.S. citizens (including U.S. citizens who are residents and/or citizens of Canada), and certain other “U.S. Persons”, as defined under the IGA (excluding Plans, as defined above under “Income Tax Considerations – Status of the First Asset ETF”), to the CRA. The CRA is expected to provide the information to the U.S. Internal Revenue Service.

Pursuant to the provisions of the Tax Act that implement the Organization for Economic Co-operation and Development Common Reporting Standard (the “**CRS Provisions**”), “Canadian financial institutions” (as defined in the CRS Provisions) would be required to have procedures in place to identify accounts held by residents of foreign

countries (other than the U.S.) or by certain entities the “controlling persons” of which are resident in a foreign country (other than the U.S.) and to report required information to the CRA. Such information would be exchanged on a reciprocal, bilateral basis with the countries in which the account holders or such controlling persons are resident, where such countries have agreed to a bilateral information exchange with Canada under the Common Reporting Standard.

Under the CRS Provisions, Unitholders may be required to provide certain information regarding their investment in the First Asset ETF to any applicable Canadian financial institution (for instance completing a Declaration of Tax Residence or similar form) for the purpose of complying with the CRS Provisions and, where applicable, such information exchange (which information is initially required to be provided to the CRA by May 1, 2018), unless the investment is held within a Plan.

Management of the First Asset ETF

First Asset may, at any time and without seeking Unitholder approval, assign the Declaration of Trust to an affiliate.

PURCHASERS’ STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase exchange traded mutual fund securities within 48 hours after the receipt of a confirmation of a purchase of such securities. In several of the provinces and territories of Canada, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation, or for non-delivery of the ETF Facts, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory.

The purchaser should refer to the applicable provisions of the securities legislation of the province or territory for the particulars of these rights or should consult with a legal adviser.

DOCUMENTS INCORPORATED BY REFERENCE

Additional information about the First Asset ETF is, or will be, available in the following documents:

- (a) the most recently filed comparative annual financial statements, together with the accompanying report of the auditor;
- (b) any interim financial statements filed after those annual financial statements;
- (c) the most recently filed annual management report of fund performance;
- (d) any interim management report of fund performance filed after that most recently filed annual management report of fund performance; and
- (e) the most recently filed ETF Facts.

These documents are or will be incorporated by reference into this prospectus, which means that they legally form part of this document just as if they were printed as part of this document. You can obtain a copy of these documents, at your request, and at no cost, by calling: 416-642-1289 or toll-free 1-877-642-1289 or by contacting your dealer. These documents are available on the First Asset ETF’s website at www.firstasset.com. These documents and other information about the First Asset ETF will also be available on the internet at www.sedar.com.

In addition to the documents listed above, any documents of the type described above that are filed on behalf of the First Asset ETF after the date of this prospectus and before the termination of the distribution of the First Asset ETF are deemed to be incorporated by reference into this prospectus.
